Rice, county secretary, have received the names of nearly all the enrollment committee for the various precincts. ### "DETECTIVES" LEFT SENEGA

#### WORKED UP CASES AGAINST ALLEGED BLIND TIGERS OF THE CITY

#### NUBIAN ROCKED

#### Negro Who Bought Liquor For Detectives Had To Hurry To Get Aboard the Train

J. L. Ashburn, a detective working for some bureau in Columbia, was in the city yesterday returning from Senega where he had been working up some cases against alleged blind tigers. Mr. Ashburn reports that the hospitality of the city was very limited for the people up that way seemed in a hurry to speed the parting guest—at least that was the case with him. He and his brother had been working on the cases and had used a negro to assist them. This negro was very much in evidence, it appears, at the trial of the cases and when the detectives and their Nubian were boarding the Blue Ridge for Columbia the committee on hospitality was there in force, yet, forced to the word, according to the detectives, for that was the pleasant parting that they gave to the negro, there being some rock and other missiles mixed in with the parting salute. The Senega Farm and Factory, has the following interesting account of the visit of the "detectives":

Coming to Senega under assumed names and securing evidence by questionable methods, J. L. and L. W. Ashburn, "detectives" and Robert Young, a negro assistant, had five negroes in police court this morning under a charge of selling liquor. Two of the defendants were found "not guilty" while three were given heavy fines. Mayor J. G. Harper.

George Hicks who conducts a restaurant on East Main street, plead guilty and was fined \$30 or 30 days on the public works. Joe Wilson and Elias Bryant were turned loose; though the evidence was practically the same in other cases. Pearl White and Julia Starke, has applied to circuit court and it is freely predicted that she will be freed when the trial at the next term of court.

The negro assistant was material witness in the five four of the cases he was purchased liquor from the in much the same manner as he had offered for the night police force, search him before he called on his intended victim. The officer swore each time that he found no liquor on him. Then the negro would go to the party suspected of selling liquor. Each time when he returned, he would again be searched and found with liquor.

Mayor Harper considered the evidence gotten in this manner and by these methods sufficient to convict three of the negroes. Several negroes swore that the "detectives" evidence was false, but the mayor sided with the black stoat.

The Ashburn brothers came to Senega last week under the names of Davis and Wesley and distributed posters everywhere saying they were moving picture show men and would open a theatre in town July 4. They have been doing similar work in various towns during the past few months.

Members of council, acting upon a suggestion from Mayor Harper, decided to employ them at the last monthly meeting. What their salary is is not given in the paper. It is said that they were working on a commission plan. The police department has been very inactive in their illicit liquor dealers for some time. During the past several months it has been a rare thing that "blind tigers" were hauled before the mayor.

None of the negroes in court this morning employed lawyers. The Ashburn brothers and Policeman Taylor were free in their advice to Mayor Harper as to what evidence was competent and which parts should be omitted. When the ignorant negroes tried to tell where Robt. Young, the so-called "detective," was mistaking the facts they were cut short and told to stick to "the case." Young's testimony was accepted throughout and the whole truth by the court and the convictions found solely on his evidence.

### U. S. TO MAKE ARMOR PLATE

#### BILL IS AMENDED TO PROVIDE FOR AN INQUIRY IN MATTER

#### THREE BATTLESHIPS

#### Are Provided for in the Naval Appropriation Bill As It Was Acted Upon Yesterday

(By Associated Press.) Washington, June 2.—The senate today passed the annual naval appropriation bill carrying about \$141,000,000, providing for the administration two battleship construction program, and authorizing in addition, the building of a third modern dreadnought with money to be derived from the sale of the Idaho and Mississippi.

The measure will now go to conference between the two houses. At the last moment an amendment was added to create a special committee to report on the location and cost of a government armor plate factory. A similar provision in the measure as it passed the house has been eliminated by the senate committee.

The clause in the bill directing the building of one of the new battleships at a government yard led to a prolonged discussion.

Senator Vanderman sought to amend the bill to appropriate for only one new battleship; Senator Thomas wanted more and Senator Brandegee contended for three. All these amendments were defeated.

Senator Vanderman declared there should be more of the golden rule and less of the "damnable" rule of war. "Does not the senator believe we ought to prepare for war if this country is going to invade another merely because a usurper in that country refuses to salute the flag?" inquired Senator Works.

"I am not informed of the motives of the present administration in entering Mexico," responded Senator Vanderman, "but I am coming to the conclusion that it would be infinitely better for the American people to attend to their business and let other nations attend to theirs. I am tired of the United States doing police duty."

An amendment by Senator Gore was adopted appropriating \$150,000 for fuel oil storage at some point accessible to the Texas and Oklahoma oil fields. Senator La Follette's amendment offering to any informant ten per cent of any fine collected for conspiracy to defraud the government in furnishing war materials, and one offered by Senator Kenyon to authorize the president to call an international conference in Washington in the autumn to consider an agreement to suspend battleship construction, were voted down.

**CUP DEFENDERS**  
Will Begin the Month's Training Process Today.

New York, June 1.—The three-month period of training and trial races for the three yachts, candidates for the position of America's cup defender, begins on Tuesday, with the races of the New York Yacht Club on

### Glenn Cove, Long Island.

Between June 2 and August 22, no less than 45 days of racing are scheduled for the Resolute, Defiance and Vanitie. During the month of June, the races in which the cup defense candidates will compete are considered in the light of practice and tuning up contests, but beginning early in July the cup committee will consider each race in which these three yachts appear as trial events, and the showing made from day to day will have a direct bearing on the final selection of the yacht which will oppose Sir Thomas's Shamrock IV, off Sandy Hook in September.

The two principal features of this long schedule are the round-robin series off Newport, July 2 to 15, and the final trial contests over the same course, August 15 to 22. In the July series each yacht will race for ten against the others while in the August races each day's contest will be a three-yacht race. In case, however, the cup committee should reach a decision regarding the best boat of the trio at any time previous to August 22, it is expected that the remaining dates will be canceled in order that the cup defender may have more time for dry-docking, overhauling and other final preparations for the international regatta off Sandy Hook scheduled to start on Sept. 10.

Henley England, June 1.—Suffragettes today burned the historic parish church of St. Mary's, Wargrave, three miles from here, on the Thames. All that remains of the structure, which was built in 1538, is a portion of the tower and the wooden walls. Just inside the ruins a woman found a hammer and a heap of suffragette literature with a sign that said "Suffragettes' work."

The only property saved was an ancient register and a few church ornaments. These were retained by the vicar, the Rev. Basil S. Batty, who rushed through the flames to get them.
