

# A MESSAGE TO THE LADIES OF ANDERSON AND VICINITY.

This announcement is for the distinct purpose of calling your attention to the indisputable fact that it is no longer necessary for you to send your money to New York Philadelphia or Chicago in exchange for WEARING APPAREL, HOUSE FURNISHINGS, JEWELRY, GROCERIES, SHOES, MILLINERY, DRY GOODS, ETC.

It has become a habit with some people to feel that there are certain things they must order through the catalogues which are sent broadcast over the country from the above mentioned cities. There is not a town or community in this state but what is in close proximity to some larger one which has stores that are amply equipped to satisfy needs of its citizens, thereby shutting off this steady stream of money northward—and keeping it in its own section.

Her stores are thoroughly equipped in every respect to satisfy your needs in any particular. By offering to **rebate your railway fare**, they make it possible for you to select your goods personally with absolutely no expense.

## GREENVILLE OCCUPIES THAT POSITION IN UPPER CAROLINA.

### Note The Following Offer:

For cash purchases amounting to \$25.00 the railway fare both ways will be refunded up to 40 miles; for purchases of \$25 or more one fare will be refunded from 40 to 60 miles; for purchases of \$50 or more the fare both ways will be refunded up to 60 miles.

#### THE ABOVE AGREEMENT HAS BEEN ENTERED INTO BY THE FOLLOWING WELL KNOWN GREENVILLE FIRMS:

#### COTTON RANGES UP AND DOWN

Old Positions Decline, but New Crop Prices Stiffen as Result of Rains in West

(By Associated Press.) New York, April 29.—The action of today's cotton market as well as the talk around the crop suggested continued uncertainty as to the merits of the old crop situation so far as actual contracts were concerned and a somewhat nervousness as to the outlook for the new crop owing to further reports of a late start and apprehensions of renewed rains in the western belt before the end of the week. New crop positions made new high records for the old crop months were irregular, with the market closing at a net decline of 16 points on April and 1 to 4 points on other old crop positions, while water futures were 5 to 8 points higher. Private predictions that the clear weather officially forecast for the western belt would be followed by renewed rains, doubtless helped the advance in water futures, while reports indicating a scarcity of seed for planting in the southwest. Cotton futures closed steady.

#### STOCKS DULLER AND LISTLESS

Mexican Situation No Longer Has Any Influence On Trading At New York

(By Associated Press.) New York, April 29.—The advance in stocks was halted today. The market drifted idly through the session losing quickly a slight early advance and toward the close the tone became heavy. Extensive covering on the advance of the preceding two days made the position of the short interest less vulnerable, and stocks were supplied more freely. Distinct weakness developed in a few spots but the average loss was small. The market was no longer dominated by Mexican affairs. The probability of a considerable delay before a definite settlement is reached, it included immediate interest in the situation, which was less of a factor than at any other time since hostilities began. Bonds were steady. Active issues were not essentially changed since from Rock Island collateral. Total sales par value \$1,830,000. United States 2s coupon declined 1/4, and Panama 2s coupon and registered 1-2 on call.

#### Liverpool Cotton

Liverpool, April 29.—Cotton spot unchanged; good middling 11.75; sales 20,000; speculation and export 1,000. Receipts 3,000.

#### Cotton Seed Oil

New York, April 29.—Cottonseed oil was steady in the face of the weakness in the oil market covering of May shorts, but offerings of crude and support from refiners. Tender oil contract was a 50¢ advance. Final prices were a points higher for May and 1 to 3 lower for other active positions. The market closed steady.

#### Cotton Goods

New York, April 29.—Cotton goods markets were quiet. Yards were dull. Curtailment of production was reported to be on the increase in manufacturing centers.

### RUNAWAY BOY FROM ANDERSON LOCATED

#### GREENVILLE POLICE ASSISTED IN SEARCH

#### FOUND IN GAFFNEY

Ivan Hutto, 14-Year-Old Son Of T. M. Hutto, Left Because Of Whipping Threat

T. M. Hutto, a well known mill man of Anderson, has been very much exercised for the last two days over the disappearance of his 14-year-old son, Ivan Hutto. It was said that the father threatened to whip the boy and because of this the youngster left his home unknown. Mr. Hutto did not make any complaint to the local police for reasons unknown, but found that his son had gone toward Greenville and he followed him there. The Greenville police had taken a lead and succeeded in locating the boy at Gaffney.

The following from the Greenville News of yesterday tells of the boy being found: "Through the efforts of the local police department Ivan Hutto, 14-year-old son of T. M. Hutto of Anderson, who ran away because his father threatened to whip him, was found early yesterday afternoon at Gaffney and will be returned to his home tonight by his father. Mr. Hutto arrived here yesterday in search of the missing boy, but he learned at the police station that his son had been located at Gaffney. Sergeant Thompson immediately put in a call to Gaffney and confirmed the report that the boy had been found. Mr. Hutto said before leaving for Gaffney that he did not intend to punish the boy for running away, but would try to reason with him regarding such action in the future. He said it had been playing truant from school, and he had threatened to whip him if this was true. The boy told his brother, the father said, that he would run away from home before submitting to a whipping.

#### GOVERNOR BEGINS FALLING FORTUNES

(Columbia Record.) We have repeatedly and constantly maintained that the people of South Carolina are a thinking people and if they were fairly and fully informed and given the time, they would get right in the end. That they are preparing to act right on political matters in the coming summer campaign seems to be proved, for beyond a peradventure by the results of Saturday night's club meetings throughout the State. His former friends are falling from Governor Blease on every hand, if we may credit the indications, and some of those who are still staunch to him say so.

The members of the Newberry County convention will send a solid anti-Blease delegation to the State Convention. It is predicted that the State Convention will be overwhelmingly controlled by Senator Duff's friends. Blease of the primary was withdrawn in many of the club meetings and will be no more in the convention.

The judgment of Col. Grant, former member of the State Convention, is that Blease's position seems to be sustained by reasons from various sources and from every quarter of the State.

friends of Senator E. D. Smith will control the great majority of the county conventions, thereby securing control of the State Convention. It is predicted that the State Convention will be overwhelmingly controlled by Senator Duff's friends. Blease of the primary was withdrawn in many of the club meetings and will be no more in the convention.
