## THE FARMERS AND MERCH

## FARMERS LOAN

With resources aggregating a little the rise of ONE MILLION DOL-LARS, are making a specialty of small notes, that is, notes for less than \$100.00. We are a little partial to notes of that size, so if you are needing anywhere from \$25.00 to \$100.00 fix up a note, get it well endorsed, just to show you keep good company--you naturally ask your associates to endorse your notes-bring the note to us and we will "cash" it. We would like to "cash" about 2,000 of them this summer. We will expect them paid during the month of October and the first half of November.

We also expect to supply our regular customers with their usual business requirements.

Wylle Grant of New York, indoor champior, taking two straight acts 6-2 6-3. Pell had an even easier match

ship in the mens doubles defeating Irving and Beals Wright in the hardest match of the day, 3-6, 6-3, 7-5, 11-9, Mrs. Sullvan and Mrs. Neely, of Richmond, will play Miss Wagner and Miss Cassell, for the club championship in womans doubles.

All-Day Singing at Welcome Church.
There will be an all-day singing at Welcome church near Denver, Sunday, June 7. Among those who will have not are. day, June 7. Among those who will take part are: Jno. T. Milton, W. W. Hale, W. O. McKinney, J. H. Harvey, W. P. Stovenson, Holland, Patterson, Hembree, Bolt, others will be present Alt singers are invited as well as the public, generally. Bring books and well filled pockets.

Taking it up one side and down the other, as well as we can gather, there is around 66 2-3 or 70 per cent of a stand of cotton in this section. The Government report puts it 72 per cent. Some sections of the State may have better stands than we have, and so taking it up one side and down the other, our stand as well as we can gather, is around 66 2-3 or 70 per cent of a perfect stand. While this is not ideal, still there is enough cotton up to make a good crop of cotton if you will the guest of his brother, Walter Dick- feed it and nurse it and pomper it.

If you will side dress it once or twice, putting from 150 to 200 pounds of fertilizer to the acre, each time, you get all out of your crop that can be gotten. And that is all that you can do.

You can get more out of this 66 2-3 per cent of a stand by feeding it and nursifig it and poinpering it than you can get out of an ordinary stand where you don't side dress it. But in side dressing this crop, you want the very best goods made for this purpose. It is no time for experiments, the business of this crop requireth haste, it is no time to take chances, you want a sure thing.

The side dressing fertilizer made by the Anderson Phosphate & Oil Company is the best made. Remember that side dressing makes more bolls and larger bolls, stands drought better, stands anything better, it is better fed and is stronger, Remember, too, that 1300 pounds of seed cotton that has been side dressed, will make as heavy a bale of cotton as 1500 pounds that has not been side dressed. But it takes the best fertilizer to do this. When you buy side dressing get the best. Get the best, and forget the rest.

### ANDERSON PHOSPHATE &

It will pay you to pomper your corn crop too this year. It will be pretty rough to make a short cotton crop, and then buy corn. It pays handsomely to fertilize corn. hazold and another hard description as
