#### Stocks and Bonds

New, York, June 7.—Trading in stocks today was without definite trend until the final hour when the list was lifted out of its early lethargy to the apprompaniment of considerable activity. Gains of 1 to 2 points then occured. Chiefly on the shares of the Eastern railroads, which gave rise to renewed rumors of an early an-nouncement in the impending freight

nouncement in the impending freight rate cases.
For the greater part of the session the price movement was irregular on a minimum of dealings. Specialties were again conspicaous by their unexplained gains of 2 to 4 points. The Gould sharer were active at marked recessions, Missouri Pacific losing 2 points and the collateral bonds 5. Rock Island recurities established a new tow record.

General news of the day was not helpful, to the constructive side. In-dication for further delay in the make up of the Federal reserves bonds was

a fest of 1 points. At the lowest of the day the trading months were 15 to 16 points under the last prices of yesterday. Late in the aession some little support developed, but during the greater part of the session buying orders were scarce.

The main hearish interior of the day was the report from England that milks were about to go on short time. Another bearish influence was found in the weekly crop and weather reports from the weather bureau. They were decidedly better than expected, and brought out a considerable volume of short selling.
