(CONSOLIDATED, 1903.)

CONTINUE

Those who are gaining flesh and strength by regular treatment with
Scott's Emulsion
should continue the treatment in hot weather; smaller doses and a little cool milk with it will do away with any objection which is assumed in fatty products during the heated season.
Send for free sample.
SCOTT & BOWNE, Chemists,
409-415 Pearl Street, New York.
50c and \$1.00; all druggists.

STATE NEWS.

—About fifteen employes in the card room of the Walhalla cotton mill went on a strike last week. They demanded higher wages. The mill keeps running and there is no excitement.

—Reports from all over the State indicate that the cool weather is interfering seriously with the cotton crop—that in some counties it is already more than three weeks late.

—The Spartanburg Daily Herald and its two weeklies have been sold by J. M. Harris to Rev. G. H. Waddell, the publisher of the Southern Christian Advocate. Mr. Waddell will form a joint stock company.

—B. F. Blackman, a farmer living near Lancaster, C. H., was shot and instantly killed last Sunday morning by a negro, who surrendered to the sheriff. The negro claims self-defense. Both parties were drinking.

—J. E. Smith, pardon attorney for the United States department of justice, Washington, is seeking to the manner of work in educating in this State and will have several gubernatorial letters.

—Last Monday there was nothing but a black; several of the kind you have always bought in town to town.

—The women of New South Wales, Australia, are using their spiritual power to fight the sweating system and child labor.

Holland has a national council of women which is undertaking the penning of domestic servants, shopgirls and teachers by a system of old age insurance.

Bulgaria has a federation of thirty-seven women's clubs which has just issued an appeal for justice in Macedonia and the carrying out of the treaty rights of the people.

Argentina has a national council of women. There is need of it. Although women are in the majority as teachers and even serve as college professors, they are not legal witnesses in all cases, nor can a woman serve as a guardian unless she be a grandmother who has remained a widow.

ORCHARD AND GARDEN.

Of all fruit trees the cherry requires the least pruning.

Very slender trees often need a stake when first set out.

The best time to take rose cuttings is just after flowering.

Low branched trees are necessary for the production of choice fruits.

All things considered, the best time to set out strawberries is in the spring.

Young rowshubs should not be allowed to bloom. Let them give them the whole lot of the first season for growth.

The soils adapted to grape culture are those of much more importance than riching the soil.

The objection to large trees for transplanting is that they must be taken up without losing too much of the roots, which causes a check in growth.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers; they filter out the waste or impurities in the blood.

If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmor's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmor & Co., Binghamton, N. Y.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmor's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

REMINISCENCES of the Twelve Mile River Baptist Association.

It may not be interesting to some of the readers of your paper to recall and reflect upon the times, men and acts of this body of Christians, but there are many now living who still have tender memories of the past and who cherish the things done by their fathers now in dust. There are some now living who are old and gray and whose form is bent and tottering toward the grave, who cannot remember the birth of this association, except as they heard father and mother speak of it. To some of these old scenes and the thoughts of long ago will pass through their minds as they think of the times when father would saddle his horse two or three days before the convening of the body and ride perhaps forty miles in order to attend to the things pertaining to the Kingdom of God. Doubtless there are hundreds of such men and women to whom these thoughts will be as a voice from the unknown, for it is of their fathers and grandfathers and great-grandfathers that I propose to say a few things in a remembrance way. The men and women who gave life and impetus to the Twelve Mile River Association, whose names appear many times upon the rolls of the minutes and years ago was written in the Book of Life; the men and women whose bones are ashes awaiting the resurrection of the just.

The exact date of the organization is not known, but it was about 1830, and it will be interesting to the Baptists at least to know that the 396 members of the association at the beginning have multiplied to over three thousand; and this does not include the members of the churches now belonging to the Piedmont, North Greenville and Transylvania associations which once belonged to the Twelve Mile, for it will be recalled that this association embraced within its territory the churches of this County and a portion of Anderson, Greenville and Oconee counties and a part of North Carolina. This was the bounds of the organization then and for a few years after, then some of the churches withdrew and formed the Piedmont, while others united with North Greenville, Transylvania and other associations.

Eleven churches constituted the organization: Keowee, Secons, Oolenoy, Cross Roads, Liberty, Antioch and Peter's Creek in this county; New Hope and Cheochee in Oconee county, and Middle Fork Saluda in Greenville county. From these have branched off many others until today instead of churches being miles apart they dot every hill and valley and are so numerous that the wayfaring man has no excuse for erring. It would indeed be interesting to know besides the three thousand and more members of the associations now living the number from the beginning until now who have been members of the various churches of the body. Many are dead, some have moved away others have been excluded and in other ways have drifted away and have been lost sight of by their respective churches. Perhaps if they were all known it would multiply many fold to our astonishment.

It was my privilege not long since, by the kindness of the clerk of the association, (and a great pleasure too,) to turn through the time worn volume of the minutes and took occasion to count the dead reported during the years. Twelve hundred and ninety-four! This was the total. Think of twelve hundred and ninety-four graves! Twelve hundred and ninety-four souls with the departed spirits awaiting the general judgment. And all from one little community. Among these are some of the fathers in Israel, such as Cobb, Jacob Lewis, the Kings, David Blythe, Barngulis, T. L. Roper, Joseph Grisham, W. E. ank G. W. Singleton and many others that could be named.

The largest death rate was recorded during the bloody years of '62, '63 and '64. Doubtless many noble men from this small body gave themselves a sacrifice for the honor of their country.

The most prominent characteristic of those who composed the membership of the churches and the association during the early years of its existence was the deep spirituality and their truthfulness of God and each other. No other conclusion can be drawn when we consider with what difficulties they attended their meetings, the distance traversed and the modes of conveyance.

Think of the membership of a church being scattered miles around and from their church, and yet when the meeting days came all went afoot, or horse back or in ox carts; and they would go two, three, four and perhaps five miles to be at "meeting." Especially was this so on Saturday, for this was the day of great moment. As they would bend their way through the mountain fastnesses, through valleys and over hills to reach the little church (perhaps built of logs) to hear "Daddy" Cobb, or "Elder" King or "Brother" Blythe nothing could prompt to so act save the pure and undefiled religion of Christ.

And as with the individual church member so with the "Messengers" to the association. They would travel mostly horseback and it was necessary that they leave home a day or two before the assembling of the body in order to reach the place in time. The country was not as thickly populated as now, the roads not as good, for then it was up a hill and down, they did not have the buggies and carriages to ride in and the distance frequently was twenty, thirty and forty miles.

The business of the body and the order in which it was conducted was quite different to that of today. About the only rules adhered to by the present association that was practiced by our fathers is the preaching of an introductory sermon the first day and at the beginning of the meeting, enrolling the delegates and reading the constitution, By-Laws &c. After these preliminaries letters and messengers from other associations would be called for. And there was always "Messengers." They would bear a personal letter from the association to which they belonged which would be fraternal in spirit and tell of the blessings bestowed upon the churches in that particular body and urge the brethren to go on conquering sin and working for the Master. It would be a letter of exhortation and brotherly love and would consume some time in reading. It would be prepared by some one specially appointed for that purpose and by him carried to the association and read. Frequently there would be several Messengers from the same association and each perhaps would have something to say of the spiritual condition of the churches of the association they represented. And there would be several Associations to send Messengers and by the time each of the letters were read and talks made considerable time would be consumed.

After this the association would appoint a number of brethren, about three to each Association, to bear like greetings and messages from this body to those who sent Messengers to this. This would usually constitute the day's work, and the day would usually be on Saturday. Sunday would be devoted to the worship of God. Services would usually begin at 9 o'clock and continue until late in the afternoon. There would usually be four sermons preached by four different men, two in the forenoon and two in the afternoon, and these services were usually attended by large congregations from far and near and the meetings conducted in the spirit of a revival. There have been in these meetings many conversions and great showers of blessings upon the people. Indeed it was made an occasion of spiritual feasting. These worshippers were noted for their deep piety and reverence for things not earthly. They were generous and kind, large hearted and hospitable. They were indeed Christians. At the session of the Association held in 1833 the following resolution was passed:

"Resolved, That the Saturday before the first Lord's day in November next be set apart as a day of fasting, humiliation and prayer. That on this day the churches of this Association be, and they are hereby requested, to assemble in their respective places of worship, and there with fervent, lowly and believing hearts, offer up their fer-

CONTRACT FOR CROSSTIES.

Work on the Old C. K. & W. to Begin in a Short Time—Bids Called For on Grading and Building Trestles.

H. H. Prince, who with R. E. Johnson and W. T. Kreamer, is interested in the rebuilding of the old C. K. & W. road from Greenville to the foot of the Blue Ridge mountains, said to a News man that the contract for all the necessary crossties for the road had been let, the crossties to be delivered right away.

In a few days it is expected that active work on the road will begin. As will be seen in the advertising columns of the News, General Manager Prince has asked for bids to finish the grade of the old C. K. & W. railroad from Marietta to River-view.

Mr. Prince has also advertised for bids on the building of trestles on the road from this city to Marietta. Those who wish to make a bid can secure a profile and estimates from Mr. Prince.

There has been many rumors during the past few years in regard to the rebuilding of this road. It is the general belief now, however, that the road is sure to be built by those in charge—Messrs. Johnson, Prince and Kreamer. These men have, as previously stated in the News, purchased thousands of acres of valuable timber land in the upper portion of this county, and to gain easy access to the timber they propose to rebuild this road to be known as the "Saluda Valley Road."

For some time the people along the route of the road have been making an effort to have the road rebuilt. In the past few days several of the leading citizens of the upper section have been seen by a News man and they are all thoroughly delighted over the prospects of having an opportunity in the near future of riding to Greenville in a passenger coach or hauling produce to the city in a freight car instead of the present slow process.

To have the old C. K. & W. road rebuilt will be a great advantage to Greenville in many ways, it will build up a larger trade with that section of the county and place the city in closer touch with the people of the upper section.—Greenville News.

WOOD'S ACCOUNT OUT?

Regarding a statement published in New York that there is \$3,000,000 discrepancy between the reports of Gen. Leonard Wood and his secretary of finance, of the total disbursement of the American military government in Cuba, it is stated on the highest authority, says The Tribune's Havana representative, that the discrepancy will be accounted for in the final settlement between the War Department and Senor Quesada, the Cuban minister to Washington.

DRIVEN TO DESPERATION.

Living at an out of the way place, remote from civilization, a family is often driven to desperation in case of accident resulting in Burns, Cuts, Wounds, Ulcers, etc. Lay a supply of Bucklen's Arnica Salve. It's the best on earth. 25c, at Pickens Drug Co., drug store.

HUNT NEGROES IN OHIO.

At St. Clairsville, Ohio, the entire community is up in arms, hunting two negroes who assaulted Mrs. Maud Pugh Wednesday night while she was returning home. The negroes will be lynched if caught. This is the third assault within two weeks.

WORST OF ALL EXPERIENCES.

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newson, De-catur, Ala. "For three years" she writes, "I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and the result was miraculous. I improved at once and now I'm completely recovered." For Liver, Kidney, Stomach and Bowel troubles Electric Bitters is the only medicine. Only 50c. It's guaranteed by Pickens Drug Co., druggists.

SOCIETY MAN CHARGED.

Kills a Coachman Supposing Him to Be a Rival.

The murder of John Hefferman, a coachman for Millionaire Maximilian E. Sand, of New York, on the Ardsley club lawn last Sunday night while sitting under the trees with Sarah Chamberlain, a maid, is assuming sensational features. It is stated today on the best authority that the crime was committed by a well known society man who mistook the coachman and young woman for his wife and a supposed rival. Society is closely guarding the clubman's name, but it is expected that the investigation will bring it out.

THE BRESEE CASE.

Charter Will be Issued to Col. Norris' New Cotton Mill.

The Charlotte Chronicle says: It is believed that a special term of the United States court may be held in this city in the near future for the trial of the case against Major William E. Breese, charged with being implicated in the wrecking of the First National Bank of Asheville. The regular term of the district court will convene here on the second Monday, and this may be followed by a special term for the trial of Major Breese. It will be remembered that the case was to have come up on March 9, but it was necessary to postpone the term on account of the illness of the wife of Judge McDowell, who was to have presided. There has been no intimation as to what judge will be designated to preside at this trial.

This is one of the most important and interesting cases that has ever come up for trial in the western district of North Carolina. Soon after the collapse of the First National Bank of Asheville, several years ago, it was charged that the failure was due to the criminal carelessness of Major W. E. Breese, the president; Mr. W. H. Penland, the cashier, and Mr. J. E. Dickerson, a director, of the institution. In a word, it was said that these men had deliberately robbed stockholders and depositors of the bank. It was alleged that they got the personal use of all the funds of the bank save about \$400 in mutilated currency, and that, to cover the deficiency, they put up, as assets of the bank, notes which were endorsed by irresponsible people.

The public is familiar with the case against Major Breese, which has come up for trial three times—twice in Asheville and once in Charlotte. Judge Thomas R. Purcell, of Raleigh, presided over the first trial and Judge John Jackson, of West Virginia, over the second. The third trial was held in Charlotte and was presided over by Judge McDowell, of West Virginia. Each trial resulted in a mistrial.

The cases against Messrs. Dickerson and Penland are on "all-fours" with the Breese case, and the result of the latter will indicate the course the others will take.

ANOTHER SUICIDE.

Lee David Sends Bullet Through His Brain.

Mr. Lee David, a farmer who lives above Newry on Little River committed suicide Thursday morning by shooting himself with a 44 caliber pistol.

He left his home between one and two o'clock a. m. His wife awoke and found him gone, became uneasy and immediate search was made for him, whereupon about two hundred yards from the house, under a peach tree his lifeless body was found.

Mr. David had threatened his life several times to his wife and friends, saying that he was going to kill himself, but would not tell why, only that he "would have to kill some one, or some one would kill him." He and his family came from Georgia about a year ago and located on the Mose Emerson place above New Hope church. He leaves a wife and three children.

WENT OVER A PRECIPICE.

A Hack Team That Was Coming Down Stump House Mountain.

Last Wednesday night about 10 o'clock as a team of Mr. Chas. Gaines of Seneca came down Stump House mountain road with a driver and a commercial traveler with baggage were overtaken by a severe thunderstorm. The drummer dismounted and preceded the team. At a curve in the road the driver drove too near a precipice and the hack and horses went over the driver saving himself by springing from the hack as he felt the first wheel give way. Next morning revealed the fact that one horse had been killed, while the other was apparently unhurt. The hack was hurled about 30 feet and was but slightly injured. The dead horse was found at least 50 yards from the road and every vestige of harness was stripped off of both horses. The road bed is a good one, but having no brakes on the hack, the intense darkness and the driver being unfamiliar with the road, was probably the cause of misfortune.

ISSAQUEENA COTTON MILL.

Charter Will be Issued to Col. Norris' New Cotton Mill.

The Issaqueena Cotton mill of Central, for which a commission was issued some time ago, has completed its organization and received its charter on June 1. The capital stock is \$200,000. Directors: D. K. Norris, president and treasurer; J. H. Ohlandt, J. J. Fretwell, O. A. Robbins and R. G. Gaines. Mr. R. G. Gaines is the secretary.

CAUGHT IN TEXAS.

Forger Who Had Been Away From Darlington, S. C., Six Months.

After being out of the State six months H. L. Lloyd, of Darlington, has been arrested in Texas and will be brought back to this State to stand trial for the forgery of a promissory note to the amount of \$162 on the People's bank of Darlington.

Lloyd, on November 18, 1902, forged a note in the name of his brother, W. C. Lloyd, E. F. Story and other parties and the bank cashier knowing Lloyd paid out the money at once. When it was found that the note was a forgery, which was not until it became due, thirty days afterwards, Lloyd had left the State. He was located in Texas and the authorities in that state were notified to look out for him.

Monday Governor Heyward received a telegram from the Secretary of state court of Texas stating that Lloyd was in jail at Groesbeck and asking what disposition should be made of him.

The governor took the matter up with Solicitor Johnson and today wired the secretary of state that papers would go at once for Lloyd. R. F. Scarborough will represent the State.

Lloyd was caught at Kacco by a deputy and will be brought back at once by Agent Scarborough.

MULE KICKED OUT BRAINS.

Terrible Manner in Which A. L. Funderburk of Chesterfield Lost His Life.

The correspondent from Chesterfield in the Columbia State of the 27th ult., says that he learned only last evening of a terrible accident which befell Mr. A. L. Funderburk, a citizen of that county, in Monroe, N. C., last Friday afternoon, which resulted in his death.

Mr. Funderburk was driving a wagon when his lines fell out of his hand. Stooping over to pick them up, one of the mules he was driving kicked him in the forehead over the right eye. The blow was so strong that part of the unfortunate man's brains ran out. His skull was crushed in.

The doomed man lingered for two hours and then death came to relieve his sufferings.

The accident happened at 4 o'clock in the afternoon. He died at 6. Mr. Funderburk was thirty-two years old, single, and the eldest of 10 children, his father being Mr. Jerry Funderburk. He was a brother of Mr. Turner Funderburk, one of the county commissioners.

The deceased lived near Dudley in the northwestern part of the county.

HIS LAST HOPE REALIZED.

(From the Sentinel, Gebo, Mont.)

In the first opening of Oklahoma to settlers in 1890, the editor of this paper was among the many seekers after fortune who made the big race one fine day in April. During his traveling about and afterwards his camping upon his claim, he encountered much bad water, which, together with the severe heat, gave him a very severe diarrhoea which it seemed almost impossible to check, and along in June the case became so bad he expected to die. One day one of his neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a last hope. A big dose was given him while he was rolling about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon noticed and within an hour the patient was taking his first sound sleep for a fortnight. That one little bottle worked a complete cure, and he cannot help but feel grateful. The season for bowel disorders being at hand suggests this item. For sale by Dr. G. W. Earle, Pickens, and Dr. R. F. Smith, Easley.

W. H. ABRAMS, A YOUNG MAN OF CONWAY,

was shot and fatally wounded by Lanneau Stackhouse, a son of Senator Stackhouse, of business. As he was walking up town, he was interfered with by Abrams, who was drunk. Abrams when told to hush reached towards his hip pocket and rushed towards Stackhouse, who shot him.

REAGAN RATES CLEVELAND.

Last Survivor of Confederate Cabinet Preaches the Blackest Republican.

Hon. John H. Reagan, en route from New Orleans home, was asked what he thought of Cleveland being put forward by the Democrats at the next convention. The judge says: "There is not the slightest possibility of his being nominated. "I would rather vote for the blackest kind of a Republican, than to vote for Cleveland. He betrayed his party into the hands of the money power, and it is the money power that is fostering this so-called Cleveland boom. The ovation given him in St. Louis was a scheme of the moneyed men to give him a boost. It was engineered by a former member of his cabinet. He overshadowed both Bryan and Roosevelt. It is said that Bryan received over a million more votes than he did either time he was elected. I don't know whether he is a candidate or not. It is claimed that he says he is in the hands of his friends. We all know who Cleveland's friends are. We know that they are responsible for the so-called ovation in St. Louis, which is seized upon in certain quarters as having a meaning. Clevelandism has been the death bed of innumerable Democrats.

"Take Blount of Georgia, for instance, and Mills of Texas. Both are dead politically. Mills was the only one that survived a little bit, and he is now hardly known in the councils of his party, in which he formerly held an important position.

"It is too early to make a forecast as to who the next nominee will be. I would rather see Stone of Missouri get the nomination more than any man living. He is a Democrat of the true stripe and clean to the backbone."

STARTLING EVIDENCE.

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption Coughs and Colds to be unequalled. A recent expression from T. J. McFarland, Danville, Va., serves as example. His written: "I had Bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by Pickens Drug Co. Druggist. Trial bottles free, regular sizes 50c. and \$1.00.

While the closing exercises of a school near Hichory Grove in York county, were in progress on Friday night, Mary Belle Lessie, a 7-year-old little girl, who was playing around the outside of the building, was shot and crippled for life by a young man in the crowd who was under the influence of liquor and was firing his pistol promiscuously.

DEAFNESS CANNOT BE CURED.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed it has a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c. Hall's Family Pills are the best.

Work on the grounds has begun at Greenwood where the Williamston Female College is to be located. Plans are being prepared for the building and as soon as completed work will be pushed on the building. It is proposed to have the building completed by September 1.

Chamberlain's Stomach and Liver Tablets are just what you need when you have no appetite, feel dull after eating and wake up with a bad taste in your mouth. They will improve your appetite, cleanse and invigorate your stomach and give you a relish for your food. For sale by Dr. G. W. Earle, Pickens, and Dr. R. F. Smith, Easley.

In the assignment of bishops for holding the next annual conferences of the Southern Methodist church Bishop A. Coke Smith will preside over the South Carolina conference, which convenes in Greenville the 9th of December.

"I have been troubled for some time with indigestion and sour stomach," says Mrs. Sarah W. Curtis, of Lee, Mass., "and have been taking Chamberlain's Stomach and Liver Tablets which have helped me very much so that now I can eat many things that before I could not." If you have any trouble with your stomach why not take these Tablets and get well? For sale by Dr. G. W. Earle, Pickens, and Dr. R. F. Smith, Easley.
