Stoc's and Bonds. New York, June 23.—Reactionary tendencies prevailed today in the stock market. Selling, while not heavy, was carried on steadily and embraced a wide variety of stocks. LONDON LIFE

London, June 13.—An "elephant and rhinoceros congress" in which delegates representing all of the great powers directly interested in Africa have participated, has finished a week's sitting at the foreign office, and as a result it is probable that effective action will be taken to preserve these animals from extinction in Africa.

The conference met at the suggestion of W. Woosnam, game warden of British East Africa, who pointed out that the elephant and rhinoceros were in great danger of extermination than any other species of big game in Africa. Delegates come from Germany, Belgium, Spain, France, Italy, and Portugal, all of which countries have colonies in the African continent.

Gambling on the Derby—recently won by an American horse—is believed to have attracted more money this year than every. The first prize of the Calcutta sweepstake lottery, which is the most popular method of risking one's money, amounted this year to about \$200,000. Ten years ago the investments in this lottery warranted a prize of only \$100,000. The prize as it now stands is probably the largest offered by any reliable form of lottery in existence.

The Calcutta Turf Club started this lottery as a mere club affair many years ago, but when the sale of tickets was thrown open to all applicants the investments rapidly grew until this year saw them coming from all parts of Europe, all the British colonies, and East Africa.

The London stock exchange had a sweet taste this year which offered a first prize of \$12,500. This was originally a friendly affair among members but it has become almost a public business. Members subscribe for batches of tickets and sell them to outsiders at a premium.

The findings of the recent Royal Commission on Divorce, so far as both majority and minority reports agreed, have been incorporated in a bill introduced into Parliament by Lord Gorell, former president of the Divorce Court. The most radical departure is that the sexes shall be on an equality before the divorce court.

Under the existing law, a wife must prove both misconduct and cruelty on the part of her husband, while a husband need only to prove misconduct in order to get a divorce. The new clause provides that any married person may dissolve marriage upon proving that the other party thereto has committed adultery.

The bill also provides that a judicial separation may be granted on the ground of habitual drunkenness, which includes intoxication by drugs.

An annoying jokesmith recently spent several shillings to have his fling against militant suffragettes by inserting the following advertisement in the personal or "agony" column of a morning newspaper:

"SECTION of noble family has ISLAND for SALE—Wild scenery and precipitous cliffs; single gun on adjacent mainland world dominate only possible place of disembarkation. Ideal for colonization by Suffragettes. Though advertiser is Conservative he would gladly come to bargain terms with present Government or high minded philanthropist with country's weal at heart."

Judges of the criminal courts who have been criticized for playing golf on Sundays have found the excuse that noxious odors and gases of the New Bailey, as the court buildings are called, drive them to get all the fresh air possible in the time they have free from the courts. A century ago the Old Bailey was notorious for its odors. The New Bailey is little improvement. The poor ventilation has caused many a judge's headache and undoubtedly many prisoners have suffered an extra heavy sentence because of judicial irritation.

Boy-conductors will be placed on some of the municipal street cars as an experiment. Much opposition was expected from the union, to which it was explained that the boys would only assist the regular conductors and that as far as possible they would be selected from the families of street car employees, no protest was raised.

It is almost impossible for the conductor of a double deck street car to watch his stops without neglecting one or the other and the boy assistants will be expected to relieve the regular conductor of part of his duties. The boys will be tried out on the Trolley street line which runs to Greenwich through one of the thickly populated districts of London.

The one hundredth anniversary of the organization of the Marylebone Cricket Club, the supreme legislative body of the English national game, is to be celebrated this month at Lord's, the club's headquarters in London. The club was founded by Thomas Lord, a well-known cricketer of those days, who acquired the grounds at St. John's Wood, which now bear his name. The first recorded match on the grounds was held in June 1814 and to celebrate this cricket festival will open on June 22nd. The first match of the festival will be between the English Cricket eleven which visited South Africa and the team representing the Rest of England; while the second match, which it is anticipated will be attended by King George, will be between the Army and the Navy.
