City Pass. Agent,
Columbia, S. C.

LEGAL NOTICES

NOTICE OF COUNTY TREASURER
The books of the County Treasurer will be opened for the collection of State, County and School taxes for the Fiscal Year 1914, and Commutation Road tax for the year 1915 at the County Treasurer's office from October 15th to December 31st, 1914. After December 31st, one per cent penalty will be added; and after February 28th, seven per cent penalty will be added, till the 15th day of March, 1915, when the books will be closed. All persons owning property in more than one township or school district, are requested to call for receipts in EACH TOWNSHIP OR SCHOOL DISTRICT, in which the property is located. On account of having so many school districts this request is very important to the taxpayers and will to a large extent eliminate extra cost and penalties.

The rate of levy is as follows:
State Taxes 3 Mills
Constitutional School Tax 3 Mills
Ordinary County Purposes 3-1/2 Mills
Past Indebtedness 1 Mill
Roads and Bridges 2 Mills
Public Roads 1 Mill

Total 15 1/2 Mills

The following are the additional levies for Special School Districts:

| Dist | No. | Special Levy | Total Levy |
|------------------|-----|--------------|------------|
| Anderson | 17 | 6 | 21 1/2 |
| Alry Springs | 64 | 4 | 19 1/2 |

charge of a congregation and persons who served in the War between the States, school teachers and trustees, who are exempt from road duty, may in lieu of work pay a tax of one dollar to be collected at the same time other taxes are collected.

Prompt attention will be given all persons who wish to pay their taxes through the mail, by check, money order, etc.

W. A. TRIPP,
County Treasurer.

The Average Cost of Producing Cotton

Costs About 8.24 Cents a Pound or \$20.35 an Acre, According to Report.

WASHINGTON, Nov. 26.—The cost of producing cotton averages about 8.24 cents a pound, or \$20.35 an acre, according to Assistant Chief Nat. C. Murray of the Federal Bureau of Crop Estimates, in a report published today. These statistics, the latest available on the subject, are the results of an investigation made in 1913. A similar investigation in 1912 showed the production cost as 6.27 cents a pound, or \$15.48 an acre.

Many inquiries due no doubt to the great decline in the price of cotton which, on November 1, averaged 6.3 cents a pound to producers, compared with 12.1 cents the average of the past five years on November 1, have been received by the department of agriculture.

Statue to Memory of Franklin Pierce

CONCORD, N. H., Nov. 26.—Forty-five years after his death, the memory of Franklin Pierce, the only New Hampshire man ever elected president of the United States, was honored today by the dedication of a memorial statue in the State house park. Opposition on the part of many citizens who believed that President Pierce showed too active sympathy with the South in the days immediately preceding the civil war, frustrated several previous attempts to provide such a memorial. Last year the legislature appropriated \$10,000 for the purpose.

PENDLETON HIGH SCHOOL.

Items of interest from thriving Educational Institution.

Mrs. Hanna will give us our first lesson in art next Tuesday. We are all very anxious to take up this work. Our embroidery class met on Wednesday this week, on account of the holiday. Everybody is taking great interest in the work, and are doing nicely.

Miss Mahaffey will spend the holidays in Townville.

The school boys are still working on our tennis court and we hope to enjoy many games before long.

Our school has been greatly inconvenienced this week on account of the pump being out of order.

PLANTING TREES.

From South Carolina: "I am about to set an orchard in the sandhill section, where the top soil is three to six inches and yellow clay below. Will it pay me to blast the holes for the trees in such soil?"

No, it certainly will not pay. In the sandhill section you need to retain moisture and prevent the leaching away of plant food. Hence a hard subsoil will be best. But in planting the trees put the sandy surface in the bottom, and finish the top with clay, and then manure on the surface and never put any manure in direct contact with the tree roots.

The More Diversification the More Prosperous.

Mr. C. G. Craddock of the Craddock-Terry Co., Lynchburg, Va., makes some good points in a recent letter on diversified agriculture. He says: "When they raised nothing but corn in Kansas, practically every farm in the state was mortgaged, and when there was a failure in corn crop the farmers of Kansas were an object of charity, but as they commenced to diversify their crops some ten years ago, Kansas is now one of the richest states in the Union. Farm lands here, averaged over 100 per cent, the farmers here make money in the bank, and a large percentage of them own automobiles and live in beautiful houses with all the modern conveniences. If you will go into any section of the country in the world where the people are dependent upon one crop and where the farmers neglect all other crops and are therefore bound to buy everything they need, you will find that the farmers in this section are not prosperous. The farmers in this section of Virginia made this mistake by raising nothing but tobacco year after year, but in recent years they have diversified their crops more and more, and consequently they are better off than they were a few years ago. They have more money to bank their farms are in better shape and farm lands are selling very much higher than they did a few years ago."

Mules and Horses Wanted

For a limited time we are prepared to Exchange Brand New Standard makes of Buggies and Harness for Mules and Horses from 5 to 14 years old, from 1,000 pounds up, on a very liberal basis.

THE BUGGIES ARE "Brockaway" "Hackney" and the "Luth"

And the Harness is either single or double Harness for Buggies and Wagons, and of good quality.

This proposition is ONLY for a LIMITED TIME; so we suggest PROMPT ACTION if interested.
