PRICES FOR FOOD

One question of vital interest to the United States in connection with the European war is the disconcerting increase in the price of food commodities.

INTERESTING WAR FIGURES

If you have been studying a map of Europe since the war began we are sure that you have been surprised to see how little you know of the countries involved.

A SURE ENOUGH SABBATH

In Melbourne no Sunday papers are permitted, no hotels are allowed to open their bars from midnight on Saturday until Monday morning and any one driving past a place of worship at a faster pace than a walk while service is in progress is liable to be arrested.

REVERSAL OF FORM

Of the 26 barons who signed the Magna Charter says an English journal, three wrote their names and 23 made their mark.

DENTISTS AND CIVILIZATION

Nothing has had a greater influence on civilization in the last half century than the practice of dentistry. There are some now living who recall when all of the "tooth doctoring" was done by the village blacksmith.

PORK BARREL DANGEROUS

The republican papers are charging that of the "rivers and harbors bill," \$1,000,000 is "pork." The total expenditure planned in the bill is \$53,000,000.

THE PSYCHOLOGY OF WORRY

While we cannot subscribe unreservedly to the faith cure propaganda, yet there is something, indeed quite a lot, in the psychology of worry.

WAB RISK INSURANCE

Will be Disposed of Early Next Week in the House.

PRIZES WERE AWARDED

THE ANDERSON INTELLIGENCER

Entered as second-class matter April 28, 1914, at the post office at Anderson, South Carolina, under the Act of March 3, 1879.

PRICES FOR FOOD

The public is justified in its indignant suspicions that the increase in prices of certain foodstuffs produced exclusively in this country and for which we do not have to depend on Europe, could not be sustained without some sort of an agreement among producers and dealers.

INTERESTING WAR FIGURES

Here are some interesting facts about the various nations that are at war. Austria-Hungary has 261,035 square miles with a population of 49,418,596.

A SURE ENOUGH SABBATH

The thing that this state needs most of all is to have some candidates indicted for libel and given public jobs on chaingangs.

REVERSAL OF FORM

This would be a psychological moment to forget to feed some of the militant suffs who are on a hunger strike.

DENTISTS AND CIVILIZATION

Dentists are doing more for Christianity than almost any other class of professional men outside of the pulpit. Bad teeth and the bad condition of the teeth cause many of the disorders of the body, distempers of the mind and disease of the soul.

PORK BARREL DANGEROUS

Some people drive their machines regard of other people's rights. One blows his whistle about every 75 yards but his machine is not numbered; another one doesn't blow at all.

THE PSYCHOLOGY OF WORRY

At least one artist who will not be with us in person this coming season is Ysaye, the great Belgian. But in the course of each of his last two visits to this country he made a phenomenally successful series of recordings.

WAB RISK INSURANCE

Washington, August 22.—Although immediate consideration of the administration war risk insurance bill was blocked in the house today by Republican Leader Mann, it will be taken up early next week even if it is necessary for democratic members to invoke the rules committee for a special rule.

PRIZES WERE AWARDED
