...ELECTRIC THEATRE...
 "Mutual Movies Make Time Fly"

There are plenty of you young men who don't need to be told that this is the Young Men's Clothing Store of the town—you have been here and know the facts. For those Young Men who are not yet familiar with our merchandise and our service, there is a treat ahead, and to them we extend a special invitation to put us "through our paces," as the horseman would say, and find out at first hand that we daily live up to our reputation for providing superior clothes at prices ranging from \$10.00 to \$25.00.

We feature Alfred Benjamin-Washington Co., and "Also" Clothes because the styles are correct and the latest and the garments are made in accordance with the highest standards of tailoring art—wonderfully good clothes for the money—and they will wear most satisfactory. Come in and make your selection of a new Spring Suit at once while assortments are full and at their best.

We are also showing the Spring Styles in
Stetson Hats
Emery Shirts
Interwoven Hosiery

Parker & Bolt

4 Big Reels—10c.
 THE MAN THAT PUT THE MOVIES IN THE THEATRE IN MOVIES.

Teachers Gather Next Saturday.
 The meeting of the Anderson county school teachers next Saturday will draw a big crowd of instructors from all parts of the county because of the fact that this meeting will be held only five days before the state teachers' association convenes at Spartanburg. At this meeting there will be many plans to discuss and arrangements will be made for those who are to take the trip to the "City of Success." Aside from the features on the regular program, the consideration of the outing to Spartanburg will be sufficient to attract a number of teachers.

Too Hot For Anderson Men
 Chief Jackson of the fire department and W. P. Drennan, county detective for Anderson county, returned yesterday from Columbia, where they had been to carry several lunatics to the asylum. The Anderson men said that they reached Columbia just at the time the battle opened in the general assembly between the officials who had the altercation Wednesday night and they immediately concluded that Columbia was no place for them. They began the trip home just as soon as they succeeded in getting rid of their undesirable charges.

The Fall Of Honea Path.
 Five young ladies representing the Anderson high school will embark today for Honea Path where they will proceed this afternoon to wrestle with the basketball team of the Honea Path high school. The Anderson five is in receipt of information to the effect that the young ladies comprising the Honea Path team have improved wonderfully since the first set-to in which Anderson came off victorious and therefore the local team is by no means confident of victory as at first. However, it is expected that the five representing "My Town" will at least put up a first-class exhibition. Several of the students of the high school will accompany the local team on the trip.

Local Camp Is Preparing.
 The local Sons of Confederate veterans are now making plans for taking care of the large number of visiting sons expected to be here for the Confederate re-union which takes place during the latter part of May. A meeting of Camp W. W. Humphreys will be held within the next few days at which time plans will be made and steps taken to get everything in first-class shape for the convention. It is urged that every member of the local camp attend the meeting as it will be important in more than one respect.

Added Attraction Is Here For Today.
 The "Mutual Girl" is at the Electric theatre again today and that means that this popular place will be crowded throughout the day. Manager McCullough said yesterday that last week he could not accommodate all the people coming to see this feature and that he would therefore show all day. The theatre is open at 11 this morning and will continue throughout the day, closing at 11 tonight. This should give everyone in Anderson an opportunity to see this extra added feature. The story of the mutual girl, going to New York from her country home, and the sights she sees in the metropolis, is most interesting and the theater-goers are well pleased with the first installments of it that have been shown here.

Quartette Is Coming Monday.
 These people in Anderson who love good music should feel that they are fortunate. There are few towns in the state of Anderson's size able to secure such an attraction as Reed Miller's quartette, which comes to this city Monday night. The concert will take place in Anderson college auditorium and there is no doubt but that every minute of the evening will be delightful. Mr. and Mrs. Miller, Miss Murray and Frank Croxton compose the quartette and the fact that Anderson people are familiar with three of these singers will within itself be sufficient to fill the large auditorium. Miss Murray is the only singer of the four who has not yet appeared here and competent critics declare that she is fully as splendid as any of the other three. The success of the concert Monday night is already assured.

Union Will Meet Tuesday.
 Notice was issued yesterday by the secretary of the Anderson county farmers' union to the effect that the regular monthly meeting will be held next Tuesday in the court house. The secretary is urging that every member attend and says there is considerable business to be transacted.

State Aids To Education.
 Of great assistance to the entertainment committee in charge of the Anderson county fair is the \$1,500 appropriation from the general assembly. This appropriation is made each year and without it it would be a very difficult matter for any town

in the state to take care of the veterans at their annual outing. With this sum to assist, Anderson will care for the veterans in right royal fashion and will endeavor to show them as many attentions as any town has ever done before.

First Shipment Arrived Yesterday.
 C. D. Chamberlaine yesterday received the blooded stock he ordered through J. T. Watt, who is out in search for improved live stock for the farmers of Anderson, Greenville and Spartanburg counties. The cattle purchased by Mr. Watt and received here yesterday were from Maryland and made a fine appearance. Many were the comments passed by the admiring throng witnessing the unloading and it was the general opinion that if the remainder of the shipments come up to this one there will be no complaint from any one.

Business Deal Of Yesterday.
 An interesting business deal of yesterday, taking place in Anderson, was the purchase of the E. O. Burress stock and the bankrupt store of F. F. Stenstine by A. Samuels. The two businesses are to be consolidated by Mr. Samuels and he will conduct a first-class and up-to-date store in the quarters at present occupied by the Burress Co. Mr. Samuels has been in Anderson for three years and during that time he has built up a splendid reputation for square dealing. He will probably do equally as well in his new venture as he has done during his three years here.

Weather For The Month.
 The meteorological summary for the month of February shows the mean temperature to have been 43 degrees. The highest temperature in the state was recorded during February as 75, on the fourth, and the lowest was 21, on the twenty-fifth. On the seventeenth the greatest daily range occurred, the mercury changing 32 degrees on that date. The least daily range was 6, on the tenth of the month.

The normal temperature for February in this state is 47.8 and this year the average was slightly colder, on an average than normal. The maximum temperature for the month for the month for the past twenty-seven years is 82, while the minimum for the same period is 2 degrees.

Precipitation last month totalled 4.45. Snowfall amounted to 11.7. The greatest precipitation for the month during any one day was .96 on the twenty-fifth to twenty-sixth. Normal for the month is 4.59. A deficiency of .14 of an inch shown in precipitation.

Narrow Escape In The Wind Storm.
 Mr. O. M. Heard had a narrow escape from being hurt yesterday. When the billboard on North Main street was blown over, he was directly opposite it and some premonition of danger caused him to walk in the street, or he would have been hurt. A little negro boy passing at the time was saved only by his ability to get out of the way in very much of a hurry.

Post D. T. F. A. To Meet Tonight.
 The annual meeting of Post D of the Travellers Protective Association will be held tonight in the headquarters over the station of the traction company. All visiting T. P. A. in the city are invited. The election of officers and directors and delegates to the state convention in Columbia will be carried into. The president of the post is B. Ban Allen and the secretary is Reaster V. Tribble, who has secured more new members than any other man in the state this year.

ELECTRICITY ON THE FARM
 Its Use Is Being Encouraged by the Tallulah Development.
 Atlanta, March 6.—The use of electricity on the farm is no longer restricted to large plantations since the mysterious power was used at the door of everybody by the building of the huge lower lines from Tallulah, according to records being compiled for the Georgia territory.
 Electricity is becoming just as essential on the small farm as on the large. Even the so-called "chicken farm" in scores of instances is installing wiring. During the short winter days a great deal of the work to be done about a chicken plant has to be done during the hours of darkness, when some convenient and safe form of artificial lighting is absolutely necessary. It has been said upon good authority that electric lamps have a stimulating effect upon the laying hens.

To Fix Standards
 (By Associated Press).
 Washington, March 6.—As the result of a conference here between representatives of the rosin and turpentine and allied industries, and bureau of chemists officials, a committee was named to consider ways and means for fixing a uniform standard throughout the country for grading of these products.

ELECTRIC CITY SPARKLETS
 Items of Interest and Personal Mention Caught Over the Wireless on the Streets of Anderson

Young Cyclone Visited Anderson.
 Anderson had the pleasure of entertaining a young cyclone yesterday afternoon about 5 o'clock. The wind blew at a terrific rate and for a time many feared that some serious damage might be done. However, so far as could be learned last night the city suffered no loss except for the sign board next to the Central Presbyterian church on Main street. Over half of this board was blown down. Considerable speculation was heard as to what caused the wind, one man advancing the opinion that it had some connection with the earthquake of Thursday, but the most generally accepted opinion was that the explanation lay in the fact that the members of the general assembly were leaving Columbia and that this forced the blasts of air all over the state.

Kentucky Family Arrived Yesterday.
 Mrs. Eucelous Adams and four children arrived in Anderson yesterday morning to make their home here. Mr. Adams is foreman of The Intelligencer office and has been in Anderson for several months, his family residing in Madisonville, Ky., until he could make arrangements for their locating here. Mrs. Adams was accompanied to Anderson by her mother, Mrs. N. E. Combs, who will make her home here also. For the present they are located at the Bellevue hotel, but later will begin housekeeping.

Helms Mentions Several of the prominent business men in the city, in talking to a reporter for The Intelligencer yesterday, said that they thought it would be a splendid idea to have a home-coming week for Anderson some time this spring. They seemed to think that the custom is a good one and that it should be made an annual event. If properly managed, these home-coming weeks are a great success and there is no doubt but that Anderson would exert every effort to make the week a success here if tried this year. It is possible that some plans for such an event may materialize.

WE BEG TO ANNOUNCE
 that we have placed on sale the most up-to-date line of Nettleton Oxfords for men ever shown here.
 The styles are new, the quality is good and every pair is warranted—
\$6 and \$6.50
 Other grades, too, in styles that you will be surprised to see—
\$3 to \$5.
