A GOOD MAN BACK IN ANDERSON

H. B. Harper, Popular Clothing Man, Again With B. O. Evans & Co.

H. B. Harper is again with B. O. Evans & Co., having gone to work there Monday morning. Mr. Harper is perhaps one of the most popular clothing salesmen in the city and his friends, who are scattered all over the county, will be pleased to learn that he is again identified with this popular establishment.

Mr. Harper goes in as an addition to the already very clever sales force at Evans—the business, as the fall season approaches, being too heavy for the present force to handle with the dispatch demanded by the management.

TO CENSOR MOVIES

Bill Introduced by Congressman Hughes, of Georgia.

Atlanta, July 20.—The bill recently in the national house of representatives by Congressman Dudley H. Hughes to establish a national censorship on motion picture shows, is receiving endorsement of a number of organizations interested in the welfare of children.

One well known civic organization of Atlanta has issued a petition urging the passage of the bill and highly commending Mr. Hughes for his idea. It shows that the only censorship now is not official and does not prevent the shipping into Georgia of films.

Mr. Hughes' bill provides for the creation of a new division of the Federal Motion Picture Commission and defining its duties. The commission is empowered to appoint deputies and other assistants and shall license all films intended for public display unless it finds that such films are obscene, indecent, immoral, inhuman or depict a bull fight or prize or is of such character that it would tend to impair the health or corrupt the morals of children or adults or incite to crime. Penalties are provided for violation of the law.

With the growth of the motion picture industry there has sprung up a great demand for some regulation of the exhibitions. Children, without their parents, are constantly seeing in the cities pictures which are far worse than the dime novels which once were so vigorously denounced.

SMITH WILL RECEIVE OVATION AT LAURENS.

Will Ride Upon Bble of Cotton that Was Ginned in 1862.

Laurens, July 20.—The senatorial speaking Wednesday will complete the canvass of the northwestern section of the state and it is expected that the candidates will be greeted by a tremendous crowd. The meeting will be held at Holmes Springs, on East Main street. Ample preparation has been made for the accommodation of the speakers and the crowd, hundreds of benches having the past week been placed in the park and the speakers' stand overhauled.

In connection with the campaign meeting a rather unique honor is to be Smith. As now planned Senator accorded United States Senator E. D. Smith will ride at the head of a procession in a public square to the park on a gaily bedecked wagon on which will be mounted a bale of cotton that was grown in this county during the war between the section.

It was ginned by Mr. Henry Thompson, a farmer of Cross Hill township, in 1862 and is now the property of Mr. Thompson's grandson, Mr. Robert Hart Fleming of this city. It was ginned and packed with an old fashioned horsepower gin and hand press and bound with ropes. Eleven years ago, it was repacked with new bagging and steel ties and then placed in a bonded warehouse in this city, where it has since remained. The bale weighs 480 pounds and is well preserved and of very good grade. It is said to be the oldest bale of cotton in existence and requests for samples of the staple have come from many quarters of the globe since the publication a few years ago of its existence.

Primarily the demonstration is intended as an honor to Senator Smith for the long and incessant fight he has made in behalf of the farmers' main product, and also to show to the world the practicality of storing and preserving the staple.

It has been suggested that the team will draw the wagon the ancient bale of cotton and the county's distinguished guest on this occasion, be four home raised mules and the wagon itself be a Laurens county product. Three prominent farmers compose the committee of arrangements—Thos. M. Shaw, W. D. Byrd and Glenn A. Fuller.

TELEPHONE BLOCK SERVICE

To be Installed by the Southern on its Macon Division.

Atlanta, July 20.—Southern Railway is preparing to install a telephone block system to take the place of the telegraph system now in use on the Atlanta division between Macon, Ga., and Oglethorpe, Ga., a distance of 225 miles and part of the route of the Southern Railway's through trains between the West and Florida. The present telegraph block system consists of two wires and each office will be equipped with one bell on the north block and one bell on the south block with the telephone so installed that it can be connected with either.

The lines will be so arranged at the offices that when a block office is closed the line can be cut through it. The wires used for the telephone block will be also used for a telegraph circuit from Atlanta to Macon and for another circuit from Atlanta to Oglethorpe via Chattanooga. In order to take care of the heavy Florida traffic last winter telephone block was put in operation between Macon and Jessup and was found so satisfactory that it has now been decided to extend the system over the line between Oglethorpe and Jessup. The new system will be put in effect as soon as the change can be made.

Financial and Commercial

New York Cotton

New York, July 20.—What was claimed by the bulls to be a very critical situation in Texas, was very largely responsible for a strong undercurrent in the cotton market today, and with few exceptions the trend of the prices was steadily upward, the close being very steady at 10 to 16 points net advance, or within a couple of points of that of the day.

Over Sunday Texas was dry and no rain was shown on Monday's report nor any in prospects for tomorrow. This with continued high temperatures resulted in bullish advices from the Southwest which created considerable apprehension in local circles and led to a heavy covering besides quite an extensive line of new buying, partly based on anticipations of a bullish weekly weather report tomorrow as the government last week said that Texas was even then in need of the rain. At the opening the market was steady with old crops unchanged to 4 points lower and new crops 4 to 6 points higher.

The new crops were 4 to 5 points higher. There was little selling in the forenoon but contracts were generally scarce until after mid-day when spot houses became quite liberal sellers on the idea that the heaviest outstanding short interests had been covered, although the pressure was well absorbed without materially affecting the upward trend. Some authorities intimated that without the rain soon the Texas crop would be cut under 3,000,000 bales.

Cotton futures closed steady.

Spot cotton quiet; middling uplands 13.25; Gulf 13.50. No sales.

New Orleans Cotton

New Orleans, July 20.—The drought in the western portion of the belt was the dominating influence in the cotton market today and it put prices up for a rise of a dollar a bale.

Sellers of the last day or two of last week were the best buyers. They put out short cotton on the belief that there would be showers in Texas Sunday. Practically no rain was reported and complaints from the droughty counties increased Monday morning. Shorter bid prices up for themselves in buying their cotton.

At the best of the day, late in the session, the trading months were 21 to 22 points over last week's final figures. The close was at a net gain of 21 to 22 points.

Favorable crop reports from the eastern and central portions of the cotton region received but little attention.

Liverpool Cotton

Liverpool, July 20.—Cotton unchanged; good middling 709; middling 728; low middling 690. Sales 5,000. Speculation and export 300; receipts 9,000.

Futures quiet. July 714 1-2; July and August 714; September and October 672 1-2; December and January, 661 1-2; February and March 663; April and May 664 1-2.

The cotton exchange here will close on August 1 and 2.

Cotton Seed Oil

New York, July 20.—Cotton seed oil was easier for August under liquidation by three longs, while the balance of the list showed steadiness on covering of shorts and with the strength of cotton. Final prices were 4 points lower to 5 net higher. Sales 11,900 barrels.

Market closed steady. Spot 718 1-2; July 720 1-2; August 724 1-2; September 737 1-2; October 699 1-2; November 670 1-2; December and January 661 1-2.

Cotton Goods

New York, July 20.—Prices on staple gingham were steady today on the basis of last year 6 1-4 for standard. Dress gingham were reduced 1-2 a yard and ticks 1-2 a yard. Low and dress gingham were unchanged. Yarn were quiet. Fancy worsted suitings for men's wear were irregular from 2 1-2 a yard to 5 cents and up to 2 1-2 to 5 down on the various numbers. Cotton goods were quiet.

Grain & Provisions

Chicago, July 20.—Assertions that it unfavorable weather was encountered in the Dakotas and Minnesota, this week the damage from black rust would be grave led to a decided rally today in the weather market. Prices closed strong at 1-4 to 3-4 net advance.

Grain and provisions closed steady.

Stocks and Bonds

New York, July 20.—Confusing reports regarding the western rate situation and the budget, and unfavorable rumors from abroad contributed toward today's dull and drooping stock market. Dispatches from Washington suggested further delay in the handing down of the rate decision, and discouraged the hopes of those who had pinned their hopes on a general advance.

In addition to the 15,000 shares sold here for London, direct sales from Anderson were again reported. Baltimore and Ohio common and preferred descended to the new low levels. Heavy offerings on both issues

for future delivery attested the persistency of the foreign liquidation in these shares. Erie and Wheeling ground.

Irregularities were shown by the other minor issues, some recovering and others falling to or near last week's quotations. Texas company was the most prominent of the specialties, dropping five points.

Bonds were but slightly affected by the sagging tendency in stocks. Total sales par value, aggregated \$1,307,000. United State bonds were unchanged on call.

Money On Call

New York, July 20.—Mercantile paper 4 a 1-2. Sterling exchange firm; sixty day bills 4.85.20; demand 4.87.20.

Commercial bills 484 1-2 a 3-4. Bar silver 64 1-8. Mexican dollars 41 1-2. Government bonds steady; railroad bonds irregular.

Time loans weaker; sixty days 2 3-4; 90 days 3; six months 4.
