RULES WERE ISSUED FOR STATE MILITIA

INFORMATION FURNISHED ADJUTANT GENERAL

SERVICE STRENGTH Troops in State to Precaution Against Typhoid Fever

The Palmetto Rifles, the local militia of which Anderson is immensely proud, will hardly be called into service now against Mexico, since it seems that the trouble is about to be adjusted, but nevertheless the United States War Department is going right ahead with instructions to the various States in regard to the preparation of their troops for war after in the event that actual hostilities should be opened.

In case of the organized militia of the several States is called into the service of the United States, all officers and enlisted men under the age of 45 years who have not received the typhoid prophylactic during the preceding two years or who have not already had a well defined case of typhoid fever will be required to take the prophylactic. This announcement is contained in a letter received by Adjutant General Moore from the chief division of militia affairs, of United States army.

The administration of this preventive measure requires a certain amount of time and in order to expedite matters it is suggested that immediate steps be initiated for its early administration. The necessary arrangements have been made for applying it to the different States from unallocated funds set aside for this purpose.

In order to have complete records of all members of the organized militia who have received the treatment it will be necessary to make record cards in the case of every person to whom the prophylactic is administered. Cards will be prepared for all members of the militia who have received the prophylactic since May 1, 1912. Those who have taken it prior to that date will be required to take it again.

For those claiming immunity by reason of their having had typhoid fever, certificates or other evidence must be furnished bearing out their statements. The record cards will be furnished by the medical department on requisition submitted through this office.

As to the importance of taking these precautionary measures against typhoid fever it may be stated that since the compulsory administration of this serum has been inaugurated in the army, navy and marine corps typhoid fever has entirely disappeared, not a single case having developed in the united services notwithstanding the fact that the troops have been subjected to all kinds of exposures, and that the disease is by the most virulent fever in the world.

It is hoped that the adjutant general will give this matter their immediate attention and endeavor to have every member of the organized militia rendered immune prior to leaving their home stations, thereby avoiding the delay and confusion hereon.

The following information is furnished by adjutant general for his guidance in the event of his being necessary to call the organized militia into the service of the United States and recruit it to war strength. Unless otherwise specified in the list, all organizations will be placed in the statutory strength prescribed by law.

APPROPRIATING CARS HIS PARTICULAR LINE

GREENVILLE PEOPLE ALSO WANT AUTO THIEF

Telegrams and messages received in Anderson yesterday from Greenville which said that a man claiming to have left a splendid touring car in Anderson had "borrowed" an automobile in Greenville on Monday and had not been seen or heard of since. The message asked that Anderson people keep a sharp look-out for the thief but it is hardly likely that he will be seen in these parts for some time to come, since he is wanted here for stealing an automobile from a Greenville auto dealer.

DESPERATE NEGRO WAGED A BATTLE

Was Shot Twice By Anderson County Authorities At Fire

Ned Harris, one of the worst "gun-fighters" in the county and known all over Anderson as a bad negro was arrested last Monday evening by the special officers and Constable Cann at five, after the constable had shot the negro. Harris is wanted in this county on three warrants, one of these charging that he killed a male, and the third for disposing of property under fire.

About a year ago Harris killed a male belonging to William Moscolet and then slipped out. Since that time the officers have been on the lookout for him but he was not seen until Sunday afternoon when Constable J. H. Cann received word that the negro was in a house on Main street, near the corner of the town square. Cann set out for the house but when he arrived he found the place the negro had taken refuge in. He then approached the house to which he fired a pistol from his pocket and missed for a while. He then fired a shot at the door, striking him in the leg. Harris turned and fired several times at Mr. Cann, continuing to shoot until the officers placed a bullet through his left leg. He then surrendered and was carried to Mrs. Durbin's drug store where he was given attention by two physicians and yesterday he was brought to the hospital.

It is said that Harris is a very desperate man and that he has been in the habit of carrying a pistol on his person. He is now in the hospital and is expected to recover. He is being held in the jail and is being kept in a cell with other prisoners.

LOCAL DELEGATES WILL LEAVE TODAY

"On to Columbia" Is the Cry

The delegates of South Carolina will gather in Columbia today for the State Convention and Anderson's delegation, 14 strong, will leave the city this morning at 3:30 o'clock for the capital. While they go without exception of any kind, it is understood that a majority of the local delegates favor a change of the constitution.

It is believed that the delegates will be in Columbia for several days. They will be accompanied by a number of local citizens who will be interested in the proceedings. The delegates will be in Columbia for several days.
