BOILERS, TANKS, STACKS, ALL KINDS OF MACHINERY AND SUPPLIES, REPAIRS, PIPE, GALVANIZED ROOFING, LOMBARD IRON WORKS
Augusta, Ga.

FOR UNION STATION

The State Division, T. P. A. Has Put Its Record.
The traveling men of the state at the late convention of the T. P. A. went on record in opposing separate stations and favoring union stations at all junction points. The local post committee also passed resolutions opposing new purchased property on South Main street.

Following is a copy of the resolution which was forwarded yesterday to Secretary Foster V. Tribble of the local post, by John W. Lighty, state secretary.
"It is the sense of Post D, that owing to the fact that there has been, and is, considerable discussion as to whether the Blue Ridge and the C. & W. C. Railway should have a separate or union station in Anderson, we, the entire membership of Post D, do hereby ask your indulgence in passing a resolution requesting that the convention meet at this station, and if the convention sees fit to grant the request of Post D, a copy of same be sent to the proper officials, to Anderson, Intelligence and Anderson Daily Mail, the News and Courier of Charleston and the Columbia State."
"Also request the railroad commission of South Carolina to inaugurate a policy of insisting on union stations at all junction points."

ANDERSON PEOPLE TO ATTEND CELEBRATION

PLANNING FOR TRIP TO HENDERSONVILLE, N. C.

THE NEW HIGHWAY

Festivities To Be Held, Marking Opening of a New Road From Here to the Mountains

Anderson county is not ashamed of her roads but is not exactly proud of them, although the highways are in better shape than ever before. However, it is admitted that the roads could be better and there are many "road" enthusiasts in this section yearning for the coming of the better roads era. The news that a big celebration will be held at Hendersonville, N. C., on July 27, has therefore awakened considerable interest in Anderson and yesterday a number of the local autoists were planning to make the trip from this city to be present for the affair. The occasion is the opening of the new Asheville-Hendersonville-Spartanburg highway.

If present plans do not miscarry it will be the biggest road celebration ever held in Western North Carolina. Features of the day will be the parade of students of the government military camp at Asheville and those of surrounding military camps in Western North Carolina, cavalry drill by the cavalrymen of the instruction camps at Asheville, automobile parade, a military ball and field and water athletics.

Col. Sanford H. Cohen, manager of the Greater Western North Carolina Association, has been working on the plans for the celebration for some time and was the guest of the Greater Hendersonville club at a meeting held there Saturday to work out the details of the celebration. The event has been extensively advertised not only in Western North Carolina but in the adjoining southern states and owing to the extensiveness and importance of the occasion it is believed that there will be a record-breaking attendance in the city to witness features never before given in Hendersonville.

The military band of the government's camp in Asheville will come over on the train to make music for the occasion, while students and regulars will march through the country the distance of 22 miles, spending a week on the trip from Asheville and return. French Broad and Sapphire camps of Brevard have been invited and will participate in the parade to be given on Main street.

Plans are being made for the longest and most imposing decorated automobile parade ever seen in Western North Carolina and since the opening of the important highway from the south will be so highly welcomed by the hundreds of automobilists who annually visit the mountains, it is believed that machines from various southern states will participate in the event. The entire day, beginning at 8 o'clock in the morning, will be filled with interesting events.

LITTLE CAR GOT THE BEST OF IT

Street Car Was Damaged More Than Auto When They Collided Yesterday

The race isn't always to be won by the biggest man and so the biggest machine doesn't always come off victorious when a collision occurs. Yesterday afternoon at 5:30 o'clock R. E. Nicholson was driving a Ford automobile along Earle street and as he went to cross Main street his engine stopped, leaving the machine squarely across the street car track. A car was then approaching and Mr. Nicholson threw up his hand to warn the motorman, but evidently the latter could not succeed in slowing the car down and struck the automobile broadside. When Mr. Nicholson saw that the street car was not going to stop he alighted from the machine and escaped without a scratch. When the street car hit the automobile it seemed for an instant that the roadster would be torn to pieces but instead of this it merely slid along the track for a distance of about 15 feet and came to a halt when the street car did. Little damage was done to the automobile, it being able to run off on its own power, but the fender of the street car was torn away.

Mr. H. B. Minton was driving a street car while the conductor was L. O. Vandiver.

Col. Thompson's Condition
Waltham, July 21.—This evening at 8 o'clock Dr. John W. Nicholson reports that Col. Robert A. Thompson is holding his own. No changes.

ASKING ANDERSON TO HELP SOUTH CAROLINA

EVERY CITY IN STATE MUST LEND A HAND

PANAMA EXHIBIT

Columbia Chamber of Commerce Asking For Co-operation of all Commercial Organizations

While it may be that no direct benefit will be realized by Anderson as a result of the South Carolina exhibit at the Panama exposition yet Anderson people realize that what helps one section of the state must in time help every section and that if the state as a whole receives some benefit from the exposition that Anderson too will indirectly benefit. It is believed that Anderson may do her share in financing the exhibition which this state plans to send to San Francisco.

The Columbia chamber of commerce has written to the local trades organization, asking if this city will lend assistance in raising funds, and Porter A. Whaley will immediately advise the men in charge that this city will do everything possible to make the exhibit one of the most creditable to be found at the greatest exposition ever held.

The following is the letter which Mr. Whaley received yesterday from Columbia.

"No doubt you are aware of the movement which has been started for the raising of a fund to enable South Carolina to have an exhibit at the Panama-Pacific Exposition to be held in Frisco in 1915. Plans for the campaign are well under way, and we wish to know to what extent your organization will cooperate with us towards raising the fund. We are having a medal the size of a silver dollar made, which we propose to sell for \$1.00 each, thus raising the money in this way.

"I will thank you to have your body pass a resolution favoring this project and state to what extent we may expect cooperation from them.

"It is going to be necessary to send representatives to every town in the State, and the matter will be handled through the commercial organizations, but before these representatives are sent out we must know the attitude of the various trade bodies towards this movement."

ASSESSMENTS MAY BE LOWER HERE

Anderson Member of Equalization Board Says That Report to State Board Will Ask This

J. C. Duckworth of Anderson, who is Anderson's member of the State equalization board, says that there is a chance of Anderson county's assessments being slightly lower this year than it has been for the last four or five years. The report to the board will ask that the assessment be slightly lowered and it is believed that the board will comply with the request. The equalization board is to meet in Columbia next Tuesday, at which time the matter will be under advisement.

Mr. and Mrs. B. B. Bleckley and children are at Clayton, Ga., for a visit to relatives.

THANK MR. SMITH

Those farmers spending yesterday in Anderson attending the First Annual Grain Festival said that they felt as though they should thank Furman Smith, the wholesale seedman, for what he is doing in the way of advancing the agricultural interests of the county. Mr. Smith started the grain festival idea and it was through his efforts, unaided by those of the chamber of commerce, that the day was so successful. Every farmer in the county should thank Mr. Smith for what he is doing and every one of them should take advantage of any opportunity to assist in such undertakings as these.

AND NEXT YEAR!

Before the first grain festival was hardly more than over, Furman Smith and the chamber of commerce were yesterday beginning their preparations for the event of next year. It was definitely announced yesterday that there would be \$1,500 in prizes offered next year for the best grain exhibits and the promoters believe that the exhibits will be doubled or tripled in number.

The farmers were appreciative of what yesterday was and they will be even more pleased one year hence.

C. & W. C. RAILWAY TO ENTER SUIT VS. CITY

COUNCIL REFUSED TO MEET REQUEST

IS FRIENDLY AFFAIR

Railroad Asked City To Share Cost of Building Storm Sewer and Council Refused

When officials of the Charleston & Western Carolina Railway appeared last night before the Anderson city council and attorneys for the railroad presented their arguments, it appeared for a time that the city fathers might agree to bear half the expense of constructing a new storm sewer for the protection of the railroad property on Main street. However, within a few minutes after such a motion was made a very decided opposition became evident and the motion was lost when a vote was taken. Following that action the railroad served notice it would institute suit against the city to test its right to force the city to change the drainage along South Main street. In the words of A. W. Anderson, general manager of the road, "we expect to win with hands down, but it will be entirely a friendly suit from start to finish."

All the lawyers had a few words to say, all the railroad representatives had some suggestions to offer and almost all the council wanted to talk. As a result of this something like one hour was consumed.

GRIEF STRICKEN AND HOPELESS

Is Way People of York County Were Found In Hail Stricken Belt

The hail stricken section of York county is a wilderness of desolation, said W. W. Long, of Clemson College, who was here yesterday. Mr. Long stated that he made an official visit there on behalf of the government, and that he never wishes to witness another such harrowing spectacle. "A strip 23 miles long and four miles in width on an average was absolutely ruined. Even the trees were stripped of their foliage as if it were mid-winter. Chickens, hogs and even cattle were killed. John T. Foddey, president of the Rock Hill chamber of commerce, had 17 head of red Pole cattle, the big, strong beef cattle—and 11 of them were pelted to death by the hail. One full grown cow had taken refuge in a gully and when she was found dead she was completely covered with hail, with the exception of the tip of her nose.

One piece of sloping land of several acres was covered to a depth of 1-2 feet with hail, and in one gully, 13 feet deep, the hail had drifted to the very top of the gully. Nothing like it had ever been heard of in this country. There was a severe wind storm and as one old lady expressed it in a fearful manner, "the wind even blew the furrows away," and indeed the furrows were filled even with the rows in the field.

Mr. Long stated that in all of this scene of desolation he and others went among the people trying to cheer them up, to give them heart. And it was a most affecting situation. The people were absolutely crushed, dazed and hopeless. They know not what to do. In nearly every home the families were gathered in tears. The good people of that section have gone to the relief of their neighbors and it may not be long before industry will be started in the wake of destruction.

MANY APPLICATIONS IN

As Usual Prospects Are for Capacity Attendance at Clemson.

Clemson College, July 21.—Examinations for entrance and scholarships to Clemson College have been held in all parts of the state and a number of members of the Clemson faculty are busily engaged in grading the papers of the examinations. President W. M. Higgs announced that, as usual, the number of applicants bids fair to exceed the capacity of the college and all young men who are thinking of applying for admission should do so at once.

Last year was one of the most successful from every viewpoint in the history of Clemson college and it is believed that the session of 1914-15, which will open on September 8, will repeat this record. During the session, which closed recently, 134 students were enrolled at the college. The approaching session will be the twenty-second since the opening of Clemson College in 1893 and during that time it has advanced with strides until it is now one of the best and best agricultural and mechanical colleges to be found in the southern states.
