SOW MORE GRAIN

If every farmer will sow five acres of oats to the plow, and three acres of wheat to the plow, on ground that is well prepared and well fertilized, he will make enough wheat and oats to do him.

The corn crop is likely to be short in this section as the seasons have not been favorable for making corn. If the war in Europe continues for a long time, there will be a tremendous amount of corn and wheat and oats exported to Europe and this will make corn, wheat and oats high.

September is a good time to sow oats. Prepare the ground carefully and thoroughly before you get to picking cotton, and fertilize it with about 300 pounds to the acre of say, 10-1-3 or 10-1-1, your oats will get well rooted before the cold weather comes on and if sown in the drill it is about as sure a crop as you can plant. These oats will come in early next spring and will help out a short corn crop.

Now and then you hear of a farmer sowing oats in August and we believe the August sowing always makes a good crop.

September is a capital time to sow oats and we believe it will pay you mighty well to sow some this fall.

It always pays to prepare your land well, and to fertilize it well.

War Situation Given By Germans Telling Of Many Victories

(By Associated Press.) London, August 25.—The following dispatches have been received from Berlin by Marconi:

It is officially announced that the German-Austro-Hungarian consuls in Tangier were ordered to leave by the French government August 10.

"The Italian steamer, Ancona, from New York for Italian ports, was held up near Gibraltar. About 70 German conscripts on board were taken at Gibraltar as prisoners of war.

"Fourteen officers and 170 of the crew of Austrian cruiser Zenta, said to have been sunk August 11 in an engagement with the French fleet, have sought refuge in Montenegrin territory. The press, commenting on this engagement, says the men on the Zenta, lapped by the spirit of Tegethoff (a noted Austrian admiral) ventured into the open sea to engage in battle a force probably fifty times stronger, with the object of doing as much damage to the enemy as possible, even though they knew that certain destruction awaited them.

"Russian prisoners, including twenty officers and 300 dragoons, with many guns have been brought to Lemberg, Galicia. The Russian general Wannowsky Ivanoff, has died from injuries received in an engagement.

"The German emperor has sent the following telegram to the king of Wurtemberg.

"With God's gracious assistance, the Duke of Albrecht and his splendid army have gained a glorious victory. You will join me in thanking the Almighty. I have bestowed on the Duke of Albrecht the Iron Cross of the first and second class."

"The emperor has granted 5,000 marks toward the municipal fund for the relief of the unemployed in Berlin.

"Twelve guns, with gun carriages and ammunition carts, captured by the Bavarian troops from the French have been brought to Karlsruhe and placed in the palace yard."

JAPAN WILL DO AS ENGLAND SAYS

Will Live Up to Treaties With Allies and Agreement With America

Tokio, August 25.—The Tokio Kokusai Tsushin (International News Agency) says it is in a position to state "on authority, that it is the settled policy of Japan, approved by the emperor, privy council, cabinet and leading business, that Japan under any future conditions will act strictly in accordance with the terms of the alliance with England, and the treaties and agreements with America and her allies to China."

"Japan will restore Kiao-chow," continues the statement, "will preserve the territorial integrity of China, and the terms of the ultimatum to Germany will be adhered to whether Tsing-tau is taken by force or otherwise. Japan realizes that in these suddenly faced responsibilities, she must act with the utmost circumspection, especially in view of the campaign of misapprehension and the world-wide prevailing misunderstanding of her real motives, ambitions and policies."

"The present is perhaps the most critical moment in her history and Japan must once for all eradicate the suspicion of her motives prevailing in America and fostered by years of anti-Japanese propaganda."

"The partition of China or the violation of Chinese integrity in any way is the latest thing Japan plans. She must desire the friendship and co-operation of all peoples of the world."

The Earl of Courtown comes next at 91, while Lord Arundell will be 90 this year. In quiet succession come the veteran Lord Hilsbury and the Marquis of Abercromby. The father of the house is the Earl of Dufferin, who has been a member for 61 years.

He estimated his casualties at something over 2,000.

WAR AND JOURNALISM

Now is the Time to Advertise When Newspaper Circulation is at High Mark

The stress of war conditions is being felt perhaps nowhere more heavily than in Newspaper Row, where the presses are working overtime to supply the demand for the latest news.

Circulating agencies are attaining their highest marks since the Titanic disaster, and Boston dailies are showing increases of 10 per cent to 25 per cent compared to recent normal figures.

The Post and The Boston American are hovering around the half-million mark. The Post showing figures of 464,000 August 2; 447,000 August 4; and 495,000 August 5, from 10 per cent to 15 per cent above normal. The Globe reports such an influx of orders that no longer have been tabulated. Presses now have been sleeping in the news-rooms to be ready for emergencies.

ANOTHER BATTLE IS REPORTED

French Claim To Have Best of the Situation—Troops Occupy 'Givet'

Paris, Aug. 26.—A new battle is in progress between Maubeuge, (Department of the Nord) and Douai (Department of Doubs.) On it hangs the fate of France. Operations in Alsace along the Rhine would take away the troops on which might depend victory. It is necessary that they all withdraw from Alsace temporarily, to assure its final deliverance. It is a matter of hard necessity.

"West of the Meuse as a result of orders issued Sunday by the commanding chief, the troops which are to remain on the covering line, to turn up the defensive, are massed as follows:

"The French and British troops occupy the front near Givet, which they had gained by hard fighting. They are holding their advantages and are sharply checking the German attacks."

"East of the Meuse our troops have regained their original positions commanding the roads out of the great forest Ardennes."

"To the right we assumed the offensive, driving back the enemy by a vigorous onslaught, but General Joffre stopped pursuit to re-establish his front along the line decided on Sunday. In this attack our troops showed admirable dash. The Sixth Corps notably inflicted punishment on the enemy close to Virton."

"In Lorraine the two armies have begun a combined attack, one starting from Guard Couronne de Nancy, and the other from south of Lunville. The engagement which begun yesterday (Monday) continues at the time of this writing. The sound of cannonading was not heard at Nancy as it was yesterday."

Who Makes Money Farming and How?

In the current issue of Farm and Fireside, the national farm paper published at Springfield, O., Judson C. Welliver, Washington correspondent of that publication, writes an interesting article in which he shows that large farms are more profitable than small ones in proportion to the dollar invested. He says that after two or three years of investigation the government has published a bulletin presenting the conclusions of a survey of representative farms in Indiana, Illinois, and Iowa, wherein is shown who makes the money farming and how; also, who loses it and why. Following is an extract giving some of the facts contained in the government's report:

"In the first place, it seems to have discovered that most of it is made by the landlord, and that chiefly out of the increase in land values. The farmer gets poor wages for his work. In a startlingly large proportion of the cases he gets no wages at all, after allowance is made for interest on investment and cost of help. The man on the small farm makes less wages than the man on the bigger farm, because it costs more for what the efficiency experts might call overhead operating costs on a small than on a large farm. If you don't own enough land to make a good-sized economic farming unit, rent some and farm it along with what you own; if you can't get it, sell what you have and go where you can buy enough, or rent enough to make the proper unit."

"The department figures show that as the size of the farm increases the proportion of it actually raising crops increases, and the number of horses and amount of machinery required per acre to farm it decreases. Likewise, until the farm gets big enough to make it possible to handle labor most efficiently—that is, to have something for all the hands to be doing all the time, that is, worth while—the proportionate labor cost is too large on the small farm. That may be tough on the farsighted experts, but it's a fact they can't get around. The small farms must have the various implements, but they don't do as much work per dollar of cost that they represent, as on the bigger farm."

"The survey which brought out these and many more important facts included 277 farms in Indiana, 198 in Illinois, and 227 in Iowa. In each state rather more than half were operated by the owners, and the rest by tenants."

SEASON IS HOPEFUL

Georgia Governor Thinks He Will Get the Seat.

Atlanta, Ga., Aug. 26.—Friends of Governor Slaton—and he never knew how many there were until the fight made against him to take from him the senatorial nomination—are pointing out today the virtues of the Georgia state democratic executive committee as a prize-fact evidence that he is entitled to the nomination without a contest.

Rule 10 of these official rules says: "If any two persons receive an equal number of unit votes for any nomination the one who receives the largest number of popular votes in said primary shall be declared the nominee."

It makes no mention of the one receiving a "greater" number, but it is clearly indicated that upon the popular vote, other things being "equal" shall rest the nomination. Governor Slaton received far more than an "equal" number of unit votes and an even greater proportion of popular votes, as well as by all rules of fair and honest dealing. The candidate who so faithfully and received so great a plurality of popular votes is entitled to the place.

Governor Slaton is extremely sanguine. He feels absolute confidence that the great mass of the people of his state will not permit any unjust or boobying among their delegates which shall deprive the voters of the power to express their own choice and have it followed.

Atlanta Her Namesake

Mrs. Martha Lumpkin Compton Celebrated Her Birthday Yesterday.

(By Associated Press.) Atlanta, Ga., Aug. 26.—The "girl" for whom Atlanta was once named celebrated her birthday yesterday. She was 87 years old, but almost as brightly as her namesake.

Mrs. Martha Lumpkin Compton was a little girl when this city was a group of wooden houses at the terminus of a new railroad through the wilderness. Her father was Governor Lumpkin, and when it was decided that the village should have a name, the founders of the future city thought "Marthaville" as pretty a name as could be chosen.

Later on, just before the Civil War, the name was again changed, this time to Atlanta.

Mrs. Compton observed her birthday as a winner to a few old friends. She told them many stories of old Georgia from her unforgetting fund.

The small boy entered the store and said, "Give me a pound of tea."

"Black tea or green tea?" asked the grocer.

"Don't make no difference," the boy said. "It's for a lady woman."
