In the year 1909, 777 establishments were engaged in the United States in the manufacture of paper from wood pulp. These gave employment to an average of 61,478 persons and paid $39,214,643 in salaries and wages.

CEMENT WALKS TO BE BUILT

College View Property Is Soon To Boast of One Mile of New Paved Sidewalks

Work will probably start this morning on the laying of one mile of hexagonal cement walk in that part of its holdings known as College View by the Anderson Real Estate and Investment Comapny, according to an announcement made by the officials of the company yesterday.

The property to be improved is some that were recently opened up by the real estate comapny and it bids fair to soon become one of the most popular residential sections in the city. This property lies just in the rear of the city hospital and the paving to be done will be, for the most part, on new streets which have just been constructed.

Certain other avenues, leading out to Anderson college, will also be paved by the reatly company and on Green street, where the paving is to be done, the city will pay for a portion of the work, since on that particular street the real estate company will derive but little benefit, except from the fact tha it provides a way of getting in and out.

The contract for this paving has been let to G. A. Gunter of Atlanta and this gentleman said yesterday that he hoped to able to start the work some time today.

WOODMEN WILL FEAST TONIGHT

Willow Camp Prepares to Enjoy A Splendid Banquet at the Park

All plans for the holding of the annual banquet of Willow Camp No 26, Woodmen of the World, which takes place tonight, have now been completed and the event will be one of the most enjoyable in every respect that the local "Choppers" have experienced.

It was announced last night by the officers of the camp that the members will all gather in the Masonic temple at 7:30 where the street car tickets to the park will be issued to those members who have secured ticketa for the banquet. Owing to the fact that the order for the number of plates to be served at the banquet has already been given, it will be impossible for other members to appear at the last minute and receive attention. This point has been stressed by the officers of Willow camp.

With a splendid program arranged and some excellent speakers secured for the occasion, there is no reason why tonight should not be long remembered by those members of Willow camp who participate.

BIG MEETING IN COLUMBIA

Insurance Men Are To Make Merry at Annual Meeting in Columbia Next Week

A letter has been sent to every agent of the Mutual Benefit Life Insurance Company in South Carolina by M. M. Mattison of this city, general agent of the company, in which Mr. Mattison urges the representatives to attend the meeting to be held in Columbia, beginning Feb. 23. This is an annual meeting and annually it is looked forward to by those connected with this well known insurance company as the most pleasant event of the year.

Mr. Mattison said yesterday that he expected his company to show the best record for this year's work in South Carolina that it had ever presented and that he was proud of the work his agents in all parts of the State have done.

A number of officials of the company from other States will be present at this gathering of the South Carolina workers and numerous interesting addresses are slated.

The headquarters of the convention will be the Jefferson hotel and arrangements have been made by the management of this splendid hostelry to care for the every want of every one of the Mutual Benefit agents.

LAND COMPANY WILL IMPROVE

College Lands Heights Company Is To Place Sewerage Lines On Its Property

The regular meeting of the stockholders and the directors of the College Lands Heights Company was held in the office of T. Allen, attorney at law, yesterday afternoon.

The business for the most part was of a routine nature, although a change of interest in the directorate was made. G. W. Evans, who has been a director of the company, has sold his stock and at yesterday's meeting D. A. Lodbetter was elected to succeed Mr. Evans in this capacity.

The stockholders discussed and considered the matter of laying a sewerage line through their property and this action was finally determined upon, the officers of the company being authorized to proceed with the work.

With the exception of the one change in the directorate, no other officers were changed, all of the old officials being reelected. The stockholders expressed themselves as being well pleased with the manner in which business of the company had been transacted for the past year and said that they had no criticisms to offer.

A lively fight is on between the British war office and the Canadian Militia department. The Canadian minister of militia declares that the British army is armed with an obsolete rifle fitted with an open sight, while the Canadian militia carries a most modern aperture sight.

TELEPHONE WIRES GO UNDER GROUND

Southern Bell Telephone Company Send Men Here to Arrange for Plaicng of Lines

In accordance with a stipulation of the city council's franchise recently granted to the Southern Bell Telephone company, the wires of this company are to go underground before September first. Not caring to avail itself of the entire time granted, the telephone company yesterday sent a trio of its engineers to Anderson to look over the ground and to begin preparations for putting the underground conduits in as soon as possible. The material for the beginning of this work is now on the way to Anderson and it is expected that it will arrive any day. Immediately upon its arrival the work will be begun and the gentlemen in the city yesterday said that it would be hurried along as rapidly as possible, in order that there would no more trouble caused in connection with the traffic than is absolutely necessary.

According to these gentlemen the wires will be put beneath the ground on the following streets. On North Main street from the square to Greenville street; on South Main street from the public square to Morris street, where South Main street narrows down; on West Whitner street from the square to Peoples street, and on East Whitner street to Manning street.

The telephone company expects to invest approximately $100,000 in improvements in Anderson, which shows that the telephone people, as well as other people who have business interests in this city, know that Anderson has a future.

TRAIN SERVICE IS IMPROVED

Southern Railway Agrees to Run Trains Nos. 41 and 42 to Westminister

Anderson people will be much pleased to learn that the Southern Railway has agreed to run trains Nos. 41 and 42 on to Westminister, improving by ninety per cent the facilities for reaching Anderson from that place. The benefit that will result to Westminister people and Anderson people alike from this move, can hardly be calculated, as it will now be possible for the people residing at Westminister to do the best part of their shopping in Anderson, whenever it may be necessary for them to leave their own town.

This matter has been pending for a long time and the announcement that it has at last been settled will be received with pleasure on the part of the entire population of both Anderson and Westminister.

Representative A. Mitchell Palmer will be a candidate in the democratic primaries for governor of Pennsylvania and Justice S. Leslie Mestrezat will make the race for the United States senate.

PROF. HARPER TO LEAD CONFERENCE

To Conduct Co-operative Purchasing Branch at Louisville, Kentucky

Clemson College, Feb. 18.—Prof. J. N. Harper, director of the agricultural department of Clemson College, has accepted an invitation to conduct one of the conferences at the 1914 Conference For Education in the South, to be held in Louisville, Ky., April 7 to 10, inclusive. Prof. Harper will conduct the conference dealing with the cooperative purchase of supplies, organizing those who meet with him into an association for the purchase of farm requirements, and developing this idea through the four days of the convention.

The general subject of the Conference for Education in the South this year is to be, how to organize and build up country life. There will be seven cooperative agricultural associations, demonstrations for boys', girls' and women's clubs, a model country church, and a model country school. The nucleus of the conference on the country-school will be the farm school at Rock Hill.

Farmers' cooperative work is to be the thing chiefly stressed at the conference. In each of the seven agricultural conferences, the farmers who attend will be organized into an association on the first day and the association will be conducted during the four days as if it was intended to be permanent. The aim will be to give the men who attend some real working knowledge of farmers' cooperative associations.

PRESIDENT AND ATTORNEY GENERAL HAVE INTERVIEW

(By Associated Press.)

Washington, Feb. 18.—President Wilson and Attorney General McReynolds spent two hours tonight at the White House examining in detail various bills pending before Congress dealing with the trust problem. It was the first opportunity the President has had for long and detailed discussion on the subject with the chief legal officer of the government, though they have been in brief conference frequently before.

No announcements were made afterward, the attorney general expressing the opinion that the whole question would have to be worked out gradually, but an idea of the principles the administration desires embodied in the proposed legislation was gained from an authoritative quarter.

Some of the proposals in the tentative measures on which hearings are being held, will be entirely revamped and others will be dropped, so as to make the legal machinery carrying out the proposed reforms as simple as possible.

What the administration is desirous of doing is to add such legislation as will help to prevent monopoly, but will in no way increase the already debatable area around the anti-trust

Further conferences between the President and the attorney general are likely and the ideas of both probably will be transmitted informally in the White House conference with members of the congressional committees having the legislation in charge. The emphasis at present is on the fact that the pending measures are purely tentative and launched chiefly for purposes of discussion.

AFGHANISTAN DETERMINED TO EQUIP OWN ARMY

(By Associated Press)

London, Feb. 18.—Perry Crawford of San Jose, Cala., and Miss Irma Eichokko, of Palo Alto, today were married in Regent square church. Crawford is building a power house for the Emir of Afghanistan, the purpose of which is to operate a factory for the manufacture of arms and clothing for the Afghan army. The work is being done so secretly that Mr. Crawford will not be permitted to take his bride beyond the Afghan border, where she will be compelled to wait for a year until the power house has been completed. Mr. Crawford

Afghanistan is determined to equip his own army without foreign aid and to cut loose from both Russia and England.

AMERICAN UNDESIRABLE ALIEN?

(By Associated Press)

London, Feb. 18.—Henry W. Thornton, the new American general manager of the Great Eastern Railway company of England is "an undesirable alien," declared Will Crooks, labor member for Woolwich, today in the House of Commons.

The members of the labor party had been greatly incensed by a demand put forward by the unionists for legislation to prevent "alien deportation" as the labor leaders deported from South Africa after the recent general strike from being "dumped" on England.

A storm of protest filled the house in the midst of which the burly member from Woolwich shouted:

"What shock Thornton the new manager of the great Eastern? Isn't he an undesirable alien?"

PROHIBIT USE OF FOOD FISH FOR FERTILIZER

(By Associated Press)

Washington, Feb. 18.—State fishery officials, eastern fish dealers and representatives of fish and game organizations were before the house interstate commerce committee today to discuss the Lafferman bill to prohibit the use of food fish in the manufacture of fertilizer for interstate commerce. Secretary Redfield, of the department of commerce, called back to the office before he could finally complete his approval of the measure.

Six of the witnesses favored the Lafferman bill, but Representative Jones, of Virginia, however, explained that it was unconstitutional.

Niter Falls, N. Y., plumbers get $4.50 a day.

DISCUSSION IS WARM IN SENATE

(Continued from first page.)

fect right to permit our own ships engaged in our domestic commerce to go through free of tolls if we saw fit to do so. But England claims that this must not be done without her consent, though her ships cannot engage in our domestic commerce, and she has not directly or indirectly invested a dollar in the construction of the canal."

Concluding after frequent interruptions, the Kansas senator declared that "the fight to save the grip of the trans-continental railroads cannot be hidden behind our relations to foreign countries or the skirts of the President of the United States.

Senator Owen of Oklahoma, was the first to rise to the President's defense. He asserted that the conscience of no democrat was bound by the Baltimore platform on the tolls question because it did not represent the sober judgment of the party on that point.

Senator Chamberlain of Oregon, who voiced the first formal opposition to the President within the party ranks, said:

"It is a matter of history that the railways of this country, particularly the trans-continental railways, prevented the construction of the Panama Canal for years, and when the question of granting coastwise vessels freedom from tolls was under discussion here in the Senate, those of us who knew the lobbyists of the railway companies could look up in any of the galleries would recognize the faces of Mr. Schwerin and other men who were lobbying for the railway companies here and opposing this part of the Panama Canal act. Having failed to defeat the building of the canal, they now invade the field of diplomacy."

"Where are we going to stop? Are we going to listen to an insistence which may be made hereafter by some foreign power against railway-owned ships passing through the canal? That violates the treaty as much as the free tolls provision. Are we going to dismantle our forts? Are we going to say that our naval vessels must pay tolls?"

Senator McCumber, republican, replied briefly in the President's defense, declaring he did not join with Senator Bristow in charging that the President was the "tool of the trans-continental railroads."

Senator Shively, acting chairman of the foreign relations' committee, ended the discussion with the declaration that there were two sides to the question which Congress would settle and that the President needed no defense.

"The President's position," said he, "is well understood by the country, and the difficulties of the situation are likewise understood by the country."

LUTHERAN LAYMEN IN SESSION.

Columbia, S. C., Feb. 18.—The second day's session of the convention of the Lutheran laymen missionary movement were devoted to developing the importance of the spiritual life in the expansion of the church.

Among the speakers were the Rev. Charles L. Fry of Philadelphia, Dr. A. L. Ramer of Allentown, Pa., and J. Campbell White of New York, general secretary of the laymen's missionary movement.

The sessions tomorrow will deal with foreign missions with especial consideration of Japan. The convention will close tomorrow night.

PREACHER INDICTED

(By Associated Press.)

Roanoke, Va., Feb. 18.—B. F. Landis of Price's Fork, Montgomery county, Va., formerly a Lutheran minister and educator of local prominence, was indicted here today by a grand jury in the federal district court on a charge of violating the Mann white slave act. It is charged in the indictment that on Sept. 1 he caused to be transported from [illegible] to Bluefield, Va., for immoral purposes, Mrs. Lizzie Jones, wife of a farmer living near Price's Fork section.

NO CHANGES THIS SEASON.

(By Associated Press.)

New York, Feb. 18.—According to a statement issued today by Edward Barrow, president of the International League, there will be no changes in either circuit or schedule this season, Mr. Barrow said:

"This applies in particular to the Jersey City and Newark clubs, recently referred to as about to be shifted to Brooklyn."

LOSES LIFE TO SAVE $15.

(By Associated Press.)

New York, Feb. 18.—William Lehman, night watchman of a boat yard in [illegible] today gave his life in a vain effort to save $15 belonging to his employers. Lehman was so badly beaten by burglars he surprised while robbing the office safe that he died.

WOMAN SUFFRAGE BILL FAILS FLAT IN MARYLAND.

(By Associated Press.)

Annapolis, Md., Feb. 18.—The woman suffrage bill today was killed in the house of delegates by a vote of 59 to 41. The measure provided for the submission of a constitutional amendment to give women the right to vote. It was universally reported.

FEDERAL LEAGUE OFF THE SOUTHERN PINES.

(By Associated Press.)

Federal League baseball clubs will have their training camps in the South this year, for the spring training. Garry Herrmann, president of the Cincinnati Reds, and Manager Stallings, of the Boston Braves, will be in charge of the camp of the Reds, while Manager Mack, of the Athletics, will have charge of the camp of the Philadelphia team. Mack has not announced the location of his camp, but Herrmann and Stallings have decided to go to Macon, Ga., where they will have the use of the baseball park and the training quarters of the Macon team of the Southern league. Herrmann and Stallings will have about 75 players in the squad.
