VILLA AND CARRANZA'S ARBITRATORS HOPELESSLY DISAGREED

TROUBLE BREWING

Over Printing and Misdirecting Thirty Million Pesos By Constitutional Agent

Washington, July 6.—The Mexican situation tonight appeared to be at a standstill. It generally was believed here that no arrangements for a meeting to settle Mexico's internal troubles could be made until the conference at Torreon adjusted differences between Villa and Carranza. This probably will consume several more days.

Dr. Romulo S. Naon, Argentine minister, one of the South American mediators, today discussed mediation at length with Secretary of State Bryan. After the conference Dr. Naon reiterated his expression of hope that Carranza and Villa would soon adjust their troubles and that Carranza would be authorized by the leaders of the revolution to send delegates to confer with Huerta's representatives. Agents of Carranza here received reports from the Carranza-Villa conference at Torreon, which they insisted held out strong encouragement that all the troubles of the constitutionalists could be amicably settled. The case of General Angeles, Villa's chief of artillery, whom Carranza recently denounced, is said to be the chief matter of contention now. Politicians are reported to have misrepresented Angeles to Carranza, and it is predicted that Angeles will be restored to the confidence of the first chief.

Report Herta Chosen

Meager reports of yesterday's election in that part of Mexico controlled by Huerta, in which General Huerta is said to have been re-elected, though by such a scant vote that the election may be declared void, caused no excitement in official circles here. President Wilson smilingly declined to comment on it. There was an undercurrent report, however, that the election was designed to pave the way for some stratagem by Huerta. The rumor still persisted, that he contemplated turning the office over to Pedro Lascurain and leaving the country. Unofficial reports were circulated that a special train bearing members of General Huerta's family and families of some of his general had left Mexico City during the day for Puerto, Mexico.

An echo of trouble arising over the printing and misdirecting of thirty millions pesos of constitutionalist money in Washington came today when a warrant was issued and forwarded to El Paso for the arrest of Santiago W. Winfield, an agent of the constitutionalist treasury department, charging him with embezzlement.

WALHALLA WANTS BOTH THE TRAINS

Say That Motor Car Should Be Extended To Walhalla For Afternoon Trip Also

The editor of The Daily Intelligence was in Walhalla for a few hours and heard many comments upon the determination of the Blue Ridge to switch the gas-electric train to that end of the line. Everybody is much pleased over the prospect and promise to give the strongest kind of support, and boosting to the proposition.

Some of the Walhalla people urge that the afternoon arrival of the gas-electric be extended from Seneca, the proposed stop of the motor car on its second trip. One well informed gentleman says "Walhalla wants the afternoon motor service on the Blue Ridge and feels that conditions are such as amply to justify it. Walhalla is the terminus of the road and the gateway to the mountains, then why stop the afternoon car at Seneca when it is only one mile from Walhalla or a run of about 20 minutes.

"If the afternoon trip is extended to Walhalla it will eliminate a delay of from two to four hours at Seneca for Walhalla-bound traffic, passengers and mail, and also will give us late afternoon service out of Walhalla with close connections with the Southern main line. In view of the above facts, we trust Capt. Anderson can be induced to give Walhalla and West Union the same service that will be enjoyed by all the other points on the Blue Ridge.

MANNING MADE EXTEMPORE TALK TO BELTONITES

Liberal Applause Given Speaker On Splendid Oration That Was Rendered

Belton, July 6.—Hon. Richard I. Manning, who is making the race for governor, and who is expected to be one of the leading candidates in the race, spent today in Belton, having come from Spartanburg to meet the voters of Belton and vicinity. Mr. Manning has many strong friends here and spent the day very pleasantly meeting them and making new ones. During the evening a conference was held here with a number of the strong personal and political friends of Mr. Manning. These are quite enthusiastic over the outlook and are predicting a big vote in Anderson county for their favorite.

Yielding to requests of the crowd, Mr. Manning delivered a strong address late in the afternoon. There were present 250 voters besides many ladies and children. For an hour the speaker held the undivided attention of his audience, being accorded a generous amount of applause. The introduction was made by Prof. J. B. Watkins, who paid high tribute to the worth of the candidate.

Asked Harmony.

Mr. Manning began his address with a plea for harmony in the state. He decried the appeals to prejudice and passion, and hopes the voters will cast their ballots for the men they believe fittest to fill the office for which they are aspiring. He discussed the issues of the campaign and announced his stand on the many interesting questions being discussed over the state just now.

The speaker was especially bitter in his denunciation of the violation of law in allowing the race track gamblers to hold their carnival of crime in South Carolina, although there is a law on the statute book prohibiting such meets to be held. He said if he were elected governor he would issue an order only once, and if it were not obeyed the official head of the person who refused would fall. Speaking of the pardoning power of the governor, Mr. Manning said that if he were elected that he would doubtless grant some pardons, but that they would be from meritorious reasons, and based on evidence that there had been a grave miscarriage of justice. He did not believe in the wholesale use of the pardoning power, thus setting aside the verdicts of juries and destroying the efficiency of the courts. He would know no friend or foe in the discharge of his duties as governor, including the pardoning of persons convicted of crime.

Compulsory Education

He discussed at some length his views of the compulsory educational matter now being made an issue of the campaign. Mr. Manning's position is favoring a local option compulsory law, that is letting each school district or county decide the matter of having compulsory education or not. He argued that the entire state is not yet ready for the use of this law, and that if it were forced on it by legislative enactment it would result in as great farce as would the passage of a prohibition law in Charleston. No better use could be made of the expenditure of money than for education, and education will not come cheap. He stated that State Superintendent of Education Swearingen said that if a compulsory law were enacted now that the school facilities would not accommodate the children that would be forced into school, and it would result in overcrowding teachers thus destroying the efficiency of their teaching.

The speaker stated that a business administration of affairs is needed, and referred to the fact that the present governor is at loggerheads with all the departments, and that it is costing the state at least \$25,000 on account of the failure to arrange the matter of the refund of the debt. The reception given Mr. Manning was very cordial and he was several times applauded. Many comments favorable to him were heard.

GRAIN FESTIVAL

Anderson county farmers are interested in the grain festival. Different sections have sent word to the Anderson Chamber of Commerce, saying that their farmers will have exhibits here on July 21 to contest for the various prizes. All told these prizes will aggregate \$255 in cash and they are well worth working for. The best bushel of oats in all the selections will receive the garden prize of \$100 offered by Furman Smith. Anderson farmers should realize that this is a great opportunity for them and should take advantage of it. Remember the festival is to be held on July 21.

CONFIRMATION BY THE SENATE OF DIRECTORS

TWO OTHERS NAMED BY PRESIDENT HAVE NOT YET ACCEPTED

JONES ON STAND

Makes Statement In Regard To the Harvester Trust and the Zinc Mines

Washington, July 6.—The nominations of the five members of the Federal reserve board—Charles S. Hamlin, W. P. G. Harding and A. C. Miller, were confirmed today.

The nominations of Paul M. Warburg of New York, and Thomas Jones of Chicago, have not been acted upon by the banking and currency committee and probably will not be before the end of the week. It was stated tonight that Mr. Warburg would ask the president to withdraw his nomination, but acting chairman Hitchcock, of the banking committee, tonight telegraphed an invitation for him to appear on Thursday and submit to the committee's questions. It was suggested, however, that Mr. Warburg probably would decline the invitation and that this would be followed by an announcement from the White House that the nomination had been withdrawn.

Mr. Hamlin, Mr. Miller and Mr. Harding take the oath of office within a few days and the work of setting in motion the new Federal banking system can be begun at once. The secretary of the treasury and the controller of the currency are ex-officio members of the board, which consists of seven members. The five will constitute a quorum to practically all the preliminary business.

Had Jones Talking

Mr. Jones was before the committee for nearly four hours today to tell of his relations with the International Harvester Company and the New Jersey Zinc company, both so-called trusts. He was questioned at length by the members. No proposal was made to the vote on a report to the Senate on his nomination, but it is regarded as probable that if approval is given it will be close.

Senator Hitchcock was authorized to give out information secured from Mr. Jones. His report in substance was:

Mr. Jones was asked about his relations to large enterprises, one of which was the International Harvester Company. Mr. Jones said he became a director of that company in April 1909, purchasing one share to qualify, at the request of Cyrus H. McCormick, an old friend. He said he fully approved of all actions of the company since he became a director and believed that they were proper and within the law. Mr. Jones also announced he is in accord with the company's policy and said he had nothing to lose or gain by the decisions of the courts in the anti-trust suit in the Harvester case.

Owning Zinc Mine

Prior to 1897, Mr. Jones told the committee that he owned a zinc mine at Minear Point, Wis., capitalized at \$400,000 which came to him and his brother in satisfaction of a debt. This company was taken over by the New Jersey Zinc company then capitalized at \$4,000,000 and the Jones brothers were given \$900,000 in stock of the New Jersey company. The New Jersey company acquired other properties an increased its capital to \$10,000,000. It now produces 20 per cent of the smelter of the United States, 3 per cent of the sulphuric acid and 85 per cent of the oxide of zinc. As a result of the various consolidations the dividends of the New Jersey company last year were \$5,000,000 and the year before \$4,000,000.

POWER PLANT KNOCKED OUT

Some writer has said that "Life is just one thing after another," and this was said, too, before the publication of the modern newspaper, the advent of electricity, or the knocking out blows which a thunder storm can give. Last night a terrific thunderstorm at about midnight put the electric power plant to the bad, and as a result this newspaper was without power for several hours, resulting in the missing of the first mails, and the leaving out of some important news matter. This is regretted but cannot be helped.

POLICE PLANNING FOR SUPPRESSION

Conference Held To Make Systematic Fight Against Anarchy Following Deaths

New York, July 6.—One aftermath of the dynamite explosion which wrecked a Harlem tenement house on Saturday and killed four persons, was a conference of police officials today at which a campaign was planned with a view to suppressing the activities of anarchists, Industrial Workers of the World and kindred agitators in this city. Of the four who met violent deaths Saturday, Arthur Caron and Charles Berg were reputed to be I. W. W. members and Carl Hansen was allied with anarchists.

An immediate result of the conference today may be a decision by the city authorities not to grant a permit for a public funeral for Caron, Berg and Hansen in Union Square next Saturday. Alexander Berkman, anarchist, has announced that his followers have arranged for such a funeral.

It was also suggested that the police request the health department to order the bodies buried at once and in this way call off the proposed funeral.

Michael Murphy, of Aupent, who escaped his companion's fate in the explosion Saturday, has eluded the police who want to question him as to his knowledge of a possible plot to make use of explosives in Westchester county, either at the estate of John D. Rockefeller in the Tarrytown court where Caron, Berg and others were to have been tried in connection with the anti-Rockefeller demonstrations.

Murphy was identified today as apparently the same man who twice visited vainly to force his way into Mayor Mitchell's office a few days after an attempt had been made on the mayor's life in April. He wanted to complain that a magistrate had unjustly fined him for speaking publicly without a permit.

BUSINESS MEN READY FOR THE BOOSTER TRIP

ON A TRADES GRATIFICATION TOUR

WILL GO MONDAY

To Celebrate Inauguration of the Gas-Electric Service, Party Will Go To Walhalla

Every business man in Anderson is invited to make the Business Men's Trade Gratification trip to Walhalla next Monday. The party will leave here at 7:25 on the gas-electric car and go through to Walhalla where a meeting will be held with representatives of that progressive city and various business men from points on the new mountain highway between Walhalla and Lake Toxaway which has just been opened to the public.

The Trades Extension committee of the Chamber of Commerce, under whose auspices the trip will be held, had a special meeting yesterday afternoon and while no special canvass will be made, the making of the trip being left open to all business men, it is desired that every one desiring to go will leave their name at the office of the Chamber of Commerce as soon as possible, so that we may be able to ascertain just who will go.

Dinner will be served at Walhalla. The cost of the trip will be borne by each person who goes, but it is believed that a special party can and will be secured.

There is a dual idea back of the trip, according to Mr. L. Gelsberg of the Trades Extension committee, who is acting as temporary chairman of the committee in the absence of chairman B. O. Evans, now in the East. The dual idea is to celebrate the inauguration of gas-electric car service and also to the completion of the new transmountain highway via Anderson and Walhalla to the Carolina Highlands, and on to Lake Toxaway. It is estimated that not less than 50 business men will make the trip. It has not been decided yet who will act as chief spokesman for the Anderson party. It is believed, however, that this will be offered to Mayor Holleman, provided he will accept the same.

NO SALEM HELP

House Refuses to Act Favorably Upon Wilson's Request. (By Associated Press.)

Washington, July 6.—Members of the Massachusetts delegation in the house strove vainly today for favor-commendation that \$200,000 be appointed to relieve the Salem fire victims.

After the appropriations committee had refused to report a bill to provide the money, a motion to adjourn blocked an attempt to have the house act over the committee's head and the matter went over indefinitely.

RESIGNED HIS PORTFOLIO TO TALK FREELY

FRED WILLIAMS GAVE UP GREEK DIPLOMATIC POST VOLUNTARILY

IS NOW ENROUTE

Wilson Had Changed His Gage Because of Albanian Story He Fathered

HINDUS CAN'T LAND

Court of Appeals Decided Against Wealthy Hindu—Test Case Made.

(By Associated Press.)

Washington, July 6.—Formal announcement of the resignation of George Fred Williams as minister to Greece and Montenegro was made today at the state department.

Secretary Bryan issued this statement without comment: "Mr. Williams requests Secretary Bryan to tender to the president his resignation as minister to Greece and Montenegro. He says that the reason for his resignation is that he cannot comment upon the situation in Albania as he would like under the restraint imposed by his diplomatic position and that he does not feel that he can conscientiously keep silent with the knowledge which he has of what is being done.

"He says that he considers the success of the president more important to the world than all of the efforts of other men, and does not wish to embarrass him and wishes to thank him for the consideration which has been accorded him."

President Wilson is expected to accept the resignation tomorrow and close the brief and extraordinary career of Mr. Williams as a diplomat. Aroused over press dispatches continually quoting the minister as bitterly criticizing conditions in the new Kingdom of Albania and arraigning the powers, the president caused his resignation to be asked for by cable last Friday night. It is understood, however, that Mr. Williams already had the resignation on the way to Washington.

No Precedent.

The case is said to be without precedent in the history of the State department. It is not recalled that an American diplomatic representative before has gone outside of his post to discuss the affairs of another country.

In the present instance the comment was regarded by the State department as peculiarly untimely and ill-advised because of the extreme jealousy with which the European powers have guarded the Balkan powers. It is considered by them as one to be dealt with by European powers alone, their position being precisely that of the United States government in regard to the Monroe doctrine.

It was recalled tonight that even in the most desperate phase of the Balkan war, when the allies were closing in on Constantinople and many of the diplomatic representatives in that city were calling upon their government for help, the six powers interposed an effective objection to the appearance of American warships in the Dardanelles.

Secretary Meyer had rushed two armored cruisers to the aid of the American contingent in the Turkish capital and on the shores of the Bosphorus. But these ships never got within the Golden Horn, for as soon as they neared the Dardanelles they were diverted to the coast of Asia Minor at the request of several of the European powers, while Great Britain took upon her shoulders the protection of all the Americans in that quarter of the world.

It is now known that early in his mission, Mr. Williams sought to have his powers extended to include Albania, but the State department declined. However, it did consent to Mr. Williams' earnest request to be allowed to make a personal investigation of the Albanian situation, and there followed the statements concerning newspapers which led to his resignation.

Mr. Williams was once a member of congress years ago and is a close friend of Secretary Bryan.

There were no campaign meetings yesterday. Tuesday candidates for governor and the United States Senate will attend a big picnic at Batesburg, Wednesday, candidates for the senate resume, speaking at Unio. Candidates for state office speak Thursday at Lexington.

MANIFESTED INTEREST IN SCHOOL'S SUCCESS

SPLENDID ADDRESS FEATURED MEETING

MANY WERE HERE

J. F. Swearingen, Dr. LaBruce, W. C. Miss Hite and Miss Garlington Made Addresses

That Anderson county is deeply interested in education is a fact well known and yesterday's meeting of the county school trustees further demonstrated this fact. The attendance was good and the trustees paid close attention to every word uttered by the several speakers during the day.

The meeting was called to order with Dr. W. A. Tripp, president of the association, in the chair and Dr. C. L. Guyton was secretary. The committee on constitution, appointed at the last meeting of the body, made its report and a splendid set of rules met with the approval of the entire body. The constitution submitted was adopted.

A feature on the program was an address by J. E. Swearingen, superintendent of education, and he handled his subject in a very practical manner. He stressed especially the necessity of running all schools for not less than seven months and assigning to one teacher not more than 50 pupils. He spoke from the view point of one with experience in such matters and he told his hearers how the best results are to be obtained.

Another address of great interest was that of Miss Mary Eva Hite, of the Rural School Improvement Association. Miss Hite stressed the importance of having good, clean, comfortable school rooms and pointed out that much better work could be done in such surroundings. She advised her hearers, if they desired to realize the most good from their schools, to erect such buildings.

Miss Magale Garlington, rural school supervisor for Anderson county, followed Miss Hite and told of her experiences in Anderson county schools and outlined the work that she hopes to accomplish in the future in this county. Following Miss Garlington's address, the body adjourned for dinner.

The afternoon session saw one of the most interesting and instructive features of the day, the address by Dr. J. LaBruce Ward, director of rural sanitation in South Carolina. Dr. Ward's name is familiar in almost every section of the state, because of the splendid work that he has done. He has been largely instrumental in ridding South Carolina of the hookworm and in various other ways has done much to improve conditions in this state.

WORK IS STARTED ON LAYING WATER MAINS

CONTRACT AWARDED TO BLAKENSHIP & McCLELLAN

BEGAN YESTERDAY

Southern Public Utilities Co. Is Expending Between \$20,000 \$25,000 On Improvements

Work was begun yesterday on replacing the four-inch water mains in Anderson with six-inch pipes and the contractors will hurry the improvements along as rapidly as possible.

It was announced yesterday by the Southern Public Utilities Company that the contract for the work had been let to Blankenship & McClellan, a well known contracting house of Charlotte, N. C., and these gentlemen had a force of hands in the city yesterday, beginning the work. They will later increase this force and use all possible haste in getting the new mains ready for use.

This step means a wonderful improvement in Anderson's water service, especially for fire fighting purposes, but it also represents quite an outlay of money for the local company. They estimate that it will cost them \$25,000 to have the work done and it will certainly cost not less than \$20,000.

Unwarranted Liberty.

You are taking a liberty when you pat a strange horse on the nose. Suppose horses went around patting men on the nose.—Louisville Courier-Journal.

SLEUTHS BEGIN INVESTIGATION BAILEY MURDER

TEN NOTED DETECTIVES WORKING ON CASE DAY AND NIGHT

NEW WITNESSES

Give Testimony, Character of Which Is Unknown—Sheriff Won't Talk

Freeport, N. Y., July 6.—The head of a national detective agency tonight began an investigation into the murder of Mrs. Louise Bailey, who was killed mysteriously in the office of Dr. Elvin Carman last Tuesday night. This detective is in the employ of the Nassau county authorities and ten men from his office are working on the case.

After the chief had inspected the grounds and the Carman house, he returned to the lawn and the murder was rehearsed.

The inquest into the murder of Mrs. Bailey was abruptly adjourned today until Wednesday. This action was taken in order to give the authorities a chance to investigate several new clues and to look into the story told last night by Dr. Carman, who informed the police that a bicyclist who had followed the automobile from Rockville Center, near here, had fired three shots at him while he was driving along a lonely stretch of the road.

Secretly Questioned. It was learned later from Sheriff Pettit that after it had been decided to adjourn the inquest, two witnesses, whose identity the sheriff refused to disclose, had been brought into the Elks' Club, where they underwent an examination, lasting more than an hour, behind closed doors. The sheriff refused to discuss his conversation with these witnesses, further than to say that their statements were of the highest importance.

Four persons living near the spot where Dr. Carman said the attempt was made upon his life told the investigators today that they too had heard shots. Detectives were unable, however, to find any one who had heard the shot which J. W. Huff, Jr., a resident of Lynbrook, a neighboring village, said today was fired at him early today while he was driving his automobile outside Freeport. Huff, who resembles Dr. Carman in figure and face, is the owner of an automobile of a type similar to the one of several owned by the physician.

Stories Didn't Tally. The inquest was adjourned after several witnesses had been heard. Two of these witnesses, Miss Hazel Combs, a patient of Dr. Carman's and Miss Anna Kahn, a friend who accompanied her to the office of the physician, less than an hour before Mrs. Bailey's was murdered, flatly contradicted Mrs. Carman's statement that she was not walking around the ground floor of her home last night, was not in her husband's office and had not admitted any patients.

Both of these women swore that they had seen Mrs. Carman enter her husband's office to answer the telephone and corroborated the testimony of George Golder, the witness who testified Friday that Mrs. Carman had admitted him to the house.

The corroboration combined with the testimony given by a negro maid in the Carman house, constituted what was declared by District Attorney Smith to be the most important information elicited during the day's proceedings. The maid, who admitted that she had a long talk with George Levy, counsel for Mrs. Carman, after the murder, appeared to be troubled with a serious loss of memory to many vital questions she answered. "I don't remember." When asked if she knew what perjury was, she asserted that sometimes he could remember events and sometimes she could not.

STORM VISITED CITY LAST NIGHT

Tremendous Electrical Display Put Lights Out of Commission and Started Fire

Shortly after midnight last night an electrical storm broke on Anderson county. The display was wonderful and ash after ash of lightning brought downing peals of thunder. The electric lights in the city would go out and come back on at intervals of about minutes. Finally the rain came and fell in torrents for a few minutes, then ceased.

From the city a bright glow could be seen, appearing shortly after the storm began and it is presumed that a house was burned somewhere in the western part of the county. It seemed that it was several miles in the country, but it was impossible to get any details about the blaze last night.
