

"I Will Be Governor of All The People"

Official Statement Issued by Richard I. Manning in Columbia Wednesday Afternoon

Special to The Intelligencer
Columbia, Sept. 9.—The state democratic executive committee has been called to meet in Columbia at noon next Tuesday in the library of the state house to canvass the returns and declare the result of the second primary election.

"I will be governor of all the people," said Richard I. Manning, governor-nominate of South Carolina, in a statement issued Wednesday while in Columbia. Mr. Manning came over from his home in Sumter and was greeted by hundreds of Columbians as he walked along Main street to his headquarters. The following statement was given out by Mr. Manning:

"I wish to express my thanks to the whole people of South Carolina for the tremendous vote I received means but one thing—that the principles I advocate, law and order, peace and harmony, struck a responsive chord in the hearts of our people.

"I cannot single out any set of men to whom the result of this election is due, since so many men in so many places worked so steadfastly and so earnestly for our cause. To the farmers, the merchants, the mechanics, the textile workers, the traveling and professional men, and to all others who contributed to the wonderful result, my profound thanks are due and are

hereby given. Except in this statement to the public it will be physically impossible for me to express my heartfelt appreciation to the loyal friends who worked with and for me.

"I would be wide of the mark if I did not express my earnest appreciation of the splendid work done by the newspapers of the state. The press as a whole was untiring in its effort to show the people only the true issues and to print public matters in a true light.

"It would be ingratitude on my part however, not to mention especially the loyal support given me by my home people in Sumter and by the members of the 'Young Men's Manning Club' of Sumter, whose loyalty and devotion were a source of strength and inspiration to me throughout the long campaign.

"I consider that the result of the campaign of 1914 is a triumph for all the agencies which work for the moral uplift of our people and not as a personal victory.

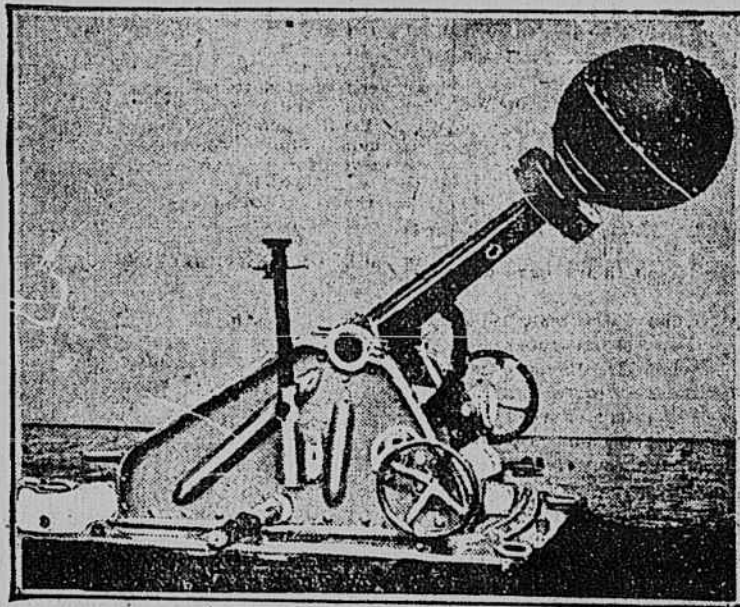

"In conclusion, I wish to say, as I have said many times before, that as governor of South Carolina I will be governor of all the people; that I will not recognize any faction, but that I will serve the whole people to the utmost of my strength, and capacity, with heart and head devoted only to their welfare."

RUSH OF RECRUITS IN LONDON

GERMAN GUN FOR THROWING BOMBS

This weapon, just turned out at the Krupp factory, is regarded as one of the deadliest of implements of warfare.

European War Bulletins; Latest News of All The Important Happenings

Latest official reports from the French government indicate that the offensive tactics undertaken in the last day or two by the allied armies have forced the Germans back at various points in the battle line, which extends from a few miles east of Paris to Verdun, a distance of about 200 miles.

Bordeaux reports officially that the British army has crossed the river Marne and that the Germans have fallen back 25 miles. Efforts of the Germans to break the French lines on the Ourcq river are officially reported to have failed.

Seemingly the Germans are short of ammunition at the front and are having difficulties in provisioning, and the French war department officially announces that "on the whole the Germans appear to be beginning a movement of retreat."

The Russian and Austrian armies continue to oppose each other in a long drawn out engagement in the Lublin district, Russian Poland. An official statement issued at Petrograd declares that both Austrian and German troops have been dislodged from their fixed position and have retired towards the south.

The battlefield in France is that over which Napoleon fought in 1814, with entrenched camps on both wings and the center. Paris covers the left wing, Chalons the center and Verdun the right, while mobile columns of troops are ready to join in.

Vitry-Le-François and Montmirail seem to be the points of the chief engagements and there the carnage has been the heaviest. The allies aim at preventing the German turning movement, with a mass of troops opposed of many army corps.

King George has addressed a message to the British Dominions and colonies, in which he protests that war was not of Great Britain's seeking and expresses his warmest thanks for the assistance rendered by them.

German Retire.

London, Sept. 9.—A dispatch to the Central News from Basel, Switzerland, via Rome says that the Germans have evacuated Upper Alsace.

French Claim Advantage.

Bordeaux, via London, Sept. 9.—11.25 p. m.—The following official communication was issued here at 2 o'clock this afternoon:

"On the whole the Germans appear to be beginning a movement of retreat.

The strategic position of the French troops is improving, but one cannot judge of a battle extending over 100 kilometres (about 63 miles).

"The Germans seem to experience certain difficulties in provisioning."

"In general the French troops seem to be gaining the advantage."

Germans Claim Victory.

Berlin, Sept. 9.—By wireless to the Associated Press by way of Sayville, L. I.—Official announcement was made today at army headquarters that French fortress of Maubeuge on the Sambre river had fallen.

The Germans took 40,000 prisoners, including four generals. Four hundred guns were also captured.

Dr. Ludwig Frank, of Mannheim, a prominent Socialist member of the Reichstag, was killed September 3 during a charge against the French at Limeville.

Prince Frederick William of Hesse has been wounded.

For Protection Overhead.

London, Sept. 9.—The admiralty announced tonight that one of the British naval airships would make short cruises over London in the next few days and at night. The public is warned not to shoot at the airship.

More Men Needed.

Bordeaux, Sept. 9.—President Poincare has signed a decree calling all Frenchmen, previously exempted for military service on the ground of defective health, to undergo a further medical examination. Those found fit will be drafted into the army.

Report Denied.

Washington, Sept. 9.—A message received today by the British embassy from the London foreign office officially denied the recent reports that the British cruiser Bristol had been disabled in a fight with an unnamed German ship in southern waters.

LONG SESSION HELD BY THE CITY COUNCIL

FIRST MEETING OF THE NEW BODY

MUCH DISCUSSION

Time Devoted to Talk Concerning Streets and Drains—Some Changes in Appropriations

(From Thursday's Daily.)
The first regular meeting of the new city council was held in the city council chambers last night.

The session was called to order by Mayor Godfrey at 8:20 o'clock, and lasted until after midnight.

Dr. J. P. Kinard, president of Anderson college, appeared with other residents owning property on Calhoun street and asked that council take some action to drain that street and remedy conditions.

The butchers of the city were in attendance to a man, anxious again to discuss the abattoir situation if any changes were to be made. They presented a petition in which they stated to council that they were very well pleased with the way that the abattoir is now being conducted and desired no change, but that they opposed any increase in price. The entire abattoir question was referred to the abattoir committee and it was announced that a meeting would take place at 10 o'clock on Friday morning at which time the proprietor of the abattoir and the butchers, the board of health and all others interested will meet with the committee and this matter will be settled once and for all. It is believed that a long-awaiting public will be delighted to hear this news.

An ordinance was adopted providing for a minimum sentence of 30 or 30 days to be imposed upon every man convicted in the recorder's court of carrying a pistol and another section of the same ordinance provides that the fine for selling liquor must be \$100 in each case.

An ordinance which was adopted about two years ago providing for a board of health, to consist of certain city officials was renewed.

Several resolutions from the board of health, relative to the abattoir situation, to sewerage, and to other articles were received as information by the council.

Several petitions for extensions of the sewerage system in the thickly populated sections of the city were heard and these petitions were referred to a committee to consist of Aldermen King, Carter, Spearman and Tate.

An ordinance was adopted which provides for a heavy fine for anyone convicted of conducting a disorderly house, a house of ill repute or a house where people congregate to drink. Upon conviction in a case of this kind, the fine shall not exceed \$100 or the

imprisonment not to exceed 30 days, according to the new ordinance.

The question of the city purchasing a new combination pump and hose automobile fire truck was considered at length and representatives of the automobile factories were present to state their propositions. Upon motion of Alderman Spearman, the matter was referred to the fire committee, consisting of Aldermen King, Tate and Spearman.

The matter of appropriations from the city for the coming year was the next question before council and this was a very interesting feature. Several members were opposed to several appropriations but the budget was adopted.

The hospital appropriation of \$2,000 per year was adopted.

The appropriation to aid the Ladies' Civic association in beautifying the public square, amounting to about \$200 per year was passed.

The appropriation of \$300 per year for the Palmetto Rifles was held up until a committee can investigate the conditions and determine just what this organization is doing. The committee is composed of Aldermen Barton, King and Tate.

The appropriation of \$250 a year for the Salvation Army was again made.

The most perplexing problem facing council in the way of appropriations seemed to be that which provides for \$183 per month for the Carnegie library. This matter caused a discussion lasting well over an hour and finally on motion of Alderman Carter, it was decided to suspend this appropriation. Carter, King, Tate and Spearman voted for the motion, Barton not voting.

The question of allowing fire works next Christmas was discussed and it was decided to allow the shooting of fireworks to begin at 7 o'clock on Christmas eve and continue through the following Saturday evening.

When the question of new streets was taken up a general discussion arose, and it took over an hour for the body to reach any conclusion on this matter.

Alderman Spearman pointed out that River street was in serious condition, without curbs, and that this work had been long neglected.

He asked that the street be curbed and drained and asked that additional work be done on Morris street for the benefit of the children attending the Kennedy street school. His motion finally prevailed, with the exception of that portion relating to Morris street.

Alderman Barton then spoke in behalf of the property owners on Calhoun street and insisted that work be started on this undertaking at once. He wanted the street between Evans street and Dick Avenue curbed, drained and paved, which will cost about \$2,850.

He asked that the street be curbed and drained and asked that additional work be done on Morris street for the benefit of the children attending the Kennedy street school. His motion finally prevailed, after a prolonged discussion.

At 11:25 the body went into executive session for the election of additional city officials.

The most important matter discussed in the executive session was the election of firemen for the coming term. This resulted in the election of W. L. Jackson, as chief, with J. F. Geer, F. F. McConnell and Sam Hoard as drivers. Mr. Geer is also to be as-

sistant chief. It was understood that the changes to be made in this department will occur on October 1.

The matter of a sexton for the cemetery came in for some discussion and it was decided that these duties would be attended to by the city sexton in addition to his present duties. He will be required to do the grave work, under the direction of the undertakers. J. R. Bruce was selected for this position at a salary of \$50 per month with free house rent, and he will assume his duties on September 15th.

Wade A. Sanders was elected city engineer and he too will assume his duties on September 15. Mr. Sanders' duties have not been entirely fixed yet, as it is a question of how much time he will be supposed to devote to the affairs of the city. This matter has been left in the hands of the street committee.

Council also instructed the city attorney, G. Cullen Sullivan, to at once begin an investigation as to the legality of the franchise of the water, light and power company and to render a report in writing at the earliest possible moment.

This concluded the night's session and adjournment took place shortly before 1 o'clock this morning.

EMBARGO RAISED

Orders From Washington Seem Equal to Recognition of Mexico's New Government.

(By Associated Press.)

El Paso, Texas, Sept. 9.—General John J. Pershing, commanding the border patrol, received orders from Washington today to lift the embargo on arms. The order was executed immediately. American soldiers who have been patrolling the international line east and west of El Paso were removed. The inspection of international traffic on the bridges spanning the Rio Grande was stopped.

The act by the war department was hailed by agents of the constitutional government as a virtual recognition of Mexico's new government.

ENGLAND'S FINANCES

London, Sept. 8.—10:10 p. m.—"We want every penny we can raise to help fight the enemy," said David Lloyd-George, chancellor of the exchequer, replying to a deputation from the municipalities which wanted the aid of the treasury in securing loans at cheap rates.

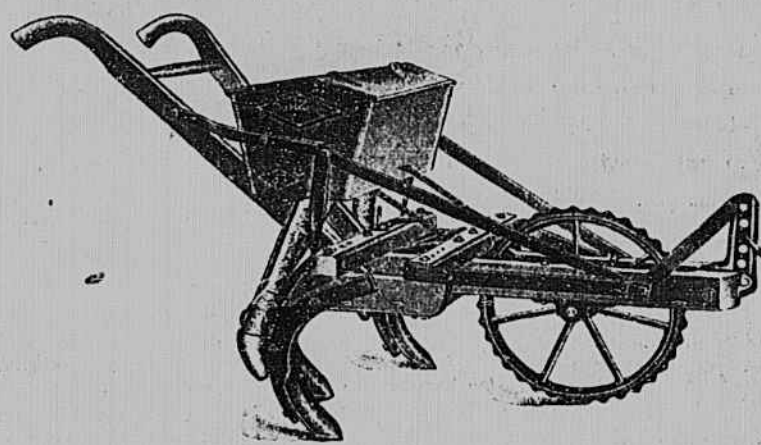

"We must come out triumphant in this struggle," continued the chancellor, "and as finance is going to play a very important part we must husband our resources. We do not want a penny spent which is not absolutely essential to relieve distress. In my judgment the last few hundred millions may win this war."

"The first hundred millions our enemy can stand as well as we, but the last they can't stand God! Therefore, I think cash is going to count much more than we imagine. At the present moment we only are at the beginning; we are fighting a tough enemy who is well prepared for the fight and probably will fight to the very end before he will accept the only conditions upon which we can possibly make peace."

"If we are wise, that is where our resources will come in, not merely of men, but of cash. We have won with a silver bullet before. We financed Europe in the greatest war we ever fought and that is what won. Of course, British tenacity and British courage always come in, and they always will. But let us remember that British cash tells too."

Venezuela.

Chattanooga, Tenn., Sept. 9.—The merchants and importers of Venezuela are anxious to learn what lines of manufactures they can advantageously import from the cities of the South which to them is a new section, just opened by the recently established steamship service between Mobile and Venezuelan and Colombian ports writes the American consul at La Guaira to the Chattanooga Industrial Board. He states that the Venezuelan business men are now in the proper receptive

Cole One Horse Grain Drill, No. 34.

Mr. J. Wade Drake, one of Anderson County's most scientific and progressive farmers, whose bushel of oats sowed with a

Cole Open Furrow Grain Drill

won first prize at Anderson County 1914 Grain Festival, states:

Anderson, S. C.,
August 7, 1914.

Sullivan Hdw. Company,
Anderson, S. C.,

Dear Sirs:

The Cole Three-Row Oat Drill bought of you last fall, gives general satisfaction. One man and mule can sow six to eight acres per day better and easier than any we have used. The Drill last fall in ten days sowed me sixty acres in cotton land that made twenty-seven hundred and seventy-two bushels oats. The oats I took first prize at the Grain Festival in Anderson were sown with this machine and yielded ninety-seven bushels. The fertilizer attachment works perfectly, varying at your will from one hundred to one thousand pounds per acre.

Yours truly,
(Signed) J. WADE DRAKE
R. F. D. No. 7

All progressive farmers will appreciate the merits of this splendid DRILL, and each will have one of them. A car of them has just been received. Place your order now.

Sullivan Hardware Company

Anderson, S. C. Belton, S. C. Greenville, S. C.

mood to be impressed with the opportunities for doing business on a better basis than formerly when they could import American goods via New York.

"The new service from Mobile to these Caribbean ports gives the South a better chance to enter these markets than formerly. The consul says that Venezuela manufactures little and imports a little of everything, so that there is a wide field for the sale of products manufactured in the South if they were properly exploited. He reports that a salesman representing a Chattanooga house recently told him of great success in selling his line in Venezuela. Mr. Charles L. Chandler, South American Agent for Southern Railway, Mobile and Ohio Railroad, and the Queen and Crescent Route, will give full information and extend any possible aid to any merchant or manufacturer who desires to enter the South American trade. The services of the South American agency will be given without charge of any kind, all its expenses being borne by the railway lines supporting it.

WE WILL PAY YOU TEN CENTS FOR YOUR COTTON

We have several small farms, fine land, in five miles of the city, which we will sell at from \$45.00 to \$75.00 per acre—only 1-4 payable this fall, and we will take Good Middling Cotton in payment of this 1-4 at Ten Cents a pound. We will hold the cotton until February 1st and give you the surplus then, if there is any.

Balance payable in One and Two Years at 7 per cent interest.
