#### Greenwood Fans Met Last Night

Greenwood's baseball fans are evidently determined that they must have baseball at any hazard, even if they have to play against themselves. They have organized an association to hold all of the stock of the Greenwood club and last night held a meeting at 8 o'clock in the city hall to select officers for the organization and prepare to play ball. The other towns in the proposed trolley league do not seem to be enthusiastic in any sense of the word over baseball and in Anderson nothing is heard about the proposed organization.

Special Correspondence.  
Columbia, Feb. 20.—The Zeigler hunter's license bill was killed to-night after a long debate which took up the morning session and part of the night. This bill was used as a block for the two-cent rate bill which seems doomed.

The attaches of the State tonight presented Lieut. Governor Charles A. Smith's gold-headed cane.

On motion of Senator Carlisle, the Senate adopted the majority report of the committee on iron contracts, to which was referred the bill to receive the railroads to meet a union station in Spartanburg. By this Spartanburg remains in the measure and Sumter is eliminated.

### REJOICING OVER THE NEW CIRCUIT

#### Anderson People are Well Pleased Over Formation of Another Judicial District

Expressions heard on every side yesterday indicated that Anderson people were well pleased over the fact that there is at least to be a change for the better in the court systems of this circuit and a new circuit formed for Anderson. The Earle bill made this possible, going through the General Assembly without any protest from any side and hereafter it may be possible for the court dockets to be kept in some reasonable shape.

All of those who were familiar with conditions lent their support to the bill which provides for the formation of a new circuit. Conditions in this county have been deplorable, yet it was no one's fault and no action, except that just taken, could remedy matters.

The old tenth circuit is divided by leaving Anderson and Oconee counties in this circuit and placing Greenville and Pickens counties in the new circuit, which is to be known as the thirteenth circuit. It is understood that Solicitor Proctor of Bonham goes with the new circuit while Governor Eiseae will appoint a solicitor for the tenth circuit. This appointment will be good for three years, since that is the time until the next election for this office. It is generally believed in and around Anderson that Kurtz P. Smith, one of the best known attorneys of this section, will be selected by the chief executive for this position and friends of Mr. Smith are using their influence to try to get the place, for which he is well prepared to give successful service.

The following is the way in which the courts will be held here:

The court of general sessions at Anderson for the county of Anderson beginning on the first Monday in February; the second Monday in May; the first Monday in September; and the third Monday in November; and the court of common pleas at the same place beginning on the second Monday in June; the first Monday in October and the first Monday in December.

Senator T. J. McMillan of Pickens county was yesterday unanimously elected by the joint assembly as the new judge for the thirtieth circuit, Judge Prince remaining in the tenth. This will also meet with general approval and on the whole, everybody is satisfied.

#### AMBASSADOR IS NOT UNDER LAW

Of His State at Home Declares The Supreme Court of United States

New York, Feb. 20.—The appellate division of the supreme court today declared that an American ambassador to a foreign power is above the law of his State at home and on this ground refused to compel James W. Gerard, ambassador to Germany, to return from his post and decide the appeal in a case which came before him when he was a justice of the supreme court. The parties to the litigation argued that the code of civil procedure declared that their case on appeal must be settled by the justice before whom it was tried, and an order to that effect was obtained directed to Ambassador Gerard.

The court decided that it had power to so arrange that the case may be closed in some other way without injuring the litigation.
