PROSPERITY JOINED HERE WITH PROGRESS CITY IS MAKING GREAT STRIDES

PEACE AND PLENTY

In An Interview To Georgia Newspaper Anderson Man Has An Optimistic Outlook

(From Thursday's Daily.) There may be even a few people right here in Anderson unacquainted with the real strides that the city is making. It may be that man of them do not know what the city is accomplishing and what is yet to be accomplished in the work of progress for every industry in the city. A representative of an Augusta newspaper was in the city yesterday and asked a well known business man of Anderson to tell him just what the city is doing. Because there are some people here afflicted with the "knocking" habit rather than the booster spirit, the interview given out by the Anderson man to the Augusta newspaper is reproduced verbatim:

"Anderson is going through the greatest development period in her history. Already a handsome and prosperous city of nearly 20,000 people, the home of many factories, jobbing houses and commercial enterprises, new concerns continue to come to the city as a headquarters point for Western South Carolina and Northeast Georgia. The city is the second largest textile center of the South and leads South Carolina in the production of metal products. Its textile plants employ more than 4500 people and its other manufacturing plants 1000 more. One hundred and nine travelling men make Anderson their headquarters. Fourteen jobbing firms are located here.

"At present something over \$1,400,000 is being spent in Anderson or contracted for on various public and private improvements, including \$100,000 hotel; \$58,000 theatre, \$400,000 passenger and freight terminals, \$100,000 telephone improvements; \$250,000 power line improvements; \$250,000 in new residences excluding development at North Anderson, where over \$80,000 is being spent. It is stated here that as much money is now being spent or contracted for in Anderson as in Greenville an Spartanburg combined. The city is alive and optimistic and ready for various public improvements such as additional street paving, etc., to be consummated when new city council is elected. There is some agitation here, however for commission government.

"The Interurban between Anderson and Greenwood and between Anderson and Spartanburg via Greenville, is having great effect on the growth of the city. The railroads are also vastly improving their services, and it is anticipated that shortly a much better service between Anderson and Augusta via the C. & W. C. will be secured, the efforts of the Merchants and Manufacturers Association of Augusta and the local Chamber of Commerce both being actively behind the matter."

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't Stay Gray! Here's a Simple recipe that anybody can apply with a hair brush.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair. Well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy, soft and abundant. Evans' Pharmacy, agents.

RAILROAD PAYS FOR KILLING DOG

Chas. A. Cromer Awarded \$25 Against Southern Railway For Killing a Canine

(From Thursday's Daily.) An interesting case was heard before Magistrate Clements yesterday. This action was brought by Chas. A. Cromer against the Southern Railway. Mr. Cromer was suing the railroad for killing one of his fine dogs, this occurrence having taken place some time in October. The case was called before Mr. Clements and J. S. Acker appeared for the plaintiff and the defendant was represented by C. E. Cooley.

Every feature of the case was gone into thoroughly. The pedigree of the dog was explained, it being shown that the dog was very valuable, since he was largely blood-hound and there-
