

TREMENDOUS TRADING

Chances at **ARNOLD'S**

Enormous Stocks In All Departments.

Never before have the trade of Greenville and surrounding country had such magnificent stocks from which to make their fall purchases as we are showing this season. Now don't take this information with "a grain of salt" as you do a good many "ads." Just a peep on the inside of this big store will soon convince you—a careful investigation of stocks and prices will enthrall you to the buying point. You do not have to make your selections from a mere handful, but a large variety of styles and prices. Again this is a store of many departments, You don't have to run all over town to get fixed up. We carry everything from Shoes to Millinery—in other words, we are head to foot outfitters. You can buy your Dress, Hat and Shoes, or anything else you wish to go with them without leaving the store.

The Suit and Wrap Department.

There are cities twice the size of Greenville that cannot show such stocks as we are showing in ready-to-wear garments. We have a large out-of-town trade who come to us for ready-to-wear garments. Why not you? The styles and qualities all that you could ask, and prices extremely economical.

Magnificent Millinery Display.

It will pay any woman whether far or near to come to this store to purchase her fall and winter Hats. No such a stock of Hat beauty, quality or style to be found in upper Carolina as you will find here. Nobby Ready-to-Wear Hats for street use. While not expensive, yet they have that touch of style—price 1.50, 1.98, 2.50, 5.00, 7.50 to 10.00.

Beautiful creations in Dressy Hats, suitable for all occasions, all the new colorings and materials; any shapes combined in these Hats. No better styles. No better qualities, and the prices are extremely moderate.

Shoe Values That Have No Equal.

The values in our Shoe Department stand out pre-eminently alone. They cannot be compared with those offered at strictly Shoe Stores, for the fact that our Shoe Department only has to bear a small portion of the expense of this business, while it's different with shoe stores—they have to make it all on shoes. Our lines represent the very flower of shoe making: In being able to buy everything you need under one roof, means that you can save both time and money by doing so. This is one of the few stores in the State where you can satisfy all your wearing apparel needs under one roof.

THIS IS IMPORTANT.

That Arnold does not handle trash. The prices quoted are upon absolutely reliable, first-class merchandise. It's the kind we have built our reputation on. It's the only kind you can afford to buy. You don't run any risk here. No old stock, job lots, mill-dewed, "outlawed" in style merchandise, old enough to vote, to palm off on you. You won't be ashamed to tell your neighbors where you got your new dress when she asks you, which she's sure to do if you buy it here.

The Church Bazaar.

Dr. Henry van Dyke, author, clergyman and professor at Princeton, was talking one day about the best way for churches to raise money, says the New York Tribune. Apropos of bazaars he said:

"There was a canny old Scotch minister who said one day from the pulpit, with a dry smile: 'Woe, friends, the kirk stands urgently in need of silver, and, as we have failed to get it honestly, we must even see now what a bazaar can do for us.'"

How to Cure For a Watch.

If a watch is expected to go well and to keep good time, the first and chief demand it makes is that it should have regular attention, says the Pittsburg Press. As far as possible it should be wound up every day about the same hour, and if it is worn let it be wound regularly, not taken out for three days and then returned to its case for the remainder of the week. Extremes of temperature should also be avoided, as sudden cold or heat works havoc with a valuable watch and its delicate mechanism. Another point to be noted is that the watch should be kept in the same position. If it is carried by day in an upright position, hang it on a hook at night, preferably against some thing soft.

How to Remove Grease From Carpet.

Grease may be removed from a carpet by spreading over the spot a thick paste of potter's clay. Tack down tightly over this some thick brown paper, and at the end of a week remove this paper and brush off the clay. It may be necessary in some cases to repeat this process, but one application is usually sufficient. If the grease has penetrated the floor it may be necessary to raise the carpet and put the clay on the floor in the same manner if it cannot be removed by hard scrubbing.

How to Remove Fish Odors.

The smell of fish that is so hard to remove from pans and plates by washing or soaking will yield to lemon skin rubbed over them. This will kill the flavor of even salt mackerel and salmon in a bakepan. After rubbing with the lemon let the dish stand for a little, then wash in cold water and rinse with hot.

How to Polish Mirrors.

To polish your mirrors, use a soft sponge dipped in alcohol, rubbing the glass vigorously. Now rub it lightly and quickly with a dry soft cloth, and finally polish well with tissue paper or preferably with an old silk handkerchief.

How to Make a Turkey Dressing.

To make a dressing for the Thanksgiving turkey take three parts of stale bread, one part of cracker crumbs, two eggs, two teaspoonfuls of salt, two-thirds of a teaspoonful of pepper, two-thirds of a teaspoonful of sage, one spoonful of savory, one teaspoonful of marjoram, one teaspoonful of thyme and two-thirds of a cupful of butter. Soak the bread in cold water until soft; then press out all the water; add all the other ingredients to the bread and mix well; fill the breast of the turkey with this and put the rest in the body of the turkey.

How to Make Oyster Stuffing.

To the ordinary stuffing for a turkey, of dry bread crumbs seasoned with parsley, thyme and sweet marjoram and moistened with melted butter, add two dozen small oysters chopped fine. Stuff the breast of the turkey with this.

How to Rid Books of Ink Stains.

Ink stains may be removed from a book by applying with a camel's hair pencil a small quantity of oxalic acid diluted with water and then using blotting paper. Two applications will remove all traces of the ink.

How to Wash an Automobile.

When the owner of an automobile has engaged a new driver he should stand by to watch the method adopted. The new broom sweeps the car for the first time, says the Pittsburg Press. If a hose is provided and the new man forthwith plunges a sponge into water and commences to wipe the mud and dirt off the paint work it is clear that he does not know his job and should be stopped at once. Mud and dust should never be wiped off, even with a wet sponge, but should be washed away with water just running from the hose pipe without force. It should be sluiced away, and that cannot be done properly if the water is pouring forcibly through the nozzle. Where mud has caked upon the car water must be allowed to run gently over the incrustations until they break up and are washed away. Then a clean sponge and clean water must be used for finally washing the paint work when all the mud and grit have disappeared. The final drying and polishing can be done with perfectly clean, gritless cloths or leathers. Cars should be washed immediately upon coming into the garage. Wherever dried mud rests for any time a dull stain remains which nothing will remove.

We are old fashioned enough so that there is no slight which affords us more inspiration and pleasure than that observed when the well to do townsman or farmer flies into kirk followed by his wife and family of five or six children. It is a good omen to all who believe that well ordered homes constitute the foundation of a patriotic, happy and abiding fatherland.

That hired man who is always breaking, misplacing or carelessly leaving farm tools and machinery had better give room for some one else. If he can't be relied upon to take care of the minor details in connection with his work he can hardly be trusted to properly care for the stock or harvest the crops.

Never before in the history of the country have the railroads been confronted with so stupendous a task in the matter of handling the enormous crops which have been raised as they will have to tackle this fall. While most roads have made large additions to their rolling stock in the way of new and large capacity, engines and freight cars, yet it is questionable if it will be sufficient to keep pace with the increased yield of the myriad farms of the country.

Result of Neglect

In most cases consumption results from a neglected or improperly treated cold. Foley's Honey and Tar cures the most obstinate coughs and prevents serious results. It cures you no more than the unknown preparations and you should insist upon having the genuine in the yellow package. Parkers Pharmacy, Liberty, and Pickens Drug Co.

Some interesting experiments are now being tried along the line of vaccinating fruit trees with a solution of sulphate of iron with a view to increasing their longevity. It has been found that the root system of such trees plays out sooner than that above ground, and an application of the chemical mentioned tends to arrest decay and dissolution of the roots and thus prolongs the life of the tree. While the experiments made are in a sense only tentative, they give promise of being of definite and practical value.

We hear a good deal of complaint against the quite general practice which road supervisors have when working on the highway with road graders of leaving an incline at either side of the road so steep that it is practically impossible to use a mower in cutting the weeds adjacent thereto. Were the work so done that the slope toward the fence from the bottom of the ditch was not more than twenty-five or thirty degrees there would be no ground for the complaint as made, and the matter of keeping the highway looking neat and shipshape would be immensely simplified.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says: "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."
