

Happenings of a Local and Personal Nature.

—J. D. Moore handles fresh meats all the time.
—Greenville received her first bale of cotton last Friday.
—Read what the Pickens Drug Co. says. They say Peruna.

—Miss Nannie Mauldin, our efficient assistant postmaster, is spending a week with her sister, Mrs. T. S. Grand, and other relatives and friends in Greenville.
—This paper is published to disseminate the news, and we can only give the news whenever we learn of it.

Independent Graded School.
The Colored Independent Graded School of Pickens Co., S. C., opened Monday, the 14th inst., with a good number of pupils. The assistant will be a person holding a first grade certificate or a diploma from some of the legal colleges.

The Annual Meeting of Old Stone Church and Cemetery Association will be held at the Old Stone church on Saturday, Oct. 10, 1903. A full attendance is desired; not only of the members of the Association, but of all others interested in the preservation and improvement of the cemetery and church.

Twelve Mile River Association.
The next session of this association will be held with Antioch Baptist church, ten miles northwest of Pickens, beginning Thursday, 8th October, next. The introductory sermon will be preached by Rev. J. E. Foster; alternate Rev. J. M. Stewart. Missionary sermon by Rev. B. E. Grandy; alternate Rev. J. M. Lida.

To Mothers in Town.
Children who are delicate, feverish and cross will get immediate relief from Mother's Sweet Powders for Children. They cleanse the stomach, act on the liver, making a sickly child strong and give a certain cure for worms.

Easley News.
Easley, S. C., Sept. 15, 1903.
The graded school opened here last Thursday with a full attendance, with Prof. Daniel principal and Misses Ray and Martin assistants. This promises to be one of the most successful terms in the history of the school.

Beverly News.
This section was visited with a good rain first of this week. The hot wave of the latter part of August played havoc with the crops in and around here. Some of our farmers claim we can't make more than a good half crop of cotton, while others think with a late fall can make two crops.

Croswell News.
Mr. Editor: As you have a standing solicitation for locals from the different parts of the county, and being a well wisher of The Sentinel-Journal, will ask for a little space.
This section was visited with a good rain first of this week.

—John Stephens, who resided in Pickens, died at his home here Wednesday morning from a complicated affection. He had been sick for a long time, but had only been confined to his bed for a few weeks. He was a member of Griffin Baptist Church where he was buried today.

Hazel Happenings.

Messrs. W. W. Aiken and D. D. Winchester went on a business trip to Brevard, N. C., last week.
Mr. and Mrs. Anthony Baker visited the families of Daniel and A. T. Winchester last week.
Miss Sallis Thomas visited the family of A. T. Winchester last week.
Prof. J. L. Murphree closed a ten days music school at Shady Grove Baptist church last Friday. Heavy body far and near gathered in the last day to hear the music and it was grand too. The day was truly enjoyed by all present. Music and music lessons were the services of the day until dinner. One hour was taken for refreshments and then a short lesson in song service, after which a very impressive and instructive talk was delivered by Rev. B. F. Murphree. Two songs were sung by Messrs. W. E. Thomas, A. T. Winchester, Henry Townes, W. M., W. J. and John Baker. "Hide Your Me" and "Whiter Than Snow" were the songs sung by the six gentlemen.

Dots From Symmes.
Dear Sentinel-Journal: I paid Pickens a visit last week and was very much impressed with the improvements I saw all along the way, and especially so, from Liberty to Pickens.

There is some feature that I do admire and that is the small purchase of land, and the improvement that follows. The small land owner is the backbone of the country. He, it is, who tills, tends and toils, and beautifies his little farm, and spends what he makes in further improvements. What we want is our large areas cut up into small farms and sold to good, energetic, white men, and the necessary result will be good citizens, good churches, good schools, and last, but not least, but greatest of all, will be Good Roads.

Crops in this section are only ordinary; cotton very short; corn on bottom land is fine.
The only thing we can complain of right now, is our roads. They are not hardly passable, in places. I had a talk with Honorable Board of Commissioners and they promised to give us their presence and attention next month, and bring us the chain gang to relieve us to some extent, so we will wait with patience, their arrival.

Mountain View.
The readers of this paper will be pleased to learn that there is at least one devoted horse at service here, in a stable able to care in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the system, thereby destroying the foundation of the disease...

Beverly News.
The Reunion school closed last Friday. Miss Myrtle McClanahan was our teacher and she gave general satisfaction.
Fodder pulling is the order of the day now.
W. J. Boggs has accepted a position with R. C. Carter at Liberty. Walter is a jolly good fellow and will do you right when you buy goods from him.

Mr. Editor: We noticed a few days ago in the Charlotte Chronicle, copied from Greenville News, giving the name of so many wrecks on the Southern. In our opinion the primary cause is brought about by over working their men, their firemen, in particular. It was a few years ago considered hard work to fire a forty to sixty ton engine that would burn from seven to ten tons of coal, now they load them from ninety to one hundred and ten tons and burn all the way from eighteen to twenty-five tons of coal a trip. Any reasonable minded man can see at once that a young man that has to fire three to four years before he is promoted, is physically wrecked, and that naturally causes the mind to be clouded.
