### COTTON CROP ON THE MAKE

**WEATHER CONDITION OVER THE ENTIRE BELT VERY FAVORABLE**

### RAIN STILL NEEDED

**The Showers Have Been Beneficial But There Is Not Enough Moisture Yet**

(By Associated Press)

Washington, July 14.—General favorable weather in the cotton belt during the past week was reported today in the National weather and crop bulletin. It said: "Generous showers over the eastern states greatly favored growth and the plant is generally reported as being in good condition. In the central portions of the belt local rains greatly benefited the crop in Arkansas and Louisiana, and in parts of Mississippi, but rain is badly needed in the last named state as well as in Tennessee.

"In Texas and Oklahoma but little rain occurred and the soil is now becoming very dry; the early planted cotton is reported as doing well, however, but the late planted is much in need of rain."

Reviewing the weather of the week in the South Atlantic states the bulletin says:

"Virginia: Cool weather, with frequent showers in most sections, brought about a fine growth of vegetation, and crops are now nearly abreast of the season. Corn has improved greatly, and tobacco, gardens, and truck crops are doing well."

"North Carolina: Good growing weather prevailed, with scattered showers and ample sunshine. Crops made satisfactory progress with further improvement in truck. Tobacco is irregular."

"South Carolina: Splendid rains greatly improved the agricultural outlook, although moisture is still needed in portions of the northwestern counties. Destructive hail storms visited several northwestern counties. Cotton is promising."

"Georgia: Showers reached all sections, and with moderate temperatures made the week very favorable. Corn is recovering with difficulty from the effects of the drought, but cotton, tobacco, field peas, and pastures made excellent growth."

### BAILEY MURDER BEING PROBED

**DETECTIVES HAVE STRUCK A NEW CLUE THAT MAY GET RESULTS**

### MAID DENIES STORY

**Did Not See Mrs. Carman Until After Murder Is Story Now Told**

(By Associated Press)

Mincola, N. Y., July 14.—While the grand jury today was hearing nine witnesses tell what they knew about the mysterious murder of Mrs. Louise Lalley and the actions of Mrs. Florence Conklin Carman just before and after the crime, detectives were running down a new district attorney Smith said he believed to lead to the finding of the two strange women whom Mrs. Carman and her sister, Mrs. Ida Powell, said they saw hurrying away directly after Mrs. Bailey fell to the floor of Dr. Edwin Carman's office in Freeport with a bullet through her heart.

These women, the district attorney asserted, may offer corroboration to the testimony of Elwood T. Barden at the inquest and the story told the grand jury today by Celia Coleman a negro maid in the Carman home.

**Cause of Arrest.**

Barden's statement that he saw a woman dressed as Mrs. Carman was dressed walk away from outside a window in Dr. Carman's office immediately after Barden heard a crash of glass and the report of a revolver, was responsible for Mrs. Carman's arrest.

The negro maid today, according to reliable authority, said that after she heard the tinkle of breaking glass and the report of a revolver, she misty hurried into the kitchen through back door and went upstairs. At the inquest the maid denied she had seen Mrs. Carman the night of the murder from dinner time until fifteen minutes after the shot was fired, when she said Mrs. Carman was in her room.

### Corroborates Story

Dr. Carman's story, it is understood, was much the same as the one he told at the inquest. The murdered woman's family and relatives were called to tell of her actions the day of the murder and of how they were informed of her death.

### Witness Uncertain

George Golder, a patient in the Carman house at the time of the murder, has changed his story since the inquest at which he said he was sure it was Mrs. Carman he saw walk through the hall just prior to the murder and that he also was positive he saw her on the porch and in her husband's office while Mrs. Bailey's body was lying on the floor. His revised assertion is that he is not sure the woman he saw was Mrs. Carman.

### BLEASE TO SIGN FOR THE LOANS

**Will Cooperate To Get Money To Finance The State This Fall**

Abbeville, July 14. Governor Blease made the statement that he had signed a note for \$350,000 with the State Treasurer and Comptroller General at 3-1-2 per cent from the Palmetto National Bank of Columbia. This amount will supply the state's expenses until the new taxes are paid in January 1915. The loan will be repaid on Jan. 15. Gov. Blease vetoed the item in the appropriation bill for recent legislation granting authority to the borrowing board to meet the running expenses of the state. Authority for the present loan is derived from a statute of 1909.

### WOUNDS HIS WIFE THEN KILLS SELF

Wilmington, N. C., July 14.—After shooting and seriously wounding his wife, on a street corner here tonight, Everett O. Brice, 35 years old, Atlantic Coast Line Railroad switchman ran into a nearby yard and finding that he was likely to be surrounded by officers, shot himself through the head, dying instantly. He and his wife had not been living together for some time. For several days he had been pleading with her to live with him again, it is said, but she had refused. It is supposed that this was the cause of the shooting. The woman was sent to a local hospital and will recover.

### SENATORS BLAMELESS

**Exonerated From Charges Preferred in Gold Hill Transaction.**

Washington, July 14.—Exoneration of all senators concerned in the charge of misuse of official letter paper for promotion of a North Carolina gold mine is contained in the findings of an investigating committee which today completed its report.

John Skelton Williams, comptroller of the currency, who figured in the investigation as having sent a government expert to examine the mine, was also exonerated of any reprehensible conduct.

The report holds that Senators who bought stock in this mine did so as individuals and made no use of their official positions in promoting it.

### WILL INDICT GUILTY PARTY

**DISTRICT ATTORNEY WHITMAN WILL MAKE A RIGID EXAMINATION**

### DIRECTORS MUM

**Refuse To Discuss Report of the Interstate Commerce Commission At All**

(By Associated Press)

New York, July 14.—J. P. Morgan and Company today refused to discuss the report of the Interstate Commerce Commission severely censuring the directors of the New York, New Haven and Hartford railroad under the administration of Charles S. Mellen for "reckless and profligate" financial operations, estimated to have cost stockholders from \$65,000,000 to \$90,000,000. J. P. Morgan himself, however, denied the charge that the commission's examiners were not accorded full access to the firm's book bearing upon the New Haven.

The New Haven situation, it was pointed out, now is out of the hands of the commission, and what action if any, is taken on recommendations that the directors be prosecuted, lies with the department of justice and the district attorneys in the states in which the system has lines. Prosecuting attorneys in New York, Boston, New Haven, New London and other plants today received no copies of the evidence.

Directors and former directors of the road generally have refused to discuss the commission's report. Mr. Mellen, however, branded it as "a report of a political tribunal, made for political purposes." Mr. Mellen's counsel, J. W. H. Crim, also issued a statement defending Mellen's actions. He said Mellen's private fortune when he took charge of the New Haven was a million dollars. Now, he added, it was far less than that.

District Attorney Whitman today issued this statement:

"When these papers (relative to the New Haven) reach this office they will be closely scrutinized and if we have any reason to believe that any crime of any kind has been committed by any person connected with the New Haven railroad or its management in this county, an indictment will follow no matter who the person may be."
