

EDUCATIONAL PAGE

KENNEDY STREET SCHOOL

I am in the fifth grade and go to the Kennedy Street school. We study Hard's Arithmetic, Hunt's Spelling, Chandler and Whitcomb's History, Dodge's Elementary Geography, and other books. We had a play, "Thanksgiving," it was "The Pilgrim's Dream." The fourth grade came in our room and they said speeches. Christmas we had a Christmas tree. We strung popcorn and dried colored paper chairs to put on it. The fourth grade came in our room and said speeches. We sang some songs and had some speeches. We gave the tree to a poor family to make them have a pleasant Christmas.

On Washington's Birthday we went to the seventh grade. They sang songs, and said speeches and read some stories. The fourth grade said speeches and our grade sang some songs.

We are now learning a school song: Kennedy, Kennedy! Thy sturdy walks afar we see, Kennedy, oh Kennedy! Thou art the youngest of them all, May naught but good to thee befall, We'll ever be loyal to thy call, Kennedy, oh Kennedy!

Chambers, McCants we claim as ours, Kennedy, oh Kennedy! They make us spend some weary hours, Kennedy, oh Kennedy! But in the days that are to come, Our thoughts will often to thee turn, We'll ever be loyal as thy own, Kennedy, our Kennedy! Katherine KATHERINE BROWNE.

OUR BUSINESS IS LAUNDERING

and the quality of our work and the promptness of our service makes every day a busy day at our laundry plant.

Just now we are busy helping a lot of women clean house - doing up their lace curtains, woolen blankets, heavy bedding, etc., and sometimes by doing the week's wash for them, so they can have it out of the way while cleaning house. Maybe you could be helped too.

Put these ten expert accountants to prevent errors in your billing

1 2 3 4 5 6 7 8 9 0

The Numeral Keys type, total and prove simultaneously. How this ends time-waste.

A user writes: "We purchased this machine principally for insuring our monthly statements which usually took anywhere from three to five days. This work is now accomplished in practically one day's time." "This report is typical. Do you realize what it means? It simply means cutting out dreary, costly footing and proving. This complete correspondence typewriter automatically foots and instantly proves your statements or bills while it types them. With absolute certainty it sends every bill out of the office correctly totaled."

RIDGEWAY SCHOOL

We are getting along nicely with our school work, which we all are very much interested in. The fourth grade had compositions, Friday, and they drew straws to see who would send theirs to be published. Three of our pupils have advanced from the second to the third grade. I think most of the pupils will have a good year.

The farmers of this section are getting along fine with their work since the nice weather set in. We are glad to see spring coming again, and hear the songs of the birds, and see the pretty flowers blooming in the sunshine.

Some of the farmers went to Athens, Ga., Thursday, partly to attend a cattle sale several miles from there.

LEGAL NOTICES

TAXPAYERS TAKE NOTICE

The time for paying taxes will be out April 1st, and I have published a list of Anderson School Districts No. 17, which have not been paid. Now if you fail to call for your poll tax when you pay your taxes it will cost you \$8.00 so if you fail to pay, do not blame your auditor.

Prachers and School Trustees are liable for tax.

WINSTON SMITH, County Auditor.

NOTICE TO THE TOWNSHIP BOARD OF ASSESSORS

Please send in your little book by the 19th instant, so that I can notify the parties whose property assessment has been raised over one hundred dollars.

The Township Board of Assessors will meet in my office at 12 noon Friday, March 26th, 1915. But be sure to send in the little books at once. (Signed) WINSTON SMITH, Auditor of Anderson County.

NOTICE

Taxpayers of Anderson County: The tax books will close the 31st of March. All persons not paying by the 15th will settle with the sheriff nine days later. V. A. Tripp, County Treasurer.

WHY AND SELL DEBTS

If he owes you money furnish us a written statement of the debt.

GET THE MONEY

If you owe money, we will help you to get it by Mutual Loan Plan. Our plan will call on slow payers to collect debts. That's business.

MULHAN COMPANY 1-2 Benton St. Anderson, S. C.

LEBANON HIGH SCHOOL

Although it is rather late to start, the boys have been practicing this week, some in athletics to be held field day. We may get up a track team after all, but so many of the large boys have stopped school that it is doubtful. The girls also practice the flag race some. We practice marching two or three days out of the week.

Many visitors were present at the literary society Friday afternoon. A very good program was rendered, though it seems the extemporaneous debate was not good somewhere. The third and fourth grades society render a program weekly. One of their programs will be published some of these days. The tenth grade is sorry that they were not able to attend the program to which they were invited by the third and fourth grades.

Miss Conner has at last got the long wanted sand and sawdust for the box in her room. Mr. W. J. M. Craig was the donor.

We are very much surprised to see this snow. It has all at once turned spring into winter.

Five high school boys had a good time hauling sawdust Wednesday evening.

ANDERSON COLLEGE

Several members of the faculty attended the monthly meeting of the County Teachers' Association on Saturday. They were much interested in the address delivered by President Poter of Furman University. They were particularly in sympathy with him when he emphasized the necessity for the teachers in the public schools to teach the students to read intelligently, so that they can get the thought contained in a paragraph and then convey that thought to others. He finds, as others do, that a student who reads even silently with absolute understanding is rare, while still fewer can interpret orally the real meaning of literature. Another thing that was of interest was a topic prepared for discussion of teaching correct, nice pronunciation.

The entire school, both teachers and students, have been rejoiced to have the great opportunity of hearing Mr. S. D. Jordan in his "Quiet Talks" here this week. Mr. Jordan came to the college for an hour Wednesday and made a talk before the school that was nothing short of wonderful. His serene, directness, and the atmosphere of reverence and deep spirituality, coupled with his beauty and purity of thought, make him a speaker of unusual appeal. Here we see the truth of that which we have been taught—that to be a great speaker there must be a great personality, a great soul back of the words uttered. The college is grateful to Mr. Jordan for coming to it with his vision and his message. After a talk on the work of Trig and Ibsen, Miss Nelle Smith played "Griegs Death of Asa," from the Peer Gynt.

Mr. Williams has been talking in chapel this week on the scientific aspects of the war. On Tuesday he had drawn a large diagram of a torpedo, two-thirds the real size, illustrating admirably its outside and its inner workings. He made a very lucid explanation of its mechanism, the way it is used, and how it is directed by the different devices. On Thursday he had a large drawing of a submarine which he explained. He took up aircraft and mines in the same way Saturday.

President Kinard visited the schools at Seneca and Walhalla Monday. All rejoice that all material for the Annual have been shipped to the engraver, the last shipment going March 13.

LANDER COLLEGE

The next lyceum attraction comes Wednesday night, March 24. The American Quartette with Clayton Conrad, Carroon, promises a rare evening of music and mirth.

St. Patrick's Day was marked by the college household in a way to please all true Irishmen. At breakfast, each plate had on it a sprig of clover (American shamrock) and everyone was supposed to be "wearing" of the green. After chapel Dr. Willson gave some interesting facts about St. Patrick and a number of the girls sang. It's a Long Way to Tipperary.

The Domestic Science department this week has been practicing the art of serving meals. On Monday, they gave a luncheon and on Friday evening an elaborate Nibonian dinner. Mrs. W. T. Lander, of Williamston and Mrs. G. E. Prince, of Anderson, were the out of town guests at these two functions.

Mrs. D. W. Cuttino, of Sumter, recently sent the college about twenty pink crepe myrtle plants and Mrs. O. M. Tully, of Greenwood, sent a large number of carnations. Both of these donations are greatly appreciated and they will add very much to the charm of the already beautiful campus.

The Lander Club had a pleasant meeting with Miss Carrie Lou Connor last Monday. The chief feature of the program was a talk by Mrs. Kincaid about her recent trip to California.

THE CITADEL

The monotonous routine of school work was nicely broken during the past week-end by various activities, peculiar to college life.

Social.

Friday evening a most successful semi-monthly hop was given in the hall in the Meeting street extension. The abundance of the fair sex tended to make this dance one of the most delightful of the season. A large number of stags were also present. The music was furnished by Metz Orchestra.

Military.

The regular Saturday inspection of the battalion was held at Hampton Park after which the war-strength company was assembled. The remainder of the morning was occupied in various military maneuvers consisting of both close and extended order drill. The band, under the leadership of Mr. Carl Metz, furnished music during the exercises.

Y. M. C. A. Banquet.

More than 225 students representing the Citadel, the Medical College, the College of Charleston, and the Porter Military Academy gathered at the City Y. M. C. A. Saturday night for a student "Pow Wow." Mr. A. T. Smith, of the Charleston bar, acted as toastmaster. The cadet band was present and played many popular airs during the evening. Following a tempting four course supper Messrs. D. H. King, C. O. Getty, H. L. Erickman, E. L. Secrest and Dr. C. W. Kollock responded to toasts and were heartily applauded.

The purpose of the meeting was to foster a spirit of fellowship between the students of the four institutions. It was pronounced as a complete success.

Boxing Match.

During the interval between the basketball seasons, lovers of sport have been diverted to boxing contests. The Grimaldi-Terrel bout, recently pulled off in room 42, attracted considerable attention and a large number of enthusiasts witnessed the contest.

The "James Island White Hope" was decidedly the favorite throughout the fight. He showed no signs of fatigue and, playing on the offensive practically all of the time, he exhibited his skill and training by placing many well directed blows which Terrel was unable to guard against.

Although lighter in weight and less experienced than his opponent the "Turk of the Tar Heels" was not without a number of warm supporters who often gave him encouragement during the fight. He seemed to know the art but could not overcome the splendid defense of his opponent. Excepting the third and fifth rounds he apparently preferred or rather was forced to take the defensive. He showed considerable nerve and pluck under the strain and it was not until the seventh round that the referee called time for the "dying Turk."

Joe Sullivan spent Sunday in Williamston with relatives.

HIGH POINT SCHOOL

The Literary Society rendered at the last meeting the following program:

Song—America.
Recitation—Anner Cox.
Reading—Rosa Kay.
Jokes—Stella McClellan and Aaron Martin.
Song—Old Folk at Home.
Recitation—Elizabeth McClellan.
Reading—Willie Brock.
Song—Annie Low and Aaron Martin and Lillie Smith.
Debate—Term Examinations Should be Abolished.
Affirmative—Robert Cummings, and Hoyt Martin.
Negative—Savannah Canfield and Ada Burton.
Song—God be with You Till we Meet Again.
The judges decided in favor of the affirmative.

We will give an entertainment at the school house Friday night, March 26, beginning at 7:30 o'clock, to which the public is cordially invited. The program will consist of dialogues, recitations, songs and music. A small admission fee of five and ten cents will be charged. The money made will be used to pay for shades which have been ordered for the school building.

TOWNVILLE SCHOOL

Kindness.

Kindness is a great blessing to mankind. If every one would speak a few cheering words to the forlorn soul, how much happier the world would be. There is no better place to cultivate the art of kindness than in the home. We often treat the ones we love more unkindly than we do some stranger. Kind words and deeds are never wasted even if at first the recipients do not appreciate our endeavoring to make their environments more attractive.

Animals appreciate kindness fully as well as people. A dog and a horse are more sympathetic than the rest of the animals. When you have once won their affection by speaking kindly to them, you may be sure of a true friend ever afterward. We all should, therefore, make it a part of our work to do a kind deed to some one each day. One doesn't have to be endowed with this world's goods to help some one who is in distress. Many a poor wail is cheered by a bunch of flowers given them. The best way to become happy and popular is to forget the kindness you render unto others, and remember the many kind acts shown you.

"Josephine," of Double Springs

FURMAN UNIVERSITY

Furman University, Greenville, March 21.—Manager Pat has already placed on sale the season tickets for the coming baseball season. The first game of the year will be played with Newberry College, March 30, on Furman's home ground, and interest is beginning to manifest itself even at this early date. It can be truthfully said that no team which Furman has put out this year in any branch of athletics has failed to win because the student body refused to support them, and the baseball team will receive just the same kind of support whether they win or lose. This is the new Furman spirit and it has come to stay.

Inter-Society Debate.

On last Monday the Adelphean and Philosphian Literary societies met in the annual inter-society debate, and after the unusually large audience was called to order by the presiding officer, B. P. Gambrell, of Elton, the program was carried out, including a debate on the query, "Resolved, That the Labor Union of the United States are justified in seeking to Secure the 'closed Shop'." Affirmative, Adelpheans, H. H. King and W. F. Cox, Jr.; negative, Philosphians, W. B. Jones and Y. L. Drummond.

The judges decided that W. F. Cox, Jr., of Anderson, and an Adelphean, was the winner of the debater's medal and the negative, represented by the Philosphians, won the debate. The usual enthusiasm was displayed by both societies during the whole program and especially after the announcement of the decisions of the two sets of judges.

"Modern Babylon."

On last Wednesday Dr. S. B. Cadman, the famous Congregational preacher of New York, spoke in the Ochoira auditorium under the auspices of the Greenville Lyceum Association. For an hour and a half the audience sat in wonder before the wealth of vocabulary, the depth of thought and the fervent eloquence of the great divine as he spoke of "Modern Babylon." It is hoped that this will by means be his last visit to Greenville.

CARD OF THANKS.

Wish to thank our many friends for their kindness and sympathy during the sickness and death, and the beautiful flowers presented at the funeral of our dear wife and mother. May the blessings of Him who said, "In as much as ye have done it to one of the least of these, ye have done it to me," be upon each of them.

Use a Good FERTILIZER with a Lime Base

In making our 8-2-1-2-1 which runs 8.63-2.96-1.26, the 2.96 of ammonia is made with a lime base. This lime base is valuable in making the potash in the soil available. Authorities think our red lands and our gray lands with clay subsoil have enough potash in them to make at least one good crop without any potash in the fertilizer, but this potash which is locked in the soil must be made available, must have something to "touch it off" and lime does that better than anything else, so this 8-2-1-2-1 of ours, which runs 8.63-2.96-1.26, being built on a lime base will be found invaluable this year in freeing the latent potash in the soil and making it available as plant food, when potash is so scarce and high.

The ammonia in this goods is derived from fish, blood, cotton seed meal, tankage and sulphate of ammonia and there is nothing better than this used in making fertilizer. When you get this, you get the best fertilizer made.
