#### CREATING MUCH INTEREST

Atlanta Women Who Claim the Divine Gift a Healing.

Atlanta, April 15.—Atlanta preachers and Christian people generally are sharply divided in opinion over the alleged miraculous cures which are being worked by divine power by Mrs. Woodworth-Etter who is preaching at the Old Baptist Tabernacle.

Some ministers have gone so far as to say that there is Scriptural justification for what Mrs. Etter is doing, and that she may actually be working miracles through the power of Christ just as the Apostles did in the golden days.

Others say it is nothing but superstition, and still a third class darkly hint that if Mrs. Etter has any supernatural power it must come not from Christ but from the Devil.

In the meantime hundreds of people are attending her services, and people who have relatives who are blind or lame or blind or otherwise afflicted, are taking them to the Old Tabernacle, and begging Mrs. Etter to cure them, just as people used to make pilgrimages in the middle ages to the shrines of the various saints.

#### THE MARKET FIRST

(Spartanburg Herald.)

The present administration has been in office six months. In that time it has set the house in order, something has carried out and it still carries out much work out for it by the previous administration, such as paving, sewerage extension and the like, but it has not acted finally upon any one of the several important questions that has been knocking at the council chamber door. It has done nothing with the market question; it has done nothing with the garbage question; it has been indifferent to the park question; no decision has been reached as to the city hall; it has paved streets, but little attention has been paid to other streets, where a little shoving up and dragging would have done much good; and now comes the "Great White Way" before council with many supporters.

The Herald knows full well the difficulties confronting the administration, where there are so many demands involving the expenditure of money not in sight, and we realize the wisdom of giving careful consideration to questions affecting the common interests of the community, but there is such a thing as carrying an obligation too far. The people want action; they want progress within reason; and when they are given the things they want, when they are getting the service, there is no complaint. Now, the market question is one of the oldest. It has been discussed for years, and the town is practically unanimous in its demand for a central market. The people want it. We would suggest that the matter be given right of way until it is finally acted upon. The proposition now before council is a good one. We know of some better unless the city is in position to build its own market, which is to be desired. If it is impossible to do that at the present time, it might be possible to establish the market according to Mr. Calvert's proposal, taking an option on the property at a fixed price to extend over a period of years. Upon some basis this market question should be decided and gotten out of the way.

#### SCHOOL AT UNION

Will Close Saturday Evening With a Play Public Invited.

Melton, April 14.—The school at Union will close Saturday. There will be a play Saturday night to which the public is invited. A small admission fee for school improvement will be charged. This entertainment is by local talent and the public and friends of the school may expect to be highly entertained.

#### TO ADDRESS PRESS ASSOCIATION

(Spartanburg Herald.)  
President Fairfax Harrison of the Southern railway, will deliver the principal address before the South Carolina Press association, which meets early in July at Chick Springs, a popular resort on the line of the interurban between Spartanburg and Greenville. The announcement will be of interest to members of that organization and to the public. Mr. Harrison, since becoming the head of the Southern railway, has demonstrated his ability to talk railroading in a way that is convincing and interesting to the layman. He has thrown light upon many knotty problems confronting the common carriers and has done so in a way that has put his point in the public mind. The railroads are working for the upbuilding of their territory and the newspapers are engaged in the same business, which makes it well for the press and the president of the Southern to have an opportunity to talk things over. The newspapers are accused, among other things, of running the railroads, and it will be well for editors to get a few points from Mr. Harrison as to how they should be conducted. The press of South Carolina will be glad to hear Mr. Harrison.

Singing Convention.  
The Anderson-Oakwood singing convention will meet with the Orrville Baptist church on the 25th, the 4th Sunday, 10:30 o'clock. All lovers of music are cordially invited. All are asked to bring their books. Un-denominational.

W. P. Stevenson,  
For the Committee.

## NEWS RECEIVED BY CONGRESS

GENERAL SATISFACTION EXPRESSED IN WASHINGTON OVER MOVEMENT

### NO EXCITEMENT

The Landing of Marines and Troops is Discussed Speculatively

(By Associated Press.)  
Washington, April 14.—News of the dispatch of the fleet to Mexican waters was received in congress with general satisfaction. In the house, Representative Murdock of Kansas, publicly proclaimed the news of Secretary Daniels' order and there was a mild demonstration of approval. No public announcement was made in the senate, but the news quickly spread.

Wednesday the situation will occupy the attention of the senate foreign relations committee. Members of the house foreign affairs committee today also manifested keen interest in developments and Representative Flood, chairman, conferred with his colleagues about preparation for any emergency that might arise. Beyond asserting that the situation seemed to be a serious one, Acting Chairman Shively of the senate foreign relations committee, made no comment.

Many senators and representatives expressed themselves in sympathy with the action of the administration in ordering more ships to Tampico, but declined to be quoted in view of the uncertainty as to what might eventuate.

The dispatch of the fleet created only mild excitement in the national capitol generally. Newspapers ordered their representatives to Hampton Roads, and tonight the navy department had granted permission to twenty reporters and photographers to accompany the fleet on its cruise.

#### A Week's Voyage.

It will be fully a week before the Atlantic fleet is assembled at Tampico, though the ships are expected to be steaming away tomorrow. Rear Admiral Rodgers will rank both Rear Admiral Fletcher and Rear Admiral Mayo and will take complete charge of the situation.

While the ships are under way, General Huerta will have about a week in which to answer the American demands. The crisis in the situation is expected to come if General Huerta declines to yield by the time the Atlantic fleet arrives. Various succeeding steps were being discussed among naval officers today, and those familiar with precedent said there was no exact parallel in international law.

It was pointed out by some that the United States might land marines and seize Tampico to obtain satisfaction for the incident, but this raised the question of whether or not an act of war would be involved. The Washington administration has pronounced itself on the subject of landing marines or marching armed forces into Mexico, as regarding such acts in the nature of war unless permission is given by the government in control of the territory invaded.

#### Talking But Anarchy

Inasmuch as no government is recognized in Mexico, but a state of anarchy exists, the American Government may establish its own precedent in the case. It is not considered likely that if marines actually were landed and the American flag taken ashore in satisfaction for the affront occasioned by the arrest of the marines, any further measures would be insisted on. Some officials, however, insisted that the Huerta command might not resist the landing of American marines, inasmuch as he is backed on land by the Constitutionist forces. Should he consent to a peaceful landing it is likely that they soon would be withdrawn.

The American government has landed marines in San Domingo and Nicaragua but has held that permission was granted in each case. In Nicaragua American marines kept a rear-guard from falling into rebel forces hands.

Officials do not believe other foreign governments will send ships to Mexico in view of the American demonstration. The affair is regarded as one solely between the United States and the Huerta Government, and not involving any foreign governments, though serious eventualities might cause European nations to seek further protection for their interests. Diplomats here took an active interest in the developments, and cabled their home governments the news as it appeared during the day.
