RATIFICATION OF 20 TREATIES

URGED UPON THE SENATE BY PRESIDENT WILSON AND MR. BRYAN

(By Associated Press.) Washington, July 18.—President Wilson, through Secretary Bryan, has notified the senate foreign relations committee he wishes to press for ratification before adjournment of this session of congress the new peace treaties signed with foreign powers, which will be submitted for ratification next week.

The president's plan was communicated in a statement by Secretary Bryan which gave the following analysis of the general purposes of the treaties:

"That investigation shall be resorted to in all cases where the ordinary resources of diplomacy fail.

"That the contracting parties reserve the right to act independently on the subject matter after the submission of the report.

"That there shall be no appeal to force until the investigation is completed.

"That the commission (in each case) be composed of five members, one chosen from each country from among its own citizens, one chosen by each country from another country, and the fifth to be chosen by agreement of the two countries from some third country. In a few cases provisions are made for the appointment of the fifth member by the four members or by some neutral power or tribunal in case the two countries cannot agree."

Revolution in Dominican Republic Assumes a Very Serious Turn

Washington, July 18.—While President Bordas, of the Dominican republic, with his scanty army is besieging the northern rebels at Puerto Plata, his hold upon the capital, San Domingo City, in the south, is weakening, according to our advisers yesterday. According to today's advices to the state department, the southern insurgents already are in a position to dictate terms which may mean abdication or flight for Bordas.

American Charge d'Affaires White, in the absence of Minister Sullivan, is trying to prevent a clash near the capital, as it would be disastrous to foreigners and the many non-combatants.

Following a successful uprising at La Romana, about 50 miles east of the capital, last week, the adjutant general, Vidal, has occupied San Cristobal and Banl. He was marching toward the capital when met by Charge White, who, backed by two powerful American warships with their marine contingent, secured an agreement to an armistice while the federal officers in San Domingo City communicated Vidal's demand to President Bordas. The wireless outfits of the American vessels were used and at Puerto Plata Captain Eberle, of the cruiser Washington, submitted the messages to President Bordas in his camp outside the city. So far Mr. White has received no answer, but it is believed that Bordas will either make a desperate effort to capture Puerto Plata or to abandon the siege and return south to protect his own capital.

The United States naval transport Hancock is about due at Guantanamo with nearly 300 marines from Vera Cruz. They are to be sent to the Dominican republic in case of emergency.

American Minister Sullivan has arrived in Washington and expects to confer with President Wilson and Secretary Bryan regarding the Dominican situation. It will be determined at this conference whether the Hancock's marines shall be landed and a virtual, though temporary, protectorate established.

FARMERS TO GET MAIL BY AUTO.

Uncle Sam Expects Carriers to Support Cars on \$1,800 a Year. (Washington Dispatch.)

The automobile will soon succeed the one horse shay on many rural routes throughout the United States. Under the terms of a bill ordered reported today by the House Postoffice Committee an allowance of \$1,800 a year will be authorized for rural carriers who use automobiles.

At present the standard rural route is 24 miles long and the maximum compensation of the Postmaster General the length of the routes will be increased to 50 miles, and officials believe that a yearly allowance of \$1,800 will enable carriers on such routes to purchase and maintain automobiles of the cheaper type.
