## LEGAL NOTICES

**Delinquent Road Tax Notice.** All delinquent road tax collectors are provided with an official receipt book with numbers, and stub numbers attached. Pay no money to collectors unless you get the official receipt as above provided for.

J. MACK KING, County Supervisor.

**Notice to Members of Enrollment Committees, Secretaries of Clubs and Voters.**

It is absolutely necessary for every citizen who intends to vote in the coming primary election for State and County Officers, member of Congress and United States Senator, to personally enroll his name upon the club roll. Sign the roll nearest to your residence by the most direct practical route. Sign your name in full. There is some apprehension that a great number of citizens will fail to place their names upon the roll and thereby be deprived of voting, either through indifference, procrastination, or close application to business.

Those who neglect to take time to enroll before the book closes which will be on the 28th day of July, cannot vote.

It is the duty of the members of the enrollment committees of the various clubs to keep the enrollment books in a convenient place in the precinct accessible to those desiring to enroll their names.

The secretaries are notified to impress upon all those who have not enrolled the importance of doing so before the books are closed.

S. D. POARMAN, County Chairman.

M. M. HUNTER, Administrator.

### THE COW AND HER PRODUCT.

(These notes are prepared weekly by the Dairy Division of Clemson College, which will be glad to answer all questions pertaining to dairying.)

The farm cow should not be locked in the stable at night without ample ventilation. Where there is no arrangement for ventilation the cow should be left in the lot at night.

Washing the udder before milking helps to keep down disease germs. A cow should be free from excitement just before and at milking time. Abuse or excitement will affect the flow of milk.

A calf should be weaned from its mother within three days after its birth. The milker's hands must not only be clean but also dry.

Never mix warm cream with cool cream. Let the warm cream cool first.

The best milk house is small, with no room for junk. Straining does not purify milk. It merely gets out the visible dirt. That which cannot be seen is the most harmful.

It costs less to deliver butter fat than any other crop on the farm. Cleanliness is the most important rule in the dairy. It must begin with the cow and the milker.

## "T. R." Is Busy In Politics Despite the Doctor's Orders

Photo copyright, 1914, by American Press Association

"HOME again, home again, from a foreign shore," and ready for the political fray is former President Roosevelt, defying the doctor's orders. He will make a number of speeches in spite of the announced weakness of his throat and give interviews endorsing Progressive party candidates. Mr. Roosevelt states that his medical advisers are alarmists and that they have underestimated his strength. His announcement that he would not run for governor of New York has aroused widespread interest.

### New York Cotton

New York, July 8.—After making new low ground for the movement during today's early trading the cotton market recovered most of the loss owing to the failure of detailed weather reports to show any important precipitation in the southwest. Demand did not become active or general, but offerings were comparatively light during the afternoon and the market closed steady at a net loss of only 1 to 5 points.

Easy Liverpool cables, reports of scattering showers in Texas and the pessimistic view of the cotton goods trade situation seemed to be responsible for the early selling movement. The market opened steady at a decline of eight points on old crop and of 2 to 4 points off new crop positions, with the near months probably influenced by the sharp break and comparatively small volume of business in the English spot market.

Houses with Liverpool connections were buyers of December and January contracts here during the early trading, and after some irregularity the market sold 10 to 15 points lower. The failure of reports to indicate any precipitation in the southwest and the high temperature shown in the Houston district checked the selling movement, however, and prices rallied some 8 to 10 points from the lowest. Cotton futures closed steady.

### New Orleans Cotton

New Orleans, July 8.—After displaying uneasiness in the morning session and a fall of 8 to 11 points, the cotton market steadied up after the noon hour and recovered nearly all of its loss, closing at a decline of only 2 to 3 points on the new crop months. Buying late in the day was chiefly for the account of shorts who wanted their profits. This demand was met by only slender offerings. Bulls claimed that the market was sold out and oversold.

The morning session saw a lower market on the useful exports of June cloth from England and favorable weather and crop reports from the belt.

Cotton futures closed steady, July 1227; August 1227; October 1227; December 1228; January 1231; March 1240.

Spot cotton steady, unchanged; middling 13 5-16; strict middling 13 11-16. Sales on the spot 895 bales; to arrive 105.

### Liverpool Cotton

Liverpool, July 8.—Cotton, spot easier; good middling 787; middling 735; low middling 687. Sales 5,000; speculation and export 500. Receipts 5100. Near months closed easy, distant

steady, July 704; July and August 704; September-October 667; December-January 653; February-March 651 1-2; April-May 656 1-2.

### Cotton Seed Oil

New York, July 8.—Cotton seed oil was weak under heavy liquidation of August and September, which carried prices off 5 to 13 points from last night. Scattered covering of shorts, however, caused a slight rally near the close, final prices showing a net loss of 3 to 9 points. Sales 35,100 barrels.

The market closed firm. Spot 720 and 730; July 721 and 724; August 730 and 734; September 737 and 738; October 719 and 720; November 682 and 685; December 671 and 673; January 671 and 674; February 673 and 676.

### Money On Call

New York, July 8.—Mercantile paper 3 3-4 and 4 1-4. Sterling steady. Sixty day bills 4.85-90; demand 4.87-75.

Commercial bills 4.85 1-2. Bar silver 56; Mexican dollars 44; government bonds steady; railroad bonds easy; call money firm, 2 1-2 and 3; ruling rate 3; closing 2 1-2 and 3-4. Time loans firm; sixty days, 2 1-3; 90 days 2 3-4; six months 3 3-4.

### Stocks and Bonds

New York, July 8.—Persistent selling of the various securities which represent the Gould system of railroads at heavy recession was the outstanding feature of today's stock market. Missouri Pacific issues, including the stock and four per cent collateral and five per cent convertible bonds, fell to lowest quotations reported in many years, some selling at absolutely low records. The movement soon spread to Denver and Rio Grande railroads, and Missouri Kansas and Texas Railway issues, and later embraced other cheap transportation stocks of which incidentally Rock Island collateral bonds sold at new low record.

The usual market leaders were plainly inclined to break away from the spell cast upon the market by the depression in other quarters. Such stocks as the Southern Pacific, Pennsylvania and American Smelting were in demand at substantial gains, while others in that class reflected a firm undertone. London's markets were disposed to droop, that center showing no outward interest in the success of the French loan. The Bank of England virtually got all the gold from South Africa in the absence of any competition. The Paris Bourse was heavy, but Berlin's market was firm.

Bonds in general developed an easier tendency, owing to the weakness of the Gould issues. Total sales par value, \$1,850,000. United States bonds were unchanged on call.

# STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advice from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Thedford's Black-Draught, and

taking other medicines. I decided to take his advice, although I did not have any confidence in it.

I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it.

I am so thankful for what Black-Draught has done for me."

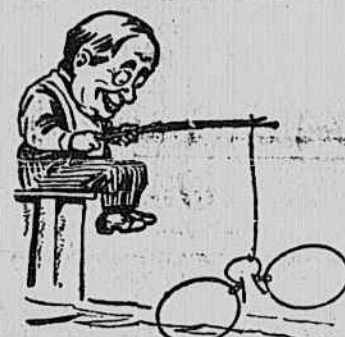

Thedford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest.
