

**A HOME OF YOUR OWN IS A HOME INDEED**

This is great weather for North Anderson

FOR HOMES, SEE JOHN LINLEY AT FARMER & LINLEY'S

We have had an immense amount of work to do, work calling for good weather.

Now, just a few more days like this and we'll have a hundred beautiful, new lots for sale.

(See Cabin ad in afternoon paper)

**ELECTRIC CITY SPARKLETS**

Items of Interest and Personal Mention Caught Over the Wireless on the Streets of Anderson

**Back From An Inspection Tour.**  
T. B. Curtis, the well known commercial agent of the Charleston & Western Carolina railway with offices in Atlanta returned Tuesday from an inspection tour over the lines of the C. & W. C. Mr. Curtis accompanied E. Williams, general freight agent of the road and E. S. McNeill, train master, and the party made the trip in Mr. Williams' private car. Mr. Curtis says that the trip was enjoyable and that they were all pleased with conditions they found at various points on the road.

**New Company Making Plans.**  
H. C. Futch of Atlanta, manager of the Pyrene Fire Extinguisher Co. spent yesterday in Anderson conferring with officers of the newly organized company of South Carolina, with general headquarters in Anderson. Mr. Futch seemed to be very much impressed with the plans of the local people and predicted a great success for the Anderson firm. He leaves this morning for Atlanta and will be accompanied by H. B. Harper, who will be traveling representative of the Pyrene Company of South Carolina. Mr. Harper goes to Atlanta to learn a few of the "ins" and "outs" of the business and will doubtless gain much valuable knowledge from the trip.

**Curious Crowd On New Bridge.**  
The curious of the city, that great throng of people unwilling to let anything go without having a hand in the doing, persist in crowding around the workmen where the new concrete bridge is being constructed across Main street. All day long a great crowd of people may be seen at the bridge and it is the consensus of opinion that some one will be seriously injured before the bridge is completed. The gentlemen in charge of the work said yesterday that he had a number of "danger" signs up on all sides but that this had no effect whatever. He also anticipated some one being badly hurt before the bridge is finished.

**Pretty Event Of Last Night.**  
The informal reception tendered by Rev. and Mrs. D. Witherspoon Dodge, at their home in North Anderson last night was a pretty event of the week and one of the most interesting affairs held here in some time. A large number of friends of these popular people gathered for the occasion and they made merry from 8 until 11 o'clock.

**Honor Paid Miss Garlington.**  
Miss Maggie Garlington, supervisor of rural schools for Anderson county, was honored at the state association of teachers, held in Spartanburg last week, by being elected treasurer of the association of Elementary schools. This is an association working in conjunction with the state teachers' association and the meeting was held at the same time. This was quite a tribute to Miss Garlington's ability, and an honor of which she should be proud. Doubtless her election was in some measure due to the splendid work she has done in this county. Miss Garlington has organized 47 rural school improvement associations within the last four months.

**Golfers Went To Greenville.**  
Several Anderson golfers accepted the invitation of the Sans Souci club of Greenville yesterday and went to the city made famous by the Paris Mountain water, for the games to be staged there during the day by some of the world's experts. Those who returned last night were more enthusiastic than before, if such a thing be possible, over the game and they were loud in their praise of the splendid hospitality of Greenville and more especially Sans Souci club members.

**Dr. Harrison Is Critically Ill.**  
Mrs. J. G. Cunningham left Tuesday for Abbeville, having received a telegram to the effect that her brother, Dr. Harrison, was critically ill. Dr. Harrison is well known in Anderson and has many friends here who will be grieved to learn that his condition is considered so serious.

**Passengers are To Beelayed.**  
Beginning with this morning, the G. S. & A. will be compelled to relay their main street passengers of both North and Southbound city cars. This is due to the fact that the rails across the bridge will be taken up today and some time it will be necessary that passengers disembark and walk around the construction work, boarding another car on the other side. This will be some inconvenience, but the public generally will realize that it is unavoidable.

**R. L. T. Sold To G. W. Evans.**  
At a meeting of the stockholders of the R. L. T. Co., held in Anderson on Tuesday, the business was sold to G. W. Evans of this city. It is understood that Mr. Evans to assume immediate charge of the concern and he says that he will make the sale of this famous Liver Tonic. That it is a dependable medicine cannot be questioned because this has been demonstrated time and time again in all parts of the State and there should be a ready demand for it. With Mr. Evans' energy and push behind the sale of the medicine there is no reason why it should not be one of the foremost industries of Anderson.

**Greenville Man Has Moved Here.**  
Dr. M. E. Goldsmith of Greenville, has come to Anderson and accepted a position with Martin's Drug store, succeeding James A. Bailly, who has been connected with this store for some time. Mr. Goldsmith, formerly made his home in Anderson and he is receiving a hearty welcome on all sides from many friends. He is a young man of much experience in the drug business and will doubtless prove valuable to the Martin Company.

**Opening Game Of this Season.**  
The first baseball game of this season will be played in Anderson next Friday during the Field Day exercises, the game being between the Anderson high school and the Frazier academy. It is probable that the event will be arranged for 11 o'clock in the morning, although the hour has not yet been definitely decided upon. The game will take place at Buena Vista park and it is hoped that a big crowd will see the boys get their start.

**Local People at Greenwood Conference.**  
Several Anderson people are in Greenwood, where they are attending the South Carolina Society of Charity and Correction. This is annually one of the biggest things of its kind in the state and this year is to be no exception to the rule, judging from the splendid men to be seen and heard at the Greenwood meeting. Although no local people have places on the program, a number of them are much interested in the work and will take in all the deliberations of the body, participating in the discussions, etc.

**Will Soon Hold Teachers' Examination.**  
It was announced at the court house yesterday that the next regular teacher's examination for this year will be held by J. B. Felton, superintendent of education on May 1. The examination will take place in the court house and will begin promptly at 9 o'clock on that date. Mr. Felton said that every teacher whose certificate expires this year or who is teaching in the county on a certificate from another county will be expected to stand this examination.

**Location of New Bottling Plant.**  
Representatives of the Chero-Cola Bottling Company some time ago made arrangements for securing the Bealy building near the Blue Ridge depot, and also made plans for the opening of the new plant here. It is said that the machinery for the new undertaking is already under way and when this is placed the Anderson plant will be one of the most complete in the State. It is understood that it will represent approximately \$20,000 when actually in operation.

**Mrs. Bleckley, Va. Mrs. S. Bleckley, who has been very seriously ill for several weeks, was taken to Richmond yesterday where she will be placed under the care of a specialist. It is hoped by the whole of Anderson's people that Mrs. Bleckley may be benefited. She number of friends here by hundreds and all of them regret that she is improving so slowly. Several of her relatives, as well as Dr. Pesse Bell of Wallhalla, accompanied her on the trip.**

**Mrs. Burton Not Expected to Recover.**  
J. D. Brown received a telegram yesterday morning from Columbia, to the effect that his sister, Mrs. Charlie Burton, is critically in Columbia hospital and that grave fears are entertained for her recovery. Mr. Brown took the first train for Columbia to be at the bedside of his sister. It is hoped by her friends that some reassuring tidings may soon be received.

**Freight Wreck In Spartanburg.**  
Motorcar Hendrix of the Piedmont & Northern lines, running the first train into Spartanburg over the new lines, reported in Anderson last night of a smash-up in the Southern railway yards at Spartanburg Tuesday. Mr. Hendrix said that a yard engine was pulling some box cars in the yards, with another engine pushing. The engine in front left the track and the engine in the rear kept on pushing, piling up seven box cars, one on top of the other and all on top of the engine. Fortunately no one was injured.

**Young Doctor Succeeds.**  
Washington, March 24.—Dr. Oliver Kinsley, a young North Carolina graduate of John Hopkins University, and who was awarded a commission as army surgeon, was today found dead in the bathroom of his boarding house today. Gas was flowing from a jet and all the cracks had been stopped up. Dr. Kinsley was a native of Kinsley, N. C.

**THE ANDERSON CHAUTAUQUA WILL GIVE VARIETY OF PROGRAM**

Anderson is to have a great Redpath Chautauqua program this season. For seven solid days there will be three sessions a day—morning, afternoon and evening. The program of the week will include music, opera, band music, grand opera, light opera, education, inspiration and fellowship.

Out of 2,200 circuit or tent Chautauquas which will be held this year in this country nearly 1,000 of them are under Redpath management or 200 more than a year ago.

Kry's Band which has so delighted the people of many Chautauqua cities of the south and Middle West during two seasons' past will make its third Chautauqua appearance this season in an entirely new program. All over the entire circuit last season this band made such a tremendous hit that it is returned by the Chautauqua bureau believes to be unanimous consent.

The band will give a concert on the afternoon of Band Day. In the evening there will be a double bill, a grand opera, quartet in costume, occupying the first part of the evening with the band furnishing the instrumental accompaniment for their work. The second part of the evening will then be another concert by the band.

The Ben Greet Players will also play a return engagement here. The play which they will present has not yet been decided upon but will be announced soon.

A feature of the opening day will be the Dunbar quartet and Bell Ringers. This organization carries a peal of 500 bells which were made in Europe—the home of the bell ringing. This concert will be in three parts. One part will be vocal quartet selections. Next there will be instrumental numbers on the violin, cello and piano; then will come the bell ringing.

The Kellogg-Haines Singing Party—one of the best-known lyceum chautauqua musical organizations in America, will on another day present a program of light opera. This company will give the entire rendition of "Galatea" and will also appear in "The Songs of the Sixties"—their two greatest successes of the past two years in their tours throughout the United States.

The Japanese Problem in America will be discussed by Montville Flowers of California—a great orator and one who knows every detail of the important subject. Mr. Flowers was for two years president of the International Lyceum Association of Lyceum and Chautauqua talent. He has been upon the American platform for 20 years.

Edward Amherst Ott is another of the most popular lecturers of the day who has been before the public as a lecturer and teacher for many years, and who will lecture on the forthcoming program.

Another musical evening will be presented by the Wolf-Christianson-Baker Ladies Trio.

One of the biggest musical events of Chautauqua week will be the appearance of Marcus Kellerman, dramatic baritone, formerly of the Berlin Grand Opera Company. Mr. Kellerman has filled engagements in this country as a vocal soloist with the Danroch Orchestra and also with the Minneapolis Symphony Orchestra. This fact of itself speaks volumes to musicians.

There will be an athletic director for each Chautauqua and also a woman play ground worker. Thus the children's work will be emphasized with two workers instead of only one as heretofore. There will also be a morning hour literary lecture during five days of the week.

Other important features of the program will be ready to announce in the near future.

**MARCH 24, 1914.**  
(By Associated Press)  
Senate—Met at Noon.  
Senator Chamberlain introduced a repeal to the tolls exemption section of the rivers and harbors bill of 1894. Adjourned at 5:30 to noon Wednesday.

House—Met at Noon.  
Debate on the Panama tolls exemption bill was again postponed because the rivers and harbors bill still was unfinished.

Women suffragists here today's election committee endorsed the bill to permit qualified women voters to cast ballots at congressional elections.

Representative Green, before the commerce committee spoke in favor of investigating the financial affairs of the Rock Island Railroad system. Adjourned at 5:20 p. m. to noon Wednesday.

Fitting Qui Esch Fines.  
The fitting of another American Sander Yacht fleet, three boats of which will be selected next summer for the international races at Kiel in 1915, already have been constructed. The series now stands four to one in favor of America over Germany.
