Jewelry Men Here Yesterday

Street Car Struck Mule

Readers of The Intelligencer would hardly be surprised to learn that a mule had been run over by a street car, but for a street car to be run over by a mule is something out of the ordinary to say the least. Joe Allen, a negro man was driving along South Main street yesterday morning about 9.10 o'clock and a car driven by Motorman Busby came by. The front of the car had already passed, when either by some foolish notion of the driver or the mule himself, the mule ran into the back step of the car. Little damage was done to either the mule or strange to say the car, but the front wheels of the buggy were badly damaged, although the occupant of the buggy suffered nothing but a severe fright. Passersby who witnessed the happening say that the motorman was clearly not to blame.

Buggy Stole the Man's Hat

It is easily possible for one man to steal another man's hat but it isn't often that one hears of a buggy appropriating an inoffensive citizen's headgear. However, that is just exactly what happened yesterday morning. During the early hours of the morning the wind was blowing across the plaza at a mule a minute past, when a man's hat flew from his head, striking against a buggy wheel. In some manner the hat lodged between the spokes and around and around it went with the wheel. When last seen the frantic citizen was pursuing the buggy at a rapid rate, imploring the driver to stop and let him rescue his derby.

Mexican Conditions Described by Visitor

Richard A. Ford, a well known attorney of Washington, was in Anderson yesterday, the guest of Capt. H. H. Watkins. Mr. Ford has been spending some time in Mexico and talked most interestingly of what had been going on in that troublesome country. He described conditions there that were almost unbelievable and entertained all those who heard him with some very vivid accounts of the happenings he had observed.

White Way on Benson Street

The merchants doing business on West Benson street are very proud of the fine appearance made by that street now after dark when the lights are in use. Several merchants doing business in that locality of the city

have recently installed large gas lamps in front of their stores and they are now very fond of calling it "Benson street's white way." As a matter of fact the new lights do add much to the appearance of that portion of the city. Among those progressive merchants who have recently taken this step are C. N. Sutherland, Anderson Bakery and Anderson Tailoring Company.

PARK COMMISSION HELD FINAL MEETING

Arrangements are Perfected for Wind-Up of Its Affairs

(Special to The Intelligencer) Columbia, March 11.—After three years service the State Park Commission held its final meeting today. Those attending were: J. W. Babcock, Columbia; O. L. Johnson, Spartanburg; James M. Payne, Anderson; Robert Wilson, Jr., Charleston at Elbert H. Aull, Newberry. While the terms of the commissioners do not expire until April 4, the board will never again sit in a regular session. It wound up its affairs and turned over all supplies to the sinking fund commission today. There was some doubt early in the day as to whether the supplies would be turned over to the sinking fund commission or to the board of regents of the state hospital for the insane who meet Thursday. Dr. Babcock and Col. Aull called at the office of the Comptroller General prior to the meeting, where, it is understood, arrangements were made for the final winding up of the affairs of the state park commission. Equipment which was today placed in the hands of the state sinking fund commission included material valued at approximately \$3,000. No monies were turned over, it is understood, as the entire fund (with the exception of an amount sufficient to pay off the commissioners who receive \$5 for each meeting) had been expended. If there is a balance it will be small, according to Col. Aull.
