Confessions of a Priest.
Rev. Jno. S. Cox, of Wake, Ark., writes: "For 12 years I suffered from Yellow Jaundice. I consulted a number of physicians and tried all sorts of medicines, but got no relief. Then I began the use of Electric Bitters and feel that I am now cured of a disease that had me in its grasp for twelve years." If you want a reliable medicine for Liver and Kidney trouble, stomach disorder or general debility, get Electric Bitters. It is guaranteed by the Pickens Drug Co., Only 50c.

A Gallant Soldier.
Mr. and Mrs. William L. Bolt, of Anderson, have been on a visit to their son, Dr. James L. Bolt. Mr. Bolt was a gallant soldier in the civil war and relates some reminiscences that are unusually interesting. He lost a leg at Boonesboro, Md., and fell into the hands of the federals and was carried to a federal prison, where he lingered with his wound for six months. He feels satisfied that he owes his life to the surgeon into whose kind hands it was his good fortune to fall. He has had the pleasure of hearing from the surgeon a number of times since the war, and is exceedingly attached to him. While he lingered in the hospital he wrote several times when first wounded to his wife, but receiving no reply concluded that his letters were not being delivered. The fact is, they were delivered as they were unsealed, but his wife sent her's sealed and they could not be delivered. He ceased writing when he concluded that his letters were not being delivered, and of course his wife naturally took it for granted that he was dead. When six months later he returned home he found his wife clad in mourning. Mr. Bolt is glad that he reached home before matters reached the pathetic stage of poor French Arden.

Cause of Lockjaw.
Lockjaw or tetanus, is caused by a bacillus or germ which exists plentifully in dirt and soil. It is inactive so long as it is exposed to the air, but when carried beneath the skin as in the wounds caused by persian caps or by rusty nails, and when the air is excluded the germ is caused to actively produce the most violent poison known. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is an antiseptic and causes cuts, bruises and like injuries to heal without maturation and in one third the time required by the usual treatment. It is for sale by T. N. Hunter, Liberty; Earle's Drug Store; and Pickens Drug Co., Pickens, S. C.
