Stocks and Bonds

New York, Feb. 14.—The stock market's inertia today discouraged speculative efforts among favorite shares which scarcely varied through the session, but the low priced steel stocks, railway equipment issues and other specialties were easier to move. Various issues were put up a point or more. The early advance was all but cancelled by a subsequent reaction and the day's changes, except in a few instances, were unimportant. Rock Island preferred again was under pressure and touched a new low record at 10 1/2. New York Central moved up toward the close. Recent heavy selling of this stock brought into circulation rumors concerning a possible cut in the dividends. Official denial of these rumors strengthened the stock. The bond market was narrow and uncertain. Trading today was quiet in the new Southern Pacific convertible 5s; which brought 103 5/8. Total sales of bonds, par value, \$1,395,000.

Chicago Grain and Provisions

Chicago, Feb. 14.—Export sales had to have reached a large total today brought about a rally in wheat. The market, having shown a declining tendency most of the day, would stand at the same as last night in a shade off. Corn and oats also closed virtually unchanged. In provisions the outcome was a setback of 10 to 22 1/2.

Money Market

New York, Feb. 14.—Call money nominal; no issue. Time loans steady; sixty days, 1 1/2 @ 3/4; ninety days, 2 1/4 @ 3/4; six months, 3 1/4 @ 1/2. Commercial paper, 3 1/4 @ 1/2. Sterling exchange, easy; sixty days, 4.83 1/2; demand, 4.85. Commercial bills, 4.82 1/2-3/4. Bar silver, 57 3/8. Mexican dollars, 45. Government bonds steady; railroad bonds irregular.

New York Cotton

New York, Feb. 14.—A bullish view of the census supply and distribution features today seemed to inspire some fresh long buying in cotton and there was also a moderate demand from trade sources. Advances were held in check, however, by realising for over the week end, while general business was probably restricted to some extent by the storm. Late positions were relatively dull and easy, as the bulk of the fresh buying went into old crop months and the market closed steady at a net advance of 1 to 2 points on the old, but from 2 to 4 points net lower on new crop deliveries. Cables were disappointing and the market opened steady at a decline of 4 points to an advance of 1 point, but more correct later.

New Orleans Cotton

New Orleans, Feb. 14.—While it was a list week in the cotton market, a good tone was preserved and prices closed at a net gain over the week of 15 to 20 points. Short covering in rather large volume and moderate fresh long buying contributed to the advance.

Liverpool Cotton

Liverpool, Feb. 14.—Spot cotton, in limited demand, price steady; good middling, 7 1/2; strong, 7 3/4, including 3,500 American. Receipts, 27,000, in staple, 20,500 American.

Cotton Seed Oil

New York, Feb. 14.—The cotton seed oil market today was inactive, and prices were steady on small offerings and covering prompted by the firmness in raw cotton net purchases.

Cotton Goods

New York, Feb. 14.—The storm interfered greatly with trading for the day. The market for cotton goods was generally steady. Dress goods business continues good, but prices are very low.

Chicago Grain

Chicago, Feb. 14.—Export sales had to have reached a large total today brought about a rally in wheat. The market, having shown a declining tendency most of the day, would stand at the same as last night in a shade off. Corn and oats also closed virtually unchanged. SCHOOL TEACHERS SOON TO GATHER

Anderson's Teachers Will Be Urged to Attend Educational Meeting and Take Part

SCHOOL TEACHERS—The following announcement relative to the State Teachers Association has been received at the Education Department of this county: The State Teachers' Association will meet this year at Spartanburg. I want to ask that you use your influence in helping to get a large attendance from your county. Will you please call the teachers attention to the meeting and insist on their going? A word from you as to the importance of their going will do much good. You know as well as I do how necessary it is for the teachers to attend these meetings. The State Board of Education and most county boards have recommended that all teachers who attend be given the two days. If you will tell them this and speak to the trustees you see and urge them to encourage their teachers to attend we will have a large number from your county. The executive committee has decided to give a trophy to the county having the largest number of its teachers present. Won't you help your county win this? Trusting that I shall have your co-operation in this matter, I am, Yours respectfully, A. H. Gassard, President.

CHANGES MADE IN POULTRY PROGRAM

Additional Prizes Are Offered in A Number of Various Classes, of Feathered Fowl

With all plans now complete for the holding of Poultry Day in connection with Farmers' Trade Day in Anderson on next Tuesday, indications are that dozens of Anderson farmers will bring exhibits of poultry to the city. The Cole Guano Distributor

No. 20 and No. 21. Used for Opening the Furrow and sowing Guano at the same time. Well adapted to applying Guano to growing crops. There are many cheaply made imitations of this style, but they cannot compare with the Cole.

These machines—just like the higher priced Cole implements—will prove so downright useful that you will wonder how you ever got along without them—why you ever were content to put up with out-of-date faulty machines when you could own distributors like these. For even the lowest priced machines, we use the best grade of steel adapted to the work. Every machine is inspected again and again so there can be no flaws. For wooden parts requiring strength we employ the toughest oak. Cole Planners and Cole Distributors are known as the "standard" implements used by Progressive Farmers, never been made at the price.

Did You Ever Stop To Think

How little an Electric Closet Light would cost you. And what a great convenience it would be! Closet Lights, Stable Lights, Yard Lights, Attic Lights—all lights that are used seldom—cost little. Such lights can be turned on dozens of times for a very few minutes at the cost of a single copper cent. Don't you think a few of these would be worth while in your home equipment? No other light is a safe closet light.
