EMIGRATION IS DISCHARGED
Southern Railway Will Not Encourage Settlers to Go to the Northwest.

Washington, July 4.—No more low one way colonist rates from any point on its lines to the west and northwest will be sold by Southern Railway company. President Harrison announces that Southern Railway Co. has permanently withdrawn from participation in such rates from points where they have been in effect by Southern Railway to meet similar rates offered by competing lines.

This announcement is in accordance with the policy of President Harrison to do everything possible to discourage the people going from the south. For a number of years Southern railway has endeavored to discourage the offering of low colonist rates from the south and has only placed them on sale at points where it was felt necessary to meet competition. From this time on, however, no such rates will be offered by Southern Railway regardless of any action that may be taken by any other line. Southern Railway will continue to offer home-seekers rates into the south will do everything possible to encourage the coming of desirable settlers to the territory along its lines.

President Harrison feels that the south offers greater opportunity than any other section and that people living in the south cannot improve their conditions by moving and that consequently the decision to withdraw permanently any rate which might serve as an inducement to some persons to leave the south is in their interest as well as in the general interest of the south and of Southern Railway Company.

Soldier's Most Trying Position.
The average soldier finds the most terrifying position to be that of standing motionless in the front rank, exposed to the enemy's fire without being able to reply. The order to advance or to charge with fixed bayonets is then received as a release from agony. Movement, even into greater peril, distracts the mind and greatly reduces the mental anguish.
