LIWITHOUT BITTERNESS

In an activitie mine one is brought face to face with stiff, dogmatic, ceas, nureasonable people. It is easy to say rough and sharp thabout them and to them; and one is tempted to re-

sist them, tollish their certainties, to show their lack of reason-190 victories that way, because the only victories are when or suades and attracts and encourages. Then you can, perhapse people see what is beautiful and good, and find more things we. But when you argue and controvert, the only thing you was little admiration for your skill, a little terror of your tongue

So I thought I would henceforth only try to praise and bless orthy of love, and that if I were met by controversy what I thou I would arge I argued at all. with good humor and amusement, net with bittes, not to wound. Because bitterness really betrays a little touch ear. It only means that you cannot trust the beautiful things in by their own beauty and sweetness, and you try to maul your because you are afraid he may damage you if, you do not antici

Life is so it, and yet there is so much to admire and love and to be interestin, that these ugly tempers are just a waste of time and strengthey yielding to them you only increase your power of being wound It is not as if you decreased stupidity or roughness by striking d; you only put yourself on a baser level.

I do not no to practice mildness and meekness; that is another sort of feebles; but I would wish to be generous and chivalrous, and to be and rather than angry. Life is full of pleasant absurdertainties of perverse and stupid people are among atience and rudeness and contempt are only the signs of timey. A. C. Benson in the North American Review.

Daily Intelligencer.

And say neighbor, is it not the duty of every body to have courage and manhood enough to stand for the right and to contend for it when necessary? We think so, and we are of the opinion that this is one reason why so many things go wrong. People either have no strong convictions or if they have them they have not enough courage to run up against tags that are not right. A great many people are afraid that they may lose business if they show their colors. This newspaper has heard this kind of talk, but in not a single instance has it held it up. If we must cell our honest convictions and mashood for business, then we figure that the sooner we close up shop and get out the better. The fellow who inagines that he can run us on that kind of a threat has missed his aim. He needs to strike his flint and try again.—Greenwood Journal. is sharpened by whetting it reason Journal.
