JAPAN FIGHTING

Correspondence Between, Unsettled Anti-Allen Law, Extending Over Period of More Than a Year.

Washington, June 25.—Diplomatic correspondence between the United States and Japan over the California anti-alien land law, extending over a period of more than a year, was published today simultaneously in Washington and Tokio by agreement of the two governments.

It disclosed that a new treaty was discussed as one way to meet Japan's protest against what her diplomatic correspondence characterized throughout as "essentially unfair and individually discriminatory." On June 10 the Japanese ambassador, Viscount Chinda, left with Secretary Bryan "instructions from the Tokio foreign office that the projected treaty would tend to create new difficulties. The Japanese government, therefore, the note said, was disinclined to continue negotiations looking to the conclusion of a convention on the lines of the project under discussion, but they prefer to recur to the correspondences which were interrupted and they will now look for an answer to the note handed Mr. Bryan on the 26th of August last, hoping that in a renewal of the study of the case, a fundamental solution of the question at issue may be found."

The Japanese note of August 26 last, which Mr. Bryan was asked to answer, concluded: "The Imperial government claims for them (its subjects) fair and equal treatment and are unable either to acquiesce in the unjust and obnoxious discrimination complained of, or to regard the question as closed so long as the existing state of things is permitted to continue."

Two days ago Secretary Bryan replied to that communication, but publication of the note was withheld today because it could not be included in the correspondence made public at Tokio. It is understood Secretary Bryan reaffirmed the position of the United States, leaving the subject open for further diplomatic exchanges.

So there the controversy stands, apparently at a deadlock. There are intimations in diplomatic circles that it is being worked around to a stage for arbitration at The Hague. A standard arbitration treaty with Japan now is in force, having only recently been renewed. The proposed treaty halted by Japan's latest attitude, it is understood, proposed to touch on the naturalization of those Japanese already owning lands.

The correspondence in full makes about 30,000 words.

Biggest Rubber Tree of All. What is believed to be the largest rubber tree in the world stands in the Brazilian territory of Acre, on the frontier of Bolivia. Its stem is 27 feet 2 7/10 inches in circumference at the base. For 120 days every year this colossal gives 22 pounds of rubber a day. At present prices this brings in \$2,160 a year, or a fair interest on about \$50,000, to its owners, a family of seven Seringueiros.

LOST! \$1,000,000

THE MILLION DOLLAR MYSTERY

Financial and Commercial

New York Cotton

New York, June 25.—Conflicting crop reports and the disturbing influence of the financial troubles reported in dry goods jobbing circles, caused more or less nervousness and irregularity in the cotton market during today's trading. An early advance on the continued hot weather in the south and relatively firm cables was followed by reactions and the close was steady, but from 1 to 7 points net lower.

The market opened steady at an advance of 2 to 6 points in sympathy with Liverpool and sold about 7 to 8 points net higher during the early trading. There appeared to be quite a good many overnight buying orders around the ring, but the advance met a good deal of resistance and when the publication of the detailed weather report failed to stimulate general buying, prices turned easier under liquidation with active months selling about 5 to 9 points net lower in the late trading.

The closing prices were a point or two up from the lowest on covering. According to official weather reports seventy-seven stations east of the river had maximum temperatures of 100 degrees or over during the past 24 hours.

Spot cotton quiet; middling uplands 13.25; gulf 13.50. No sales. Cotton futures closed steady:

Table with columns for Open and Close prices for July, August, October, December, and March.

New Orleans Cotton

New Orleans, June 25.—The cotton market today stood at a net advance of about ten points in the afternoon session but fell off in the afternoon, closing at the lowest of the day, two points under yesterday's final figures in the morning the trade was inclined to buy on continued warm and dry weather over the belt, but in the afternoon selling increased materially on fears of large July notices in the New York market tomorrow, and bearish talk in connection with the "claf" in failure.

High temperatures were the real sustaining influence on the day. The detailed weather reports figured out the average maximum temperature for the entire belt yesterday at 100 degrees while the returns today indicate fully as high an average. Bears contended this was the best possible check for the spread of the fever but bulls saw nothing but crop disaster in it and for a while bought freely on it.

Cotton futures closed steady. July 13.05; August 13.05; October 12.32; December 12.61; January 12.53; March 12.63.

Spot cotton quiet 1-8 off; Middling 13 9-16. Sales on the spot, 4,27; to arrive 100.

Money On Call

New York, June 25.—Close. Mercantile paper 3 1/2-4; sterling exchange steady; 60 day bills 4 1/2-10; for discount 2 1/2-3 1/2.

Commercial bills 4.85 1-2. Bar silver 56 3-8. Mexican dollars 44. Government bonds steady; railroad bonds heavy.

Call money firm; highest 2; lowest 1 7-8; ruling rate 2; last loan 1 7-8; clearing 1 7-8 a 2.

Grain and Provisions

Chicago, June 25.—Wheat rallied today, but not until after prices had fallen lower than at any time since 1902. Values closed firm at 1 1/2-1 3/4 a 3-8c net advance.

Stocks and Bonds

New York, June 25.—Considering the unfavorable conditions with which the session began—the Chaffin receivership—today's stock market gave a fairly good account of itself. The troubles of this concern became known soon after the close of business Wednesday and the financial community viewed the prospect with considerable concern.

Trading today was on an uncommonly large scale, the overturn approximating half a million shares. Activity was altogether at the expense of values, however, many prominent issues declining 1 to 2 points, while some obscure stocks fell 3 to 5 points.

United Dry Goods preferred declined to 65, a loss of 17 points on the day and a total decline of 31 1/2 in two days. The shares of other mercantile companies were sentimentally affected, but not to any marked extent. Opening prices generally were lower, but standard stocks held remarkably firm under the final hour.

The late selling was attended by more unfavorable news including the passing of the New York Ontario and Western Railway dividend, reduction of the Wells Fargo Express dividend, and a batch of unfavorable railway returns for May. The signing of the peace protocols by the Mexican mediators was utterly ignored.

London was active in the initial trading, selling about 25,000 shares. Europe's big banks made favorable weekly exhibits.

Bonds were heavy with 1 to 2 points losses in minor issues. Total sales par value, were 1,243,000. Government bonds were unchanged on call.

Cotton Seed Oil

New York, June 25.—Cottonseed oil was steady, closing practically unchanged from last night. Refiners were taking hedges in July and selling September. The selling of July was for long account. There was, also considerable switching of July to August and September. Total sales were 20,000 barrels.

Liverpool Cotton

Liverpool, June 25.—Spot cotton firm; good middling 8.17; middling 7.65; low middling 7.15. Sales 5,000; application and export 300. Receipts 26,000.

RESOLUTE STILL STRONG

Apparently the Herreshoff Boat Will Defend the Cup. Glen Cove, N. Y., June 25.—Resolute had to fight for her vaunting honors today, for her cup class rivals, Defiance and Vantile, gave her a merry tussle over the greater part of the 33 3/4 miles in upper Long Island Sound. The Herreshoff boat was forced to fairly fly over the last ten miles to overcome a four minute time allowance conceded to the Defiance. Time allowance cost the Vantile second place after leading the Defiance by three minutes and 14 seconds and the Vantile 8 minutes and three seconds in corrected time. The trio will race again tomorrow and Saturday.

TO FORGET ADAIR

People of Atlanta Honor Their Distinguished Citizen. Atlanta, Ga., June 24.—"Forrest Adair, Citizen and Shriner," is the simple but eloquent inscription on the tribute of Atlanta people at large to the man whose untiring effort made the recent Shrine convention such a success. The tribute is a loving cup of gold, resting on a gold plate and bearing a Shriner's pin of diamond, Jasper and tiger claws. It cost \$2,500 and was paid for by voluntary gifts of the general public.

On the reverse of the cup is the inscription "Commemorating loyalty, zeal and ability three qualities by which Forrest Adair made possible the success of the convention of the Imperial Council A. A. O. N. M. S. in Atlanta May 12-13, 1914."

South Carolina News. Ernest F. Slater, of South Carolina, has been appointed by President Wilson to be assistant surgeon in the medical corps of the navy. Richard Frankling Galtner, of Kentucky, is the new president of Orangeburg College. Definite plans have been made for a political rally at Batesburg on July 7th when State and Senatorial candidates will speak.
