WHY CLEMSON'S NAME

SHOULD BE CHANGED

Full Text of the Governor's Message Relative to Changing the Name of Clemson College and Letters from Living Calhouns

Governor's message on changing the name of Clemson College to "Cal-

Gentlemen of the General Assembly In my annual message of 1913 (House Journal, 1913, page 36; Senate Journal, 1913, page 31) under the head of "Clemson College," I recommended that you change the name of Clemson College to "alhoun University alving them versity, giving therein, in particular. by reasons therefor. I now beg leave to ireterate that recommendation, and herewith transmit to you a letter from the Hon. John C. Calhoun, and also, letter from Mrs. Floride Lee Calhoun, who was Miss Floride Lee, both of which letters are attached to and made a part of this message, and which speak for themselves.

Col. Calhoun, the writer of one of

these letters, is a very prominent citizen of the City of New York, and is a very wealthy man. He is in close touch with the wealthy people of that city, and is a next-door neigh-bor and personal friend of Mr. Andrew Carnegie. Therefore, he is in position to carry into effect such matters as are mentioned in his letter. In addition to this, Col. Calhoun is now in the city, passing through, and will be very much pleased to meet you personally, or to meet your committee at any time or place that you may suggest, and go into details with you in reference to this matter. I am very much pleased that these

I am very much pleased that these relatives of South Carolina's most distinguished son should have had their attention called to my recommendation in reference to this institution, and I am very much pleased with the interest which they are now taking in the matter. It certainly gives to the people of this State a grand opportuity to house the more grand opportunity to honor the mem-ory of Senator John C. Calhour, and ory of Senator sonn C. Cambon. and to re see this State of the but ien of supporting, with hundreds of thousands of dollars, an institution over which she has absolutely no control, because of the fact that the majority because of the fact that the majority of the Board of Trustees were named by Mr. Clemson: they are life members, and when one of their members dies the remaining members fill the vacancy, and thus the Stafe can never hope to gain control of the institution as it stands now. In addition to this, the constitution of this State prohibits fire tenure in office. Long and the Table of printegature has ago the list of printgoniture has been abolished, but recently when a life member of the board of trustees did, his son was elected to take his place, and more recently when one of the 'clective trustees died,' you gentlemen elected his son to take the deceased father place. Individ-ually hid personolly, I have absolute-ly no objection to these two men be-ing elected to all their fathers's hoes, the elected to fill their fathers's hoes, but the precedent, in view of the provision of our constitution and the fact that the law of primogeniture has been abolished, will not have a whole-some effect, and it shows beyond the shadow of a found that the life trustees of the institution are bent upon perceluating themselves and the sons of their deceased members in office, thereby the provider thereby the thereby the there office, thereby forever depriving the State of getting new brain, new blood

state of getting new brain, new blood and new material on this life board. In addition to that, I, have been, reliably informed—and people now living will swear to the fact—that Mr. Clemson was an atheist—that is, that he did not believe there was any God; he did not believe that there was any hereafter, either a heaven or a hell; and yet this grand old State a hell; and yet this grand old State
of South Carolina, for a few acres of
hand and a few patry " lars, has,
with all her boasted Christianity,
raised a monument to a man who neither believed in the religion of the Lord Jesus Christ,or in the existence of our God. This of itself, I think, should be sufficient reason to change the name of this institution. It is innecessary for me to repeat the reasons which I gave you in my rect these heasons, however, to your serious consideration, and I hope that you will at least to Col. Cathoun the courtesy o finviting him to appear before you or before one or your

There could be hardly any lengths to which I would not go to lengths to which I would not go to further this plan. Carnival Folded Its Tents Last Night and Took Up March For Newberry

The Tropical Amusement Company, which has been conducting a carnival during the past week at North Anderson, raced their tents last night and early this morning their special train left via the Southern railway for Newberry.

While here, this carnival established

a good reputation, not only through the character of their shows (which were of a high order) but also because of the courteousness and proper behavior of the Iadles and gontlemen who travel with this company. Their business methods were also above reproach and the officials of the company formed many friendships with Andersonians with whom they came
