A HOME OF YOUR OWN IS A HOME INDEED

There was a party of fifteen having a good time in North Anderson park yesterday.

FOR HOMES, SEE JOHN LINLEY, FARMER & LINLEY

They took their baskets (full of good things) out on the car about eleven o'clock and had the nicest kind of little picnic.

The park is a dandy place for these little picnics and we hope everybody will feel free to use it. Remember there is no charge for the use of these grounds.

### ELECTRIC CITY SPARKLETS

Items of Interest and Personal Mention Caught Over the Wireless on the Streets of Anderson

**Is Held Tomorrow.**  
Many plans are being made for the Anderson "Baby Show" which is to take place tomorrow. It is understood that a number of fond parents have already entered their young hopefuls and it is expected that still more will come in early this morning. The show is to be held at the Anderson chamber of commerce and during the afternoon ice cream and cake will be served free. A small admission is to be charged at the door and a small amount will be required before a baby may be entered in the contest. Judications are that this will be quite a successful event.

**Hospital Will Receive The Weak.**  
T. S. Ligon, the big hearted head of the Anderson County hospital, announced on yesterday that he would take care of any Confederate veterans conclusion that the trip to the reunion here on the 27th and 28th, taking them to the hospital and caring for them there until they were entirely restored to health.

**New Man for the Columbia Company.**  
J. H. Bowling of Lancaster arrived in Anderson yesterday to assume the position of manager of the Anderson store of the Columbia Tailoring Co. Mr. Bowling succeeds L. G. Doster, who has been in the city for some time. The new manager has had considerable experience in the tailoring line and he will be able to look after the affairs of the local company in a most capable manner.

**Will Meet Today.**  
Several Anderson people will go to Pendleton today for the purpose of attending the quarterly meeting of the Pendleton Farmers' Society. The program arranged for the day is very interesting and a number of features are announced. The local people will leave at 9 o'clock or thereabouts and will return to the city by 3 o'clock in the afternoon. The meeting is to begin this morning promptly at 10 o'clock.

**Armenians Are Seeking for Homes.**  
Several Armenian preachers or priests have descended upon Anderson and are making life miserable for Anderson people with their requests for financial contributions and assistance. In several cities of the State during recent months the police have been notified to keep them out as so many of them are imposters and the money never goes to the worthy cause for which they solicit help. These may be different, but at any rate their visit impresses the necessity of having organized charities in lieu of so many calls for help.

**Anderson Dirt Dealers Active.**  
Anderson dirt dealers or real estate agents are so active that they are not content with handling the situation at home but needs be must search abroad for some deal to put through. Mr. Horton and R. C. McKinney are now planning for a big land sale at Royston, Ga., which they will hold on Friday. Mr. McKinney recently purchased some business property in the heart of the town and this will be divided into lots and sold on Friday. They believe that the investment will prove to be a good one.

**Miss Dean Has Undergone Operation.**  
Miss Pal Dean underwent an operation at the Anderson Hospital yesterday for appendicitis. It is said that the operation was entirely satisfactory and last night Miss Dean was seen recovering.

**Some Shriners Have Retained.**  
Capt. R. J. Ramey and Hon. W. A. Hulseby and Col. C. S. Spearman, of the party of Anderson visitors to the reunion, returned to Anderson yesterday. These gentlemen state that Atlanta has never attempted to entertain such a crowd before and that never before in its history of the town has there been so much gaiety and merriment. They say that they enjoyed every minute of their stay and that the entire Anderson delegation seemed to be having the biggest time ever experienced. The local men say that Atlanta is doing care of the enormous crowds and that evidently much preparation had been made beforehand. Capt. Ramey is a life member of the Shrine.

**Chickens Crying For Oiled Streets.**  
Numerous comments were heard all over the city yesterday on the fact that the dust along the business streets of the city is so very heavy. The business houses are unable to protect their goods and people living along Main street have to keep their windows closed to prevent the dust from covering every piece of clothing in the house. It is the common opinion, voiced on every side, that the water wagon is inadequate and there is a general demand that the streets be oiled, until they can be paved. It is pretty generally understood that this is very expensive but the property owners claim that the expense is a secondary consideration when it comes to a question of being choked to death in your own home or your business house.

**Autoling On A Long Trip.**  
Leonard Wheeler and family of St. Petersburg, Fla. passed through Anderson yesterday enroute to New York city. About two years ago Mr. and Mrs. Wheeler decided that they would like to see something of the South and they accordingly purchased a small automobile and set out on the trip. They reached Florida and decided that they liked the country and would stay there awhile. They camped there with the result that they have been in Florida for the last two years. When they came South the automobile was large enough to carry the family but yesterday it was rather cramped. They have gone back to New York and will stay there for a year or so but say that they intend returning to the South to establish permanent home.

**Soon To Build.**  
W. W. Smoak, business manager of the Anderson Daily Intelligencer, yesterday purchased a handsome lot in North Anderson and will soon begin the erection of a home in that beautiful suburb. Mr. Smoak has secured a very pretty site and he plans to place a nice building on it. This part of the city seems to be growing in popularity every day, as does the other suburban property near the city.

**Baseball Game This Afternoon.**  
Several motoring parties are being planned for this afternoon to make the trip from here to Clemson college for the baseball and horse delegations of Anderson people will go for each of the games. The game Saturday will be witnessed by probably 200 Anderson people including the night school students who are to go.

**WANTED--Second hand Ford automobile.** Will buy a satisfactory one if made today. C. O. Dorgan at Cox Stationery Co. 5-13-14

**Gaffney Ledger.**  
We spent Friday at the Greenville horse show with Billy Banks of the Anderson Intelligencer, Harold Hooker of the Greenville Piedmont, Geo. Brunson of the Greenville News, and Thom Arnold of Okefenokee Springs. Arnold was the only man in the crowd who knew anything about a horse. Bill Banks wanted to know if that was a "horse show," meaning that included in Anderson such horses as were exhibited for plowing purposes. While we are not knocking Anderson horse flesh, this goes to show that Bill doesn't know a horse from a steer.

### HOW VERY CARELESS

A \$5,000 Tube of Radium Thrown into The Garbage Can.

Liverpool, May 13.--Search of a garbage wagon which was about to be hauled away from the Liverpool Infirmary recently brought to light \$5,000 worth of radium.  
Two tubes, one containing thirty and the other fifty milligrams of radium, had been applied to the face of a patient at the infirmary. When a member of the staff came to remove the radium the next morning the larger tube missing. The most minute search was made the patient even being photographed by X-ray to see if he had swallowed the tube. It was suggested that the tube might have fallen out of the dressing and had been swept out with the ward sweepings. These had been placed in a garbage wagon which was on the point of being driven away when Professor Wilberforce of the University of Liverpool searched the garbage, a bucketful at a time, until the twelfth bucketful resulted in the recovery of the tube.

### Warm Weather Furnishings To Keep Men Cool

While our stock of men's warm weather wearables has always been large, we think that this season's showing surpasses any of the past offerings, both in size and quality of the values to be found. As a suggestion of the many interesting items found here, we mention straw hats—light weight underwear—two-piece suits—negligee shirts—silk and cotton hose—new cravats.

But the most satisfactory way is for you to come and see them. Then you can realize more fully the excellence of the quality and the wide range of styles and values included.

6 attendants at the Protestant churches the last Sunday in February. The count covered 75 parishes, with a Protestant population of 2,960, 677 of which only 20,000 were counted at church that day, either morning or evening.

Even according to the estimate of a clergyman, who criticized the figures as too low, the number was only 7,500 greater. These barely 20 out of 37,500 Protestant believers at the biggest estimate, attended church on the Sunday question. A few were seen in the churches, but many cases were not reported.

### PALMETTO THEATRE

**WAR IS HELL**  
Epic. Special four reel drama in natural colors.  
This is one of the greatest war dramas ever staged. The great battle in the clouds between aeroplanes is one of the most thrilling scenes ever enacted on the screen. And then the destruction of the Lusitania, being literally blown up by the air in a most remarkable and as photography as ever seen. As you see this great picture, it is indeed a tragedy. The best of its kind ever made.
