

\$30.00 IN GOLD TO BE GIVEN AWAY ON FEBRUARY EIGHTEENTH

\$10,000 For First Prize in Each District—\$5 for Second Prize in Each District.

Subscriptions Are What Count! Do Not Get Behind—Ask Every
One You Meet for a Subscription.

The Contest Manager wishes to announce that The Daily Intelligencer will give Ten Dollars in Gold to the lady in District No. 1, who wins in the highest number of months between Jan. 15th and Feb. 15th, inclusive. The Dollar in Gold will be given for the second prize. Also in District No. 2 Ten Dollars in Gold will be given to the lady turning in the highest number of months from the beginning of the contest, until Feb. 15th, 1914. A subscription for one year will be counted as twelve months, one for two years for twenty-four months, etc. Suppose for instance, you should get a subscription for six months, one for a year, one for two years, your total number of months would be 42 months. A subscription for one year to the Weekly Intelligencer whether it be old or new will be counted as three months, summing up all of your coupons and see if you cannot be a winner of the Ten Dollars in Gold.

ASYLUM COMMISSION ASKS POLICY FOR DEVELOPMENT

Members in Report to General Assembly Review Work at State Park—Erect One New Building for Patients. Need \$125,000 This Year

After reviewing the work at State Park, the State Hospital commission in its annual report prepared for the general assembly, concludes with the statement that "125,000 could be economically expended during the year."

Members of the commission are: J. W. Babcock, M. D., chairman; Robert Wilson, Jr., J. M. Payne, O. L. Johnson and E. H. Hill, secretary.

In the report it is shown that 2,582 acres of land have been purchased by the various commissions at a cost of \$75,366.12. The commission reviews its recommendation that an electric car line be constructed from Columbia when the park has been removed to the hospital.

Concerning the laundry and power plant the report says:

"The main building of the laundry is 45 feet by 96 feet, and consists of four wings or units of 24 feet by 23 feet each. Its height is 14 feet to the trusses and 20 feet additional to the top of the chimneys.

"The power plant consists of two rooms; one for the boilers and one for the engines and dynamos. This plant has been planned for twice the present needs in equipment and in arrangements may be made without detriment to the structure. The dimensions are 60 by 35 by 15 feet.

"The report also says that the general assembly and state officials had not determined upon a policy for the development of State Park. So long as this matter remains uncertain, the general assembly can not be expected to make proper appropriations for the erection of buildings and the organization of the several colonies which it has been proposed to locate in the country.

"It will be recalled that it was this oversight at the State hospital which induced the general assembly to devote the most means for building a new hospital building called upon it to provide for the means of the increasing number of dependents and inmates for which the state was annually being taxed upon to provide for. As far as the means were at hand, the commission has endeavored to fulfill its obligations. To this end we held a joint meeting with the regents, and at the request of the commission from the regents and by direction of the commission, the secretary prepared the statement which has already been referred to and which is printed as an appendix to the report. The purpose of the commission has been at all times to have the co-operation and sympathy of the regents in the development of State Park.

"To understand that the superintendent of the State hospital recommends the plan of utilizing the buildings of the hospital now in Columbia for the purpose of the State Park and the developing of several colonies in the country for the chronic insane, idiotic, epileptic, feeble-minded and insane patients. This plan appears to be in keeping with the most modern methods of treating the insane. That is, a hospital for the treatment of

doing. If they are ever going to show their friendship for you they will show it now when you are trying so hard to win. If you imagine you can maintain a place in this race by gathering coupons, you are going to be sadly disappointed, you will be left far in the rear. How long will it take you to clip 18,000 coupons from The Anderson Daily Intelligencer? In a few minutes time you should be able to get a yearly subscription to the paper to win one of the special prizes and you also get the 18,000 votes that count toward winning the Automobile, Piano or Carriage.

We are willing to give away nearly Two Thousand Dollars in prizes, in return for which we want subscriptions, and we're going to get them for the people in this vicinity have confidence in The Intelligencer, they know it to be a good paper, one that is safe to take into their homes and put into the hands of the young innocents of the family, a paper that stands for all that is good and clean, the foe of all that is bad and unclean.

HALTS FIGHT TO BAR ORIENTALS

Secretary Bryan Makes Statement to House Immigration Committee

Washington, Feb. 6.—Definite and final refusal on the part of the Wilson administration to consider any Asiatic exclusion legislation during the present Congress, was the burden of the statement given to the House Immigration Committee today by Secretary of State Bryan.

For more than an hour he set forth to the members of the committee, under oath of secrecy, the relations existing and the possible future complications between the United States and Japan, and called upon members of the committee to refuse to consider in any way the Raker bill or similar exclusion measures.

When he left the room only Representatives Raker and Hayes of California, were opposing him. Hayes later denied any knowledge of a prior committee agreement to consider Asiatic exclusion.

The Republican members of the committee were seriously concerned, as were the Democrats, before the Secretary had finished his recital. Representative Johnson of Washington, who was among the most violent opponents of Asiatic immigration, refused to make any comment on the turn affairs had taken. None of the members except Representative Raker appeared to have the slightest doubt that the agitation of the Asiatic question was killed.

The Secretary is understood to have told the committee that the United States is in a condition to arrange the removal of Japanese, and that it was merely the lack of common sense and patriotism to accomplish exclusion by maintaining the present "gentlemen's agreement" until the public sentiment in Japan should change. In this view the majority of the committee concurred.

Bryan also is reported to have told the committee members that he was certain to reach an agreement with Japan on the issues raised by the California alien land law, if no new obstacle to such a settlement be created by Congress.

He said he was on the best possible terms with the Japanese ambassador, and had every reason to think that negotiations now pending would remove any possible cloud which might rest on the friendship between the American and Japanese people.

Can A Man Ride Free On His Own Railroad?

Atlanta, Feb. 6.—Has a man got a right to ride on his own railroad free? That's what the officers and directors of the Georgia Railroad and Banking Company are demanding to know from the Superior Court, following a decision of the state railroad commission by declaring that the Georgia act took away from them this right.

The suit is being tried by the name of the company and is directed against the state railroad commission. The plaintiff alleges that the contract by which the officers and directors have a right to ride on the road was valid and valid in every way, and that the commission now has no right to prohibit the officers from doing so. All specifications of that valid contract.

TIGER NOT BLIND

Atlanta, Feb. 6.—A man named Norton, with one eye was arraigned in the city court this morning on the charge of being a "blind tiger." His attorneys made a humorous appeal to the jury calling attention to the fact that though he was blind in one eye could see out of the other, and could distinguish right from wrong. They insisted that his blindness was not proven and that the charge that he was a tiger hunter in all animal collections through.

Other evidence was brought forth which raised some practical doubt of his guilt, and while broad grins sufficed the faces of the spectators he was acquitted.

IT'S ALL FOR YOU!
