INTERESTING BUDGET OF NEWS AND NOTES FROM BUSY BELTON

CLAUDE A. GRAVES, Correspondent.

Belton, March 25.—The play "The Time of His Life" as presented at the Belton opera house Tuesday night was the greatest success of any play ever presented in Belton.

The children in the specialties were exceptionally fine and delighted the audience with their perfect rendering of "William a Tremble Tree" "House That Jack Built," and other games of long ago.

The door receipts amounted to about \$55.00. This money has been promised to the library association for an encyclopedia for the library. The plays worked hard with their encyclopedia in view and are truly to be congratulated both for their historic success as well as broad-mindedness in the object for which they were working.

SIX AND TWENTY. Mrs. W. R. Haysie spent Wednesday in Due West with relatives.

Williamston, March 25.—The first day of spring, 1914, will certainly be a day long remembered by our people. With a strong cold northeast wind blowing all day and followed by a snow storm at night it was enough to make an impression on one's mind that will not be easy to erase.

Do first bird of spring. He tried for an egg. Put before he had uttered a note. He fell from the limb. And a dead bird was him. For do music had feez in his throat.

And closing he said, "Dars a good bit of sentiment in dat."

The few pretty days of last week were indeed busy ones for our farmers. They having made a good start in setting their lands ready for planting.

A. M. Martin and G. L. Cobb were business visitors to the Electric City last Saturday.

The new residence of C. E. Pilgrim on the Piedmont road is nearing completion. This will be one of the best houses in the county when finished.

The many friends of Miss Pearl Fuller, a former teacher in Piercetown school, will be grieved to know that since leaving her school here some time ago on account of ill health she has steadily grown worse.

Elroy Williams has purchased from W. H. Tucker the Lawson Gaillard place near Walker-McClintock. This is one of the finest little farms in An-

delightful buffet supper to the players after the performance in acknowledgment of their appreciation of their fine work and also of their gift to the library.

Mrs. L. M. Beard had little Lattimer of Elberton, Ga., also visiting her mother Mrs. A. C. Lattimer.

Miss Belle Kirkpatrick of Anderson spent Tuesday night with Mrs. Jessie B. Lewis.

Miss Miriam Chamblee was Miss Nonsible Campbell's guest Tuesday night.

The last meeting of Mrs. J. T. Rice's mission study class, "The Royal Service," was held Tuesday afternoon at her residence on Brown avenue. After the service was completed a most delicious sweet course was served and a most pleasant social hour spent.

The friends of Mr. and Mrs. Claude A. Graves will be sorry to know that Mrs. Graves is ill at their home on Rives street.

Mr. and Mrs. L. D. Blake spent Tuesday in Greenville.

erson county. The price paid was \$75 per acre.

We are glad to state that those of our people who have been so seriously ill are now improving.

Miss Mammie Whitaker of Anderson College was visiting home folks here last Saturday and Sunday.

That fellow from Brushy Creek who is talking about trading his commission for this district will have to get up and walk about. Six and Twenty has a man that will beat anybody else who offers for the place. In fact if every man in the district was a candidate he would get over half the votes in the election.

Miss Martha Elrod of Piercetown was here Sunday afternoon.

John Fowler of Trinity was a visitor to this section last Sunday.

George Martin of Three and Twenty was here visiting relatives Sunday afternoon.

THE CORN WORM

Six and Twenty Correspondent Writes Interesting Letter

Williamston, March 25.—We recently read an article in a farm journal from an Alabama farmer who has been experimenting with corn for the purpose of trying to escape the ravages of the corn worm that plagues much corn before it ears. He stated that he planted a field in corn for four years in succession, planting one half the latter part of March and the other half the latter part of April or the first part of May. The next year he planted his early corn on the land where he had his late corn the year before and continued this swapping about for the four years. Every year his early corn was almost ruined by the worms, while his late corn was almost free from them. He stated that he made 33 1-3 per cent more corn in the four years from his late planting than he did from his early planting and one year his late corn was cut off about one-half by dry weather.

We think it would be a good idea for Clemson College and the farm demonstrator to give the farmers through the county papers any information that they may have on how to overcome the ravages of this worm that is causing thousands of dollars loss every year.

Six and Twenty.

SIX AND TWENTY

Piercetown, March 25.—For the best Sunday School songs to be heard, come out and hear our class sing them.

Among those who attended our Sunday School last Sunday from Piercetown were Tramma Elrod, Dewitt Martin, J. N. Martin and Frank Hamilton.

Miss Marie Newton of Walker-McClintock was in our community Sunday.

Miss Mammie Whitaker who is attending school at Anderson college, was visiting her parents Sunday, Mr. and Mrs. F. Whitaker.

There was a singing last Sunday night at Mr. and Mrs. W. J. Pickett's. A. W. Pickett made a business trip to Anderson Tuesday.

J. S. Rieley spent last Sunday with his grand daughter of the Mt. Plazan section, Mrs. R. B. Stogall.

Mr. and Mrs. R. N. Murphy of Piercetown spent Sunday afternoon with B. J. Whitaker and family.

Anderson (Gibson) of Shawtown was in our community last Sunday.

Hurry up, Jack Frost, and cut it out!

Miss Martha Elrod of Piercetown, was a welcome visitor in our Sunday School last Sunday.

The writer is glad to hear that the infant of Mr. and Mrs. W. J. Pickett, who was so sick at the last writing, has greatly improved.

Wasson Elrod of Piercetown and Miss Minnie Timms were out driving Sunday afternoon.

South Williamston, March 25.—H. H. McGee spent Wednesday in Anderson on business.

Kenneth Caughman of Clemson college has been visiting at the home of W. M. Sherard.

Admiral General W. W. Moore will arrive in the city on the first to inspect the headquarters of the First Regiment here. He will be accompanied by an army officer.

Charlie Nelson, who is working with a trestle gang at Park, was called to his home this week on account of the serious illness of his wife.

The people here are deeply interested in the necessary vote of 150 in prize for the best produce and all are hard at work making ready. They wish to cooperate with the mill management and endeavor to make this one of the cleanest and prettiest and healthiest mill villages in the county.

Financial and Commercial

New York Cotton

New York, March 25.—Cotton was less active with the old crop position being active of late. Some scattered selling for a week or two ago, but the market quiet throughout the day with the market closing barely steady, net unchanged to 5 points higher. May was relatively weak, losing 3 to 4 points or its premium over July, although the month of March fully maintained its premium of 30 points over May contracts. The market opened steady at a high of 2 1/2 to 3 1/2 advance of 4 points, and sold about 1/2 to 1 point higher during the first few minutes. On Liverpool fairly steady showing and overnight buying orders. Demand for May and July contracts showed a sharp falling off as compared with active buying of last week, however, and the market soon weakened. Spot cotton strong, including fine 1 1/2 to 1 3/4, and 1 1/2 to 1 3/4. Cotton futures closed barely steady.

New Orleans Cotton

New Orleans, March 25.—The market was the feature of the cotton business in the early trading, but was not active hereafter and closed 1/2 point down. The other active months were 3 to 5 points down or the close. In the early trading favorable cables were the main support of the market, but they were not held up to the end of the day. The most active months were only 2 to 5 points over yesterday's close. Scattered liquidations continued throughout the session and the market closed at the lowest point on March. It was a weak day.

Liverpool Cotton

Liverpool, March 25.—Spot cotton steady; good middling 7 1/2, higher 7 3/4; low middling 6 1/2; sales 1,000. Speculation and exports 500. Receipts 11,000. Futures quiet.

Cotton Seed Oil

New York, March 25.—Cotton seed oil today was fairly steady, but under scattered selling for shorts, some accounts, but prices drifted up on a weak close and covering shorts. Final prices were generally 1 to 2 points higher, but firm.

Corn Goods

New York, March 25.—Wheat and corn were fairly steady, but under scattered selling for shorts, some accounts, but prices drifted up on a weak close and covering shorts. Final prices were generally 1 to 2 points higher, but firm.

Chicago Grain

Chicago, March 25.—Wheat in the Northwest was in a lack of demand, but the market closed at a steady price. The market closed at a steady price.

Stocks and Bonds

Chicago, March 25.—Stocks and bonds were active. The market closed at a steady price.

A Hard Luck Year

By Old Cap. Ramer. Old Cap Ramer, who fought the Mexicans in times of peace and argued with South Carolinians in an off-year in politics, has returned from a visit to the old home at Bethany, Missouri, and brought a lot of new notions, other than "patience." In his case, it is the one that he picked up somewhere along the line. "I saw a man who would tiddle late hard luck sweepstakes without the hesitation. His collar showed conclusively that it had been in service for a long time. His coat was much the worse for wear; his shoes were almost holeless, and it was evident that he had not been able to coax his whiskers to quit growing. "After he had divulged the fact that he would be sufficient to enable him to win out in the great battle of life, he consented to explain the cause of his downfall. "You see," he said, "I'm an educated man; I've talk about that. I'm the victim of ill luck. Some men claim

Reading Approves

Disintegration Terms. (By Associated Press.) New York, March 25.—Directors of the New York, New Haven and Hartford railway company, in special meeting today unanimously approved the agreement recently reached between Chairman Howard Elliott and Attorney General McReynolds, which prescribed the terms under which the New Haven system is to disintegrate. Chairman Elliott was authorized to call a special meeting of the stockholders on April 11, when formal action on the agreement will be taken.

Why Are Some Folks Human Grasshoppers?

By MOBS. THEY called him "Freddie" "Freddie" was slow, but somehow sure. He got there in his own peculiar way, and not a hole, but a rising young man in a class all his own. They also called him "Freddie" the Human Grasshopper. You never knew where to find him. Freddie was the antithesis of himself. If you can get that. He was the Dr. Jekyll and Mr. Hyde of motion. Now you see him, an slow and deliberate as a freight car, and now you don't, as fast and elusive as a grasshopper. It needed a magician to keep tabs on this very real Freddie. The land of newspaper readers has a few Freddie. One time they start on their trip through the paper and proceed slowly, stopping at every way station. The next time they jump here and there through it in a way to make the average grasshopper green with envy. Be a freight car if you must, but don't be a grasshopper. Better be neither. The excellent newspaper reader is MODERATE. He's not a plodder or a skipper, but a PICKER. Are you following CONSISTENTLY the ads. in this paper that appeal to you?

The New Haven railroad denies that dividends will be commenced in April.

FERTILIZER FACTS No. 10 ECONOMY. E-C-O-N-O-M-Y: Strict husbanding of resources; regulation with respect to production and consumption of goods and wealth; as, use of adulterants is poor Economy. Previous Fertilizer Facts have treated with CO-OPERATION, EDUCATION, GREATER PROFITS. And now comes that subject which is the basis of all lasting wealth as defined above—ECONOMY. Practically applied, what does Economy mean? Is it in buying cheap cotton seed, corn and grain that gives you only half a stand? Is it in making a pair of shoes out of materials that cost \$1.50 that will wear out in sixty days when a pair that costs you \$2.00 will wear a year? Is it in spending fifty cents for a medicine which you think you need when a \$2.00 visit from a physician will put you on your feet in a few days? Is it mixing your own fertilizer haphazardly so that some plants get all the nitrogen and run to stalk; others all the potash and bear heavy fruit with no body; or is it buying Commercial Fertilizers where only the most carefully selected materials, thoroughly analyzed, chemically tested and accurately balanced are mixed under careful and watchful supervision by the most modern machinery, which INSURES a uniformity in the goods offered? At the outside there is only about 30 cents difference in the cost of the two fertilizers mentioned above, and 30 cents is dirt cheap for the insurance on your crop certified to through the analysis on every bag of goods you buy. The opposite of ECONOMY is WASTEFAGANCE, which is oftentimes caused by being "Penny wise and pound foolish." Remember, "Strict husbanding of resources and regulation with respect to production" is the accepted definition of Economy. The time to make money on your crop is when you are producing it. The way to make money on your crop is to keep down the cost. Bulletins on Cotton and Corn sent free. SOIL IMPROVEMENT COMMISSION. Southern Fertilizer Association. Atlanta, Ga., U. S. A.
