

A Picture for You, Mr. Husband

This is a pleasant picture. It contains a pleasant thought. How many times during the day does your mind revert for an instant to your home? And what can you picture your wife doing? Working, reading—but really waiting for you to come home and relieve the monotony of the long day.

The Autopiano

Wouldn't you yourself find great pleasure in it? It is one of the easiest to play things in all the world to possess. We have made it easy! Purchase now and pay for it in small amounts, arranged to suit your convenience. The Autopiano has the playing capabilities of the greatest of pianists. Its music is your music. Perfect response to the player's wish has made it the most satisfying of all player-pianos.

The Frank Case.

Atlanta, Ga., Feb. 25.—The Frank case is "in fashion" again in Atlanta. New evidence, new theories, new motions, new angles are developing daily as rapidly as if Frank had never been tried. And his lawyers are not by any means the only persons who have been searching the records for obscure criminal history for the purpose of showing other things bearing on the case.

around the courthouse by the surging crowds outside the open windows when the jury's verdict was being made up and rendered. The principal new development in the case during the past twenty-four hours is the verdict of twelve months found against Jim Conley as accessory after the fact. It means that in the event of a new trial, or in case the coming Brunson investigation shows there are up from an entirely new light, Conley will be safe and fast and where he can be produced at any time. He will serve his sentence on the Fulton county chain gang and will be pardoned and returned with unusual vigilance and care.

Asylum Report is Read to Assembly

(Continued From Page One.)

Hospital for the Insane, and the superintendent thereof, who shall be a physician, shall be appointed by the governor by and with the advice and consent of the senate. All other physicians, officers and employees of the hospital shall be appointed by the regents unless otherwise ordered by the general assembly.

"Hence the superintendent has no voice in the selection or dismissal of any subordinate. He becomes purely an advisory officer only when advice is sought and has no effective control or authority resulting in such a condition that work and labor of a unified staff is impossible.

"The superintendent to enforce duty and discipline should also have the power and authority to suspend any member of his staff for just cause, subject to appeal to the Board of Regents, where such suspended officer should have available all the rights of the trial guaranteed to persons accused in the courts of this state."

"The efficiency of the management of the asylum, especially in the negro wards was severely criticised. The report said that from the examination presented it seemed that no examination was made of negro female patients at the asylum to determine the nature of their insanity. The staff officers in charge of the two negro wards were blamed for this.

"The appointment of a business manager to relieve the superintendent of the business details of the management of the asylum was recommended by the committee. The necessity for reports in writing on the condition of patients at the hospital by staff officers was stressed in the committee's report.

"The recommendation of the investigating committee are contained in the following concurrent resolution passed by the House: 'Be it resolved by the House of Representatives, the Senate concurring, that the following rules be, and the same hereby are adopted for the government and guidance of the officers of the State Hospital for the Insane:'

"1. The medical staff officers of the State Hospital for the Insane shall be appointed by the superintendent by and with the advice and consent of the Board of Regents, and shall be subject to suspension by the superintendent with the right of appeal to the Board of Regents. Each staff officer shall have the right to be heard in person or by counsel or both after due notice in writing of the charges upon which the hearing is to be had.

Prominent Farmer Has Disappeared

(Continued From Page 1)

ing to Anderson to pay his taxes. He mounted a bicycle and rode off from that moment no one has been found who remembers seeing him. It is said that Mr. Taylor had driven his team to Mr. Watson's to get a load of corn when he returned from Anderson and he told Mr. Watson that as soon as he could ride the bicycle into this city and pay his taxes he would return to Deary's station, fill up his wagon and return to his home that night.

Members of his family are agonized over his departure and Mrs. Taylor is said to be almost frantic from anxiety. No member of the family has been able to sleep since Monday night, when it was expected that he would return home and when he did not they began to grow uneasy, each passing minute making the suspense worse. It is understood that his family and intimate friends ridicule the suggestion that he may have voluntarily absented himself and say that he has undoubtedly met with foul play.

So far as is known no appeal has been made to the county officials for aid in locating the missing man, but it is presumed that this step will be taken today and that the sheriff will be asked to assist in the search which members of his family are now arranging for.

People who live in Taylor's neighborhood say that they can conceive of no reason why he should care to leave and they feel, while to the belief that there may be something wrong. Taylor is a son of J. M. Taylor, who lives in the Long Branch section of the county, near Shirley's store.

By reason of the fact that Mr. Baker has many friends in Anderson the following announcement which has just been made by the Southern Railway will be of interest locally: 'Effective March 1, Mr. W. J. Sheely has been appointed field agent of the Department of Farm Improvement Work at Greenville, S. C. to succeed Mr. W. H. Baker, resigned. Mr. Sheely is a practical farmer, well qualified to cooperate with farmers in South Carolina for better agricultural results. He is a native of that state and a graduate of Clemson and has had several years' experience in extension work and as a teacher in agricultural schools.'

VERY FINE ALFALFA. Heath Springs, Feb. 25.—Dr. W. S. Moore, mayor of Heath Springs, has two acres of alfalfa which was produced by Messrs. Williams and Elliott, demonstration agents, when they were here recently to be the best they had seen in the triangle section of the state. Dr. Moore is very much interested in farming and has secured this lot in alfalfa to demonstrate to the farmers of the community what can be done along this line. He is also building a dam for a fish pond just below his residence, and will soon install a dam to supply water in the reservoir, which he will raise over on his premises.

CAUGHT IN NORTH CAROLINA. Lexington, Feb. 25.—Sheriff Miller left last night for Gastonia, N. C., for Oscar Stickland and Harry Booker, two white men wanted for extortion for the robbery of the jewelry store of Lewis Hall last week. The men were arrested in the North Carolina town Saturday at the request of Sheriff Miller, who had traced their flight thither.

CHILD BURNS TO DEATH. Easley, Feb. 25.—At the Aljee cotton mill yesterday afternoon an eight-months-old baby, belonging to Mr. and Mrs. Jack King, was burned to death. The mother of the child placed the little one in a padded box and drew this box near the fire. Just over this box was a large chair on which was hung several pieces of clothing. Mrs. King left the house for a few moments and upon entering the room she was stifled with smoke. She screamed for help and Mrs. King, who was in the room and being told of the baby's presence in the room, dropped the box on the floor, and the child was burned to death. The discovery of the fire, however, was made too late for the body of the little one to be saved. It is presumed that a spark from the fire caught the clothes on the chair and that these dropped down into the box, thus quickly igniting the soft bundle in which the infant was snugly tucked.

Mexican Situation is Becoming Acute

(Continued From Page One.)

casions has benefited by his activities for protection of foreigners. Should Carranza's influence with Villa be unavailing in the present instance, it is admitted by many officials, the American government will regard the problem in northern Mexico as having developed a much more serious aspect than before.

Another Aspect of Situation. Another aspect of the situation engaging attention here is the sending of guards of foreign nations. The possibility of complications over the presence in case of overt acts or disturbances in Mexico City is being taken into consideration. While the suggestion of sending a guard for the American embassy was rejected as unnecessary two weeks ago, it now is being discussed with seriousness. Secretary Bryan took the senate committee into his confidence on the Mexican situation in general, and the Benton affair in particular, and also discussed the foreign relations of the nation as pertaining to other countries. He told the committee that the position of the United States in this regard was little improved, averring that ratification of the arbitration treaties last week had been ineffective in establishing confidence among the powers.

Secretary Bryan was not at all reserved in discussing the facts about Mexican conditions. He answered to the best of his ability, based on the government's information, all questions relating to the physical and field strength of the contending Mexican forces. Many of the senators displayed great interest in the character of the rebel leaders and the strength of the constitutional movement. Both the secretary and members of the committee stated after the conference that facts and not policies were discussed.

It was urged by Mr. Bryan that no action be taken in the senate with regard to the Benton incident until all the facts had been prepared by the government, and the senators agreed that agitation of the matter would be withheld until the investigation under way had been completed. It was also agreed that further action by the senate would be necessary at this time with regard to seeking information relating to Mexico.

REBELS BEGIN ATTACK ON PORT OF NAZARET. Mexico City, Feb. 25.—Gen. Angeles, at the head of a force of rebels, has begun an attack on the Pacific port of Nazaret in the state of Sinaloa, and has begun to join in the movement of the federal gunboat Tampico, whose commander has turned to the rebel cause, according to information received today by the Mexican government.

TEXAS RANCHMEN EXITED OVER VERGARA'S DEATH. Laredo, Texas, Feb. 25.—The ranching country along this part of the Texas border tonight was waiting in suppressed excitement for details of the hanging of Clemente Vergara, an American citizen and Texas ranchman, by Mexican federalists, which was officially confirmed in messages to Consul Garrett at Nuevo Laredo today.

Consul Garrett immediately left for Hidalgo, near where Vergara's body was said to have been left at the place of execution, to arrange for its proper disposition and to begin an investigation of the case. Late tonight no word had come from him that would explain the reason of the long interval between Vergara's death and the time the news became public, or the contradictory attitude of the Mexican federal authorities who promised his release and those who executed his hanging.

The federalists at Nuevo Laredo had no comment to make today, nor would they admit that Vergara had been executed by federalists. It was pointed out by those in touch with the border situation, however, that this incident is in control in the territory where Vergara met his death and that he frequently expressed complaints, which are said to have finally led to his death, had been that federalists were stealing his horses.

DISCUSS RURAL SCHOOLS

(By Associated Press)

Richmond, Va., Feb. 25.—The department of superintendents, national education association, devoted two sessions today to the discussion of questions affecting rural schools. The re-organization of normal schools, secondary and agricultural education were the program topics on which papers were read before various groups affiliated with the national body. A number of reports were submitted by standing committees.

Result in Death of Fireman and Injuries to Others. Lynchburg, Va., Feb. 25.—(Associated Press.)—Understanding of a meat order is said to be the cause of a head-on collision between two freight trains near Prospect, forty miles east of Lynchburg on the Norfolk and Western Railway early today, which resulted in the death of fireman Henry Cooper, of Roanoke. E. E. Overstrom, and R. E. Mays, brakeman and fireman, were injured, but not seriously. The trains were not running rapidly at the time of the impact.

APPOINTED FIELD AGENT. Effective March 1, Mr. W. J. Sheely has been appointed field agent of the department of farm improvement work at Greenville, S. C. to succeed Mr. W. H. Baker, resigned. Mr. Sheely is particularly well qualified to cooperate with farmers in South Carolina for better agricultural results. He is a native of that state and a graduate of Clemson College and has had several years' experience in extension work and as a teacher in agricultural schools.

COURSE IN FINE SHAPE. Los Angeles, Cal., Feb. 25.—Sixteen cars today were given their last practice spins for the world's Vanderbilt cup race over the Santa Monica racing course. Laps were made today at the speed of 80 to 100 miles an hour. The course was not hurt by the storm of last week and today it was pronounced to be in shape for record speed.

CALL ELECTED STATE OFFICIAL. Will Succeed Treasurer John J. Kennedy, Who Committed Suicide. Albany, N. Y., Feb. 25.—(Associated Press.)—Call of Syracuse today was elected state treasurer at a joint session of the legislature to succeed the late John J. Kennedy, who killed himself in Buffalo a week ago. Call was supported by a combination of progressives and democrats.

Ask Reopening. Washington, Feb. 25.—Assuming that trunk line railroad are arranging to immediately re-open through routes with the Union Railroad company, the Newburg and South Shore Railway company and the Lake Terminal Railroad Company, subsidiaries of the United States Steel Corporation, attorneys for the corporation today asked the interstate commerce commission to reopen the matter of allowances to short lines of railroads serving industries.

The Union Railroad controlled by the Carnegie Steel Company, operates more than 21 miles of track about Pittsburgh. The Newburg and South Shore operates nine miles of road in Cleveland and Newburg, Ohio, connecting Newburg steel works, Young's Furnace and Central works with diverging lines; and the Lake Terminal railroad, owned by the Federal Steel company, performs systematic service between various railroads entering Lorain and South Lorain, Ohio; operating more than 62 miles of track.

The brief filed with the commission contends that in the transportation of iron and steel pigments and of raw materials, including coke and coal it has been the general custom from the beginning of the industry for the shippers to load and unload the freight cars where they are to be loaded or unloaded to the main line and that freight rates on these commodities have been continuously constructed upon the basis of the cost of such services.

The petitioners contend that the commission should not have found that the complainant railroads are want facilities, and they argue that the commission is not justified in the conclusion that service performed for industries adjacent to complainant's tracks give such industries an obvious advantage over a shipper who delivers and accepts his freight on a public steam track.

Washington, Feb. 25.—Attorney General Cummings today asked the supreme court to postpone argument of the so-called tap line cases until March 15 or April 5.

SOUTHERN RAILWAY

Table with columns: Premier Carrier of the South, IN CONNECTION WITH BLUE RIDGE RAILWAY, Schedule Effective Jan. 25, 1914, N.
