### STARTS ROAD BUILDING.

How a Good Scheme to Secure Aid Was Carried Through.

Chester, S. C., Special.—In response to the announcement made by the county commissioners that work on permanent roads would be begun in that part of the county which offered the greatest inducement in the way of money and rock, many enthusiastic meetings have been held by the farmers throughout the county. Monday the board decided that the Columbia road should be worked first, \$1,500 having been donated. The work will extend to the three-mile post, and will then be begun on the Rossville road and worked to the third mile post on that road. Padon's bridge road will also be worked to the three mile post.

Other portions of the county offered great inducements. In Mr. T. J. Cunningham's neighborhood about Woodward church, money and rock were offered and a team of eight mules for a part of the time. Rodman section donated \$500. From the Brick house on that road to Rocky creek, a distance of two miles, \$100 was donated. The people are much interested in this work, and in a few years bad roads in this county will be a matter of history. Mr. Anderson of Lowryville, was elected overseer of road machinery.

### CHURCH AND CLERGY.

Rev. Paul Kiefer, pastor of Asbury Methodist Episcopal church at St. Paul, is losing his eyesight as a result of injuries he received last fall while engaged in playing football.

The Rev. Dr. Henry M. Field, the last of the famous Field brothers, reached his eighty-first birthday a few days ago. Dr. Field was for many years editor of the New York Evangelist.

The United Presbyterian church is the only American church with missions in Egypt. The mission was begun at Cairo in 1854 by Messrs. McCague and Barnett and has become a great influence throughout the land among Mohammedans and the Copts.

### LAW POINTS.

That witnesses to a will were in the same room with each other and the testator is held, in *ex parte* will (Vt.) 58 L. R. A. 261, not to be sufficient to make the attestation valid if they were not so in the presence of one another that each could see the other sign.

A telegraph company which upon order by telegraph issues and delivers its check by mistake to the wrong party is held, in *Burrows versus Western Union Telegraph Company* (Minn.), 13 L. R. A. 433, to be liable in the amount thereof to an innocent purchaser for value.

### Two Definitions of a Gentleman.

To be a gentleman "is to be honest, to be gentle, to be generous, to be brave, to be wise, and possessed of all these qualities, to exercise them in the most graceful manner," says the great novelist Trenchard.

A dinner in a certain hotel became so noisy that the proprietor directed his removal. The waiter who successfully accomplished this, on returning to the room, expressed his regret at having been obliged to put the individual out, for, said he, with emphasis, "he's a perfect gentleman," adding after a pause, as if to explain how he arrived at so decided a conclusion: "He gave me 'alf a crown."—Notes and Queries.

### Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is now common for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of these troubles is the kidneys, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

### Women as Well as Men Are Made Miserable by Kidney Trouble.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy, Dr. King's New Discovery. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. King & Co., Binghamton, N. Y., be sure and mention this paper.

Don't make any mistake, but remember the name, Swamp-Root, Dr. King's New Discovery, and the address, Binghamton, N. Y., on every bottle.

### TWO DIE OF POISON.

Dodge County is Stirred Up by Atrocious Crimes.

Eastman, Ga., Special.—One of the most atrocious crimes ever committed has just been brought to light at DeBols, twelve miles above here. The story is that Richard Tucker was given a dose of strychnine by a farm hand.

The alleged facts as reported are these:

The farm hand was infatuated with Mrs. Tucker, who it is alleged returned his affection. To get rid of Tucker he mixed strychnine with some peach brandy.

Mr. Joel Horn, while visiting Mr. Tucker, complained of feeling badly, and Mr. Tucker gave him a drink of the brandy. Mr. Horn died within an hour.

Having failed in accomplishing the end aimed at, the farm hand fixed some capsules with the strychnine, which were given Mr. Tucker on his complaint of feeling badly. Mr. Tucker died soon after.

Upon their arrest and incarceration in the county jail Mrs. Tucker and the farm hand accused each other of the killing.

Public feeling is at fever heat, and but for the timely arrival of Sheriff Rogers, the farm hand would have been summarily dealt with, and there is strong talk of lynching.

Drs. J. D. Herrman and J. B. Clark cut out Tucker's stomach and carried it to Atlanta for analysis by the state chemist, and relatives wish an analysis made of Joel Horn's stomach.

All the parties are of good families.

A special term of Dodge Superior court will probably convene to try the cases, as the public demand it.

### Very Remarkable Cure of Diarrhoea.

"About six years ago for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller, of Morgan, Texas. "I got temporary relief, but it came back again and again, and six long years I have suffered more misery and agony than agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' prescriptions and treatment without avail. Finally we moved to Bosque county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of medicine, costing but a few cents, cured me." For sale by Pickens Drug Co., Pickens, and T. N. Hunter, Liberty.

### HEATH SPRINGS SUFFERS.

Five Stores, Livery Stable, the Depot and All the Warehouses Burned.

Kershaw, S. C., Special.—At 11:30 o'clock Wednesday night fire destroyed five stores, one livery stable, the depot and all the warehouses at Heath Springs.

The fire is supposed to have started in a vacant store where some boys were seen smoking.

### LOUSE DETAILED ACCOUNT.

Monroe, S. C., Special.—Fire broke out in the town of Heath Springs, this county, at about midnight Wednesday night, destroying the main business houses and the depot platforms of the Southern railway.

The Springs Banking and Mercantile company was the heaviest loser. The company's large store, stables and warehouses were all destroyed; loss \$13,000, insurance \$6,000.

H. W. Mobley lost his store and stock of goods; loss \$8,000, insurance \$1,400.

The Enterprise Mercantile company lost a building worth \$200; no insurance.

The erection of new brick buildings will be commenced at once.

The origin of the fire is not known.

### THE STATE'S SURVEY.

The query, "Is kissing dangerous?" will not be pressed at the summer resorts.

The question of whether the close application of an electric light will cure cancer is still open, but there is no doubt that it will check the spread of the kissing germ.

The Baltimore people have been worried, it seems, about whether to call the 2,000 ladies accompanying the Elk Elkmarinas or Elkesses. They would probably be more unending if just called deer.

"Temporarily insane from the excessive use of cigarettes," a Buffalo man committed suicide by jumping off a train going 60 miles an hour. He had more wisdom than the vast majority of his class—he knew when and how to jump.

Blind is the man who does not recognize the great ground swell throughout South Carolina in favor of law and order. But a small fraction of the people are in sympathy with these lynchings and murders. Now would be the time for a strong personality not only to perform a sacred duty but to win popular applause by vigorous action.

Gov. Heyward makes this statement: "I regret to say that, though I have waited several days for official notice regarding this lawless act, not one report has reached me through officers of the law." He refers to the murder of Head in Aiken county. As the law requires these reports to be promptly made, it is evident that the law has been violated. This would be an excellent opportunity to let the officers of the law understand that they will be required to do their duty.

As it is unlawful to "take, kill or sell," or "cause to be taken, killed or sold or exposed for sale," any mocking bird as well as other song and insectivorous birds in South Carolina, should it not be unlawful for any person to have such birds in captivity? Those persons who purchase such birds are responsible for the breaking of the law against robbing of nests or trapping. The birds are stolen from the public; those who buy and hold them imprisoned are, morally, the receivers of stolen goods.

According to the report of the auditor of the treasury, the collector of the port at Alhambra, N. C., receives a salary of \$1,000 while the receipts of customs at that port have been \$1.80 a year for the last five years. At Beaufort, N. C., the average annual receipts are \$46.30 and the collector's salary is \$1,000 with \$404 in fees, and the collector has two deputies. These are only samples, as it is said other ports make little better showings. Everybody seems to be after putting his hand deep into Uncle Sam's pocket.

### NEGRESS TRIED TO LYNCH NEGRO MURDERER.

Infringed Because the Man Had Killed His Wife.

St. Louis, Mo., Special.—A mob made a desperate but unsuccessful effort Thursday night to lynch John Davis, a negro, who had just shot and killed his wife during a quarrel. The woman died while being taken to the hospital.

Two policemen arrested Davis and took him to a street corner patrol box, with a mob of nearly 100 negroes rushed upon them. "Lynch him," shouted a negro in the crowd, and the cry was taken up as the mob surrounded the officers and prisoner.

Davis crouched to the ground and begged the officers for protection. The officers drew their revolvers and began using them as clubs, knocking several members of the mob senseless.

Additional officers arrived, and the mob was put to rout and Davis was taken to jail for safety.

### GUT FATHER-IN-LAW.

W. R. Talley Stabs W. R. Gilliam—Wounded Man in Bad Condition.

Union, S. C., Special.—Stabbed terribly in many places, W. R., better known as "Billy," Gilliam, of this county, is in a critical condition as the result of a cutting affray on Monday night.

It seems that Gilliam, who lives on the old "Gov. Gist place," about 12 miles from Union, was in town Monday, and on his way home stopped to see his daughter, Mrs. W. R. Talley, who lives a mile and a half below town. He and his son-in-law had supper together but afterwards in the yard a dispute arose and Talley slashed his father-in-law with a knife on the jaw, barely missing the jugular vein, and stabbed him several times in the body, striking one of the ribs, which alone kept the blade from entering his heart. Gilliam bled profusely and it was thought would die on Monday night, but is still alive, though in a very critical condition.

Cholera Infantum.

This has long been regarded as one of the most dangerous and fatal diseases to which infants are subject. It can be cured, however, when properly treated. All that is necessary is to give Chamberlain's Colic, Cholera and Diarrhoea Remedy and castor oil, as directed with each bottle, and a cure is certain. For sale by Pickens Drug Co., Pickens, and T. N. Hunter, Liberty.

It is unlikely that the reward offered by Gov. Heyward for the arrest of the murderers of Dennis Head will be claimed. Doubtless a dozen neighbors of these murderers know their identity, just as the lynchers at Norway are probably known. But even if any of the neighbors are not in hearty sympathy with the lawlessness they would probably fear to appear as prosecutors. In such cases, as in the courts, the State is at a disadvantage. If the governor or the solicitors had the power to employ detectives and did utilize their services on occasion, there would be some results; the criminals inclined would at least be more circumspect.

"I would cough nearly all night long," writes Mrs. Chas. Applegate, of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but when all other medicines failed, three \$1.00 bottles of Dr. King's New Discovery wholly cured me and I gained 35 pounds." It is absolutely guaranteed to cure Coughs, Colds, La Grippe, Bronchitis and all Throat and Lung Troubles. Price 50c and \$1.00. Trial bottle free at Pickens Drug Co.'s drug store.

The fact that \$30-an-acre land in Texas produces as much as the \$100 land in Iowa and Missouri is bound to tell in Texas' favor eventually.—Dallas Morning News.

And there is just as good land to be bought in South Carolina for \$5 and \$5 per acre that is awaiting the intelligent work of the husbandman to make it worth \$50 and \$100. Yet there are people who will ask, "What good will immigrants do except in the immediate locality in which they settle? Besides being object lessons to their neighbors, they are the people who 'do,' the people who push forward and improve; they are the people who make property to tax.

"For years fate was after me continuously," writes F. A. Gullidge, Verbena, Ala. "I had a terrible case of Piles causing 21 tumors. When all failed, Bucklen's Arnica Salve cured me. Equally good for Burns and all aches and pains. Only 25c at Pickens Drug Co.'s, drug store.

The most notable feature of United States Commissioner of Education Harris' new report is the great increase in the number of college students. There are now, 75,472 men in colleges and universities as against 44,920 ten years ago and 27,870 women students as against 10,761.

The total assets of Chicago university are \$15,128,875.05. President Harper wishes to increase the salaries as follows: Professors, from \$3,000 to \$4,000; associate professors, from \$2,500 to \$3,500; assistant professors, from \$2,000 to \$2,500. A pension system is also being considered.

### WOMAN HELPED.

Mrs. Painter, of North Carolina, Implicated in the Norfolk and Western Railroad Disaster.

Roanoke, Va., Special.—Detective Wm. B. Baldwin Wednesday night, last, arrested James W. Bailey and John W. Kennedy, near Shenandoah, charged with wrecking a Norfolk and Western passenger train on the night of December 28, last, when engineer Wesley Bailey was killed. The men had a hearing and plead guilty and were sent to Staunton jail without bond. They are charged with murder. In a sworn confession they say they planned with Mrs. Ellen Painter to wreck the train and kill any passengers whom they might see in the wreck. Only the engineer was killed and the plan for wholesale murder was abandoned. Mrs. Painter comes from North Carolina and will be arrested later.

### GRAND JURY SAID TO BE DIVING THROUGH DEEP.

Jackson, Ky., Special.—The special grand jury continued its session today. From the witnesses that are being called it is believed that the jurors are considering the cases of the county officials who are said to have furnished the \$5,000 that Gardner Plummer offered B. J. Ewen if the latter would not testify against Curtis Jett and Thomas White in the Maroum murder case, also. That the inquiry is extending into the murders of Cox, Cookrill and others.

Capt. Ewen caused quite a stir in camp last night by yolling in his sleep and when aroused told the soldiers he was dreaming that he was being killed.

### A SUIT FOR \$1,000.

In the court of Common Pleas at Greenville last week, the case of A. H. Dagnall against the Southern Railway was tried. The plaintiff asked for \$1,900 damages. The attorneys interested were McCullough & McSwain, Tribble and Prince, of Anderson, for the plaintiff, Dean, Cothran & Cothran for the defendant.

During September 1901, Mr. Dagnall bought a ticket over the Southern railway from Easley to Seneca. After purchasing the ticket however, he did not take the trip to Seneca, but kept the ticket in his possession.

On the 23rd day of April, 1903, he decided to go to Seneca and brought his ticket into use. When it was presented to Conductor G. F. Marshall it was refused and Mr. Dagnall was put off the train at Liberty.

The arguments in the case were concluded Thursday and after the judges charge the case was given to the jury.

### BRUTALLY TORTURED.

A case came to light that for persistent and unmerciful torture has perhaps never been equaled. Joe Golobick of Colusa, Cal., writes: "For 15 years I endured insufferable pain from rheumatism and nothing relieved me though I tried everything known. I came across Electric Bitters and it's the greatest medicine on earth for that trouble. A few bottles of it completely relieved and cured me." Just as good for Liver and Kidney troubles and general debility. Only 50c. Satisfaction guaranteed by Pickens Drug Co., druggist.

### COLLEGE AND SCHOOL.

There are at present twenty-four women students in the University of Argentina. In the public schools of Buenos Ayres 283 of the teachers are men and 1,450 women.

### WALKING DELEGATES.

Upon orders of walking delegates, about 150 men, structural iron workers and roofers on the machinery building at the world's fair grounds, are on a strike, their claims being that workmen building the elevated track are not union. A fight ensued resulting in the non-union men fleeing for safety. Several men were hurt, Jos. Meyer's skull being fractured. Police restored quiet and the strikers were forced to leave the building. No arrests were made.

### HAIR SPLITS.

Hair-splitting splits friendships. If the hair-splitting is done on your own head, it loses friends for you, for every hair of your head is a friend.

Ayer's Hair Vigor in advance will prevent the splitting. If the splitting has begun, it will stop it. It is a safe, all-draggists.

### VERY COOL "FIGHTING PARSON."

After killing one man and fatally wounding another at Middleburg, Ky., Thursday, Robert Lee, a minister at Linnie, in Casey county, said grace at the jail table in Liberty. Lee became involved in a quarrel with Ellis Woods and the latter's son and the shooting followed. The "fighting parson" was then arrested and taken to jail at Liberty, where he peacefully returned thanks at the table with the other prisoners.

### ONE ARMED ROBBER GONE.

Leavenworth, Kan., Special.—Benj. W. Starnes, alias Stratton, a one armed train robber from Oklahoma, escaped from the federal penitentiary here early Friday morning. Starnes dug his way out of the crankhouse into the prison yard, then climbed a blanket rope to the top wall twenty-five feet high, using his teeth and one arm. Starnes is the man who put on a false arm and held a revolver with it while holding up a train.

### SHOT TWO BURGLARS.

Cleveland Wood, 18 years old, of Edgfield, S. C., and Charles Smith, 28 years old, of Bocton, were shot Thursday morning in Atlanta, about 3 o'clock by Dr. C. M. Green, in whose store they were committing a burglary.

Dr. Green, hearing a noise in his store, took his Winchester rifle and fired several shots through the panel of a door, without seeing the men he was shooting at. Wood was shot in the thigh and Smith in the hand.

Later both men were arrested and lodged in the Tower. They are said to be wanted for burglaries in other places.

### RESULTED IN NEGRO'S DEATH.

Spartanburg, S. C., Special.—As a result of the difficulty Monday night between Dock Jones and Hood Flax, negroes, the former died at an early hour Thursday morning. It seems that on the night mentioned, Jones and three women were on Main street and encountered Flax, who forthwith got up a scrap with Jones and in the melee inflicted terrible injuries. The negro fell unconscious and died of paralysis due to wounds on the head. Flax escaped and has not yet been arrested.

### GLEANINGS.

There are more Swedes in Chicago than in any Swedish city except Stockholm.

Owing to the wonderful strides of the American cotton industry the consumption of the raw staple in the United States has increased 61 per cent in ten years.

The new animal houses in New York zoological gardens give wild beasts a wider range of comfort than the tenement dwellers in the crowded districts of the east side of Manhattan have known for generations.

The hopes that the mammoth tusks so abundant in the arctic regions would replace the tusks of the vanishing elephant have not been realized. Only about 30 per cent of the mammoth tusks make good ivory.

The most wonderful of aboriginal American monuments is the famous Aztec calendar now in the Mexican National museum. It is a zodiac, eleven feet in diameter and carved from solid rock. The monks of Cortez buried it in a marsh, and it was lost for 232 years.

The newest cure of anaemia is to take the sufferer up in a captive balloon and let him stay in it a certain altitude for two hours. Half a dozen ascents of this kind during as many weeks will effect a marvelous cure and are equal to a three months' sojourn at a health resort.

King Alexander of Servia has no son or cousin in line for the throne. Civil war and three hating each other pretenders would come into evidence were he to die today.

When Victor Emmanuel II. died the sum of \$400,000 was in a short time subscribed for a monument. The government added \$1,000,000. The estimate now is that the total cost will reach about \$6,000,000. The monument is to be the most beautiful and costly in modern Italy.

### STATE NEWS.

—Twenty-one contractors in Columbia have signed an agreement not to employ any union man connected with the Building Trades Council.

—Assistant Chief Constable Howie has resigned his position from the force, but it is not known yet who his successor will be. Howie, it will be remembered, was chief constable in Charleston but was afterwards transferred to Beaufort, from which point he resigned and went to Chester.

—In Columbia Tuesday morning Judge Gary rendered a decision in the case of Brookshire vs. the Farmers Alliance Exchange, ordering that a receiver be appointed for the fund now on hand, about \$17,000, or that bond be furnished for twice the amount involved until this fund is distributed.

—Anderson is to have a first class business men's club, such as exists in other cities. The need of such an organization has been felt there for a long time, and now it is believed that it can be secured. The club will have well furnished rooms where visitors to that city can be carried and entertained, and where the members themselves can spend their leisure time pleasantly and to advantage.

—The Newberry Real Estate company, which is capitalized at \$25,000, has been organized. The organization of this company means a great deal to the people of Newberry, as it will place upon the market some of the most desirable and valuable building lots within the corporate limits of the city.

—C. Ward, the rail carrier on route No. 2, from Trenton, drove into town Saturday afternoon and left his horse hitched on the streets. When he got ready to leave for home he found the horse missing. Later he went in pursuit of the animal and was fortunate in finding him. He had been used by a negro in making his way from Trenton to Edgfield.

Slight injuries often disable a man and cause several days' loss of time and when blood poisoning develops, sometimes result in the loss of a hand or limb. Chamberlain's Pain Balm is an antiseptic liniment. When applied to cuts, bruises and burns it causes them to heal quickly and without maturation, and prevents any danger of blood poisoning. ### A TRILBY BRIDE.

Went to Park Ostensibly to Wash Feet and Joined Her Sweetheart in the Cotton Field.

Charlotte, N. C.—A special from Troutman, Iredell county, N. C., says:

News has just reached here of the exciting and novel marriage of Mr. Tom Ervin and Miss Rama Eagle. Miss Eagle lives with Mr. J. D. Croker and he was bitterly opposed to her marriage with young Ervin and kept a strict surveillance over all her movements. The young people couldn't get away and but for the timely assistance of Orin Harwell they would yet be trying. Harwell laid the plans and the others carried them out. It was this way, Miss Eagle having taken off her shoes on the eve of her marriage walked out on the porch ostensibly for the purpose of washing her feet when she suddenly darted across the yard and through a field of cotton where she was met by her lover and young Harwell. There was a buggy in awaiting and in less time than it takes to tell it they were off with the horse stretched at a dead run.

Harwell, however, strayed at his post to arrest the progress of the pursuing Croker. Mr. Croker is a fierce man and everybody else was afraid of him. Just why he went no further than the cotton field nobody knows but those two men. Harwell could tell but he just grins and won't. However, the bar-footed, bare-headed bride and the groom soon reached the home of Marriage Artist O. O. Harwell who being called out of bed stepped on the porch also bar-footed and bar-headed and as time was precious they were married in short order. Young Ervin then drove with his Trilby bride to his own home as well content as if he had married in the church with the sanction of the whole world.
