OIL MILL FOR PICKENS.
 Pickens needs enterprises; she re-
 vivalizes, very keenly, this fact, there-
 fore she is going to get all the manu-
 facturing enterprises she can. Her
 progressive citizens have put their
 shoulders to the wheel and are push-
 ing with a will for anything that will
 help the town and county, "and it
 must follow as the night the day"
 that when they get together you can
 see RESULTS!

One enterprise calls for another;
 one thing brings another; dividends
 accruing from the operation of one
 plant causes the people to want divi-
 dends from other sources; so it goes.
 The first project under way is an
 oil-mill. This will be capitalized at
 \$18,000 and have a complete ginney
 system attached. The promoters met
 at the store of W. T. McFall Monday
 and organized by the election of W.
 T. McFall, president; J. Sam Wilson,
 vice-president; R. E. Bruce, secretary
 and treasurer, and R. H. Curleton,
 general manager.

They are pushing things and have
 asked for the first installment of stock
 by the 6th of August and the second
 payment by September 15th and the
 remainder to be called for as needed.

This will be a local or home enter-
 prise, Pickens county people are given
 the preference of taking stock, for
 all realize that we are vitally inter-
 ested in building up the waste places
 of our county.

The ginney system will be such
 that you bring your cotton and in 20
 minutes it is ginned, baled and on
 your wagon and your seed ready to
 sell. This will put you on a footing
 with other markets for the sale of
 cotton here will be greater than ever
 before and may lead to outside buy-
 ers coming here to purchase.

This enterprise will bring other
 enterprises, and we are truly glad it
 is coming. It is a sure thing. There
 will be no "slip up" about it.

Notice to Old Soldiers.
 The surviving soldiers and sailors
 of the State or Confederate States in
 Pickens county, are requested to
 meet in each township the first Sat-
 urday in August, 1903, for the pur-
 pose of electing a representative to
 meet at the court house the first
 Monday in September to elect a
 County Board of Pensioners for the
 year 1904.

The place and time of meeting in
 each township shall be at 9 o'clock
 p. m., at the following named places:
 Easley township, at Easley.
 Liberty township, at Liberty.
 Central township, at Central.
 Pickens township, at Pickens.
 Hurricane township, at Mile Creek
 church.
 Enstatow township, at Antioch
 church.
 Pumpkinstone township, at Suth-
 erland's store.
 Dacusville township, at Looper's
 Gin.
 When assembled they shall organ-
 ize by electing a chairman and a sec-
 retary and shall then elect by ballot,
 an ex-Confederate soldier not a holder
 of nor applicant for a pension, as the
 representative of the veterans of said
 township.
 J. B. Newberry,
 Pension Commissioner.

To The People of Pickens County.
 Westminister, S. C., July 20, 1903.

 I earnestly request all the trustees
 and patrons of the surrounding com-
 munities of the above named dis-
 tricts to meet me on the above named
 dates. Let every one come and bring
 dinner prepared to stay all day.
 I wish it were such that I could
 visit every school in the county. As
 I have only eighteen days in the

 and places so that every one can
 meet me at one of the above named
 places. It is my purpose to try and
 awaken more interest in the improve-
 ment of our country schools. I re-
 quest the trustees to invite one or
 more speakers. Hoping that our
 meetings may prove beneficial.
 Yours,
 (Miss) Mary R. Sholor.

Bridge to Let.
 On Thursday, August 6th, 1903,
 at 10 o'clock a. m., I will let to the
 lowest responsible bidder, the re-
 building of the McHugh bridge near
 S. T. McHugh's, on Oconee river.
 A. B. Talley, Jr.,
 County Commissioner.

The Kind You Have Always Bought

In Use For Over 30 Years.

THE CENTAUR COMPANY, 37 MURRAY STREET, NEW YORK CITY.

From Needmore.
 People have begun to lay by the
 corn and cotton in this section.

Crops have grown very rapidly for
 the past three weeks. If cotton sells for
 10 or 15 cents a pound this fall and
 the frost don't get it before it
 opens, we may be in the swim yet.

Mr. Elbert Perry, of the George's
 Creek section, has some of the finest
 peaches we have seen. "He has a
 large, well kept orchard of peaches,
 peaches, etc., and finds the business
 very profitable.

W. A. Morris, of Greenville, and
 his father, of Greers, were the guest
 of N. A. Christopher last week.

Mrs. Dabie Williams, son and two
 daughters, are spending the summer
 with Richard Lenhardt, Mrs. Wil-
 liam's father.

Byrd Hunt, of San Antonio, Tex.,
 is visiting his brother, Jas. W. Hunt,
 of the Mt. Carmel section. Mr. Hunt
 has been blind 21 years and has
 traveled nearly all over the United
 States and enjoys himself wherever
 he goes in spite of his blindness.

The Lenhardt school opened Mon-
 day with W. A. Christopher as prin-
 cipal.

Some boys may hear from him
 soon. He will write on divers sub-
 jects, which he says the people must
 have if they succeed in their differ-
 ent pursuits. He says he hasn't as
 much education as some of the Bostonian
 article reporters, but he will savor
 two articles and an onion that he has
 more experience than a printing office
 full of 'em. He is now out of the
 business for the rest of his days,
 if he lives to be as old as Methuselah.

He's been very busy of late doctoring
 his sickly looking cotton and corn.
 He says there's only one kind of med-
 icine that will kill grass and make
 cotton grow, and that is elbow grease
 but he don't mean like to apply the
 dose—the sun bothers him. He says
 this country is far different from the
 garden of Eden anyhow. He wishes
 he could have been in old Adam's
 place; he bets he'd never sinned, but
 would have stayed there and kept
 that garden of paradise forever. He
 says everything is contrary here but
 when you try to grow cotton the grass
 will grow knee high, when you try to
 grow hay the weeds grow knee high,
 and when you feed the weeds to the
 cow she looks high, brings a sigh,
 kicks high and goes dry.

I have been trying to persuade
 him to go into the dairy business, but
 he is such a pessimist when he is in
 the grass that he'd swear white was
 black, and vice versa, and that every
 cloud was a "sly covey," Monday was
 Sunday, and so on into infinity. He
 says cows are all rogues and he be-
 lieves they all sprung from Achan,
 who stole the Babylonian garment,
 silver and gold from the enemy's
 camp during the conquest of Canaan
 by Joshua. He says it will take four
 men with axes and double barrel, shell
 omatic, round rock, self-loading, auto-
 matic, breech-loading shot guns to
 keep two, like the one he has, in
 the pasture. He says dairy cows eat
 jump a ten rail fence and not touch
 it, eat up two acres of corn, or an
 acre and three-quarters of oats, bar-
 ley or rye before you can run them
 out with the best cur in the country,
 and can kick the shortening out of a
 biscuit before you say eat and eat a
 peck of bran or cotton seed meal and
 hulls before you milk one teat dry;
 better for the calf till it would run a
 dead man crazy and make the sky
 buzzy, a smart man and make the sky
 buzzy, till he would call his wife Susy-
 wont you get me a little supper sweet
 milk and soda-etc. I saw it was no
 use to argue with him, but I suggest-
 ed he raise beef cattle and figured it
 out for him and told him he could
 make \$5, hide and tallow clear profit.
 "Sheeks," says he, "hides! no money
 in hides since they've gone to skin
 the negroes in the North." "Cow
 leather won't be worth as much as
 straw and shucks, for those Northern
 negro boys will all have a belt, cap
 and boots made out of nigger hides."

Well I left Sambo just then and he
 whistled for Sancho, wended his way
 over the hill humming "And Lang
 Syne," as he went and in a little while
 he appeared with his mule-cyclone on
 a little knoll and began to lay rocks
 around his mule. He whistled
 Dicky (his mule Yankee Doodle) and
 his old yaller dog yelped lazily around
 after a cotton tail. The horn blew,
 Cyclone brayed, backed his ears and
 started for the house with Sambo,
 plow stock and all. It was a circus
 and a man cuss-a-mule, but I had to
 go feed the pigs and didn't see the
 final go round.

Long and Lonesome.

Notice.
 I will not be in my office after Aug.
 1st, except on Saturdays and on first
 Mondays and Tuesdays. I expect to
 visit the schools of the county. The
 public will please take due notice of
 the above and govern yourself ac-
 cordingly.

 ens, containing one hundred and fif-
 teen (115) acres, more or less, lying

 Coleman resided at the time of her

Business Girls.
 The Burnside girl begins smoking
 when she is about three years of age.
 A group of schoolgirls in Mandalay
 will sit in a circle passing around the
 cigarette, just as American girls would
 pass round the bag of caramels. It
 is a weekly habit, thing two inches
 long and no thicker than the Burn-
 side girl smokes. It is a swabbing job
 cheroot, nearly a foot long and weigh-
 ing about three-quarters of a pound.

Nine National Capitals.
 How many nations could tell offhand
 the number of national capitals they
 sent a weekly letter to the United
 States congress has sat in and give
 the names? Not many probably. Well,
 there have been nine of them—Wash-
 ington; Baltimore and Annapolis, in
 Maryland; Trenton and Princeton, in
 New Jersey; Philadelphia, Lancaster
 and York, in Pennsylvania; and New
 York city.—National Magazine.

Woolgathering.
 "For one's wife to go woolgath-
 ering" is an allusion to a dilapidated
 sometimes seen in older countries. In
 parts of France, Germany and Spain
 very old people are sometimes employ-
 ed in gathering wool from bushes in
 sheep pastures where it has been pluck-
 ed from the fleeces as the animals pass
 too close to the branches.

European Season.
 Great Britain has a longer season
 than any other nation in Europe.
 It measures 2,755 miles. Italy coming
 second, with 2,472. Russia ranks third
 and France fourth.

Artificial Leather.
 In France old shoes are bought up in
 quantities by rag dealers and sold to
 factories, where they are taken apart
 and submitted to long processes which
 turn them into paste, from which the
 material is transformed into an imita-
 tion leather, appearing much like the
 finest porcoco.

Giant Tortoises.
 The giant tortoises from the Galla-
 pagos Islands in the London zoological
 gardens are sold by biologists to be
 between 2,500 and 3,000 years old.

Ox Tail Soup.
 Ox tail soup, now regarded as a na-
 tional English dish, was first made by
 the very poor Huguenot refugees from
 France, after the revocation of the
 edict of Nantes, because ox tails then
 had no market value.

A Heavy Pile.
 A dealer in the Dutch Isles was un-
 packing a hamper of fish which had
 come packed in ice from Gouda, in
 Holland, when a pile of four pounds
 weight was seen to faintly move its
 fins and was forthwith plunged into a
 trough of fresh water, where in two
 hours it was frisking about as lustily
 as if it had never been caught.

Why Ganta Dance.
 A correspondent, noting what is fair-
 ly well known among entomologists,
 that many species of flies congregate
 together to dance, says it is well known
 that this is for a very utilitarian pur-
 pose—the selection of a mate.

Nantucket.
 The island of Nantucket rests on a
 vast peat formation.

Odd Birds.
 Two Napoleon bishops and one black
 headed nun are among the birds which
 have been presented to the aviaries in
 the Liverpool parks.

Pussy Willows.
 In rural England the blossoming
 twigs of willow which are children
 call "pussy willows" are often used
 in churches on Palm Sunday as the
 only available branches which have
 yet begun to show proofs of returning
 life.

Five Generations.
 A boy born in Berlin the other day
 is able to look upon his mother, grand-
 mother, great-grandmother and great-
 great-grandmother, the last being ninety-
 eight years old.

FROM THE MARKETS OF THE WORLD
Craig Brothers,
 Are continually receiving
 new goods and offers a
 shower of hot prices
 for July.

COME AND SEE FOR YOURSELF.

No longer do people haul goods from Hamburg
 and Augusta on wagons drawn by tired horses and
 mules neither do they hitch a horse to a hoghead of
 tobacco and roll it to Charleston for market. Instead
 of the old way, goods are swiftly carried from ocean to
 ocean by way of Railroads which are almost like a net
 work. The steamships are constantly conveying mer-
 chandise from continent to continent. Merchants all
