RIOT THREATENED

Insurgents Demand Abdication of Albanian Ruler. Durazzo, Albania, July 23.—A note threatening to destroy the capital of Albania unless Prince William, of Wied, abdicated the rulership, was handed today by the Mussulman insurgents to the representatives of the European powers here. The insurgents added that if the warships fired at them they would spare neither the European nor the other inhabitants of the city.

Efforts to obtain a vessel here have failed.

BIG DITCH OPEN ON AUGUST 15TH

Secretary Garrison Announces the Official Opening For the Date Named

Washington, July 23.—Opening of the Panama canal to the worlds commerce on August 15 next was announced tonight by Secretary Garrison. Probably the first vessel to pass through the great waterway will be the Cristobal, a war department steamer now at Colon. There will be no more formalities in connection with this epoch-marking event, all ceremonies being left to the official opening when the international fleet passes through the canal in March, 1915. Mr. Garrison's announcement follows: "The Panama canal will be open to commerce for vessels not using more than thirty feet of water, on and after August 15, 1914. "The official opening of the canal, as heretofore announced, will be in the month of March, 1915. An appropriate announcement will be made when a greater depth of water than thirty feet has been assured. "On the 15th of August, Col. Goethals will inaugurate the commercial service by sending a government boat through the canal. There will be no ceremonies incident to the occasion, but American newspapers who may desire to have representatives present may do so. The others who will be present on the boat will be determined between the canal and the time mentioned. "Lindley M. Garrison." Task Completed. When the Cristobal steams from its slip to the entrance of the canal it will mark the conclusion by American enterprise of the greatest engineering task ever undertaken which has severely taxed the abilities of the army engineers under Colonel Goethals. Some things remain to be done to perfect the waterway. The channel through the Culebra cut must be deepened and widened so that it will not be necessary for the great liners and battleships to pass through the tricky "slides" at Cucharucha and Bold Hill, in single file. While with the thirty feet of water in the canal, some of the dreadnaughts might pick their way through after August 15, yet Secretary Daniels says that he would not be likely to order any such movement except in an emergency. He will wait until there is more water in the great ditch.

WON'T HEAR TEDDY "LET HIM WRITE"

Democratic Members of Committee Opposed To Hearing Roosevelt's Proposition

(By Associated Press.) Washington, July 23.—Theodore Roosevelt's request to be heard by the Senate foreign relations committee in opposition to the Colombian treaty, by which the United States would pay \$25,000,000 for the Panama Canal, strip and express regret that anything should have occurred to mar the friendly relations between the two countries, remained unanswered by the committee today. No decision will be reached for another week. Democratic members of the committee and administration leaders generally are said to be opposed to holding hearings with relation to the treaty and particularly to the appearance of Col. Roosevelt. In this they follow the sentiment of Senator Stone, chairman of the foreign relations committee, who today reiterated the declaration that the former president had said all he could say about the Colombian matter and that if he had anything further to say, "let him write it." Republican members of the committee it was learned today, are not all in favor of inviting Mr. Roosevelt to appear. Senator Smith, of Michigan, however, was outspoken in the matter asserting that Mr. Roosevelt should be called by all means. Administration senators contend, however, that the country is not now interested in what happened in Colombia ten years ago, but in what should be done to adjust the strained relations now existing. The investigation of the Nicaraguan affairs pending the submission of a canal right acquisition treaty with that country, has begun to lag in the foreign relations committee, and there were intimations today that nothing further would be done with it at this session. The Bryan peace treaties for which President Wilson desires ratification before adjournment, also are giving Senators considerable concern in view of the desire to complete the trust program and get back to their districts, for the campaign. Several Senators said today they did not believe the foreign relations committee would report then because they would be sure to provoke long discussion.

"Stepladder" Photo of Emperor William's Grandsons

You will notice that the eldest son of the crown prince is a fourth of July boy. He is patriotically interested in American boys and wants to come here on his birthday some time. Crown Prince Frederick William, who was born in 1882, was married June 6, 1905.

THE RIVER OF DOUBT.

Oh, a wonderful stream is the River of Doubt. That winds through the jungles of Where; It rises at Whence and at Whither flows out. And drains the vast region of There. From latitude Which and longitude What. It covets over mountains and hills; It crosses ten rivers and likewise a lot Of unnumbered streamlets and rills. So crooked that monkeys in trees all around, Prehensile to spy out its bed, All twist off their tails and drop to the ground. Decaduate and cross-eyed and dead. From Hither and Thither its flow is uphill. And its depth is as deep as a cup; It never would answer for turning a mill. For all of its cascades fall up. Yes, the River of Doubt is a wonderful stream. And it acts in a wonderful way. Unmatched in tradition, in fiction or dream. And it's spik'd to the atlas to stay!

NO CLUE YET

Hounds Trail Would-Be Assassin for Several Blocks. (Special to The Intelligencer.) Columbia, July 23.—All efforts by officers have failed to apprehend the unknown man who shot Dr. James H. McIntosh early Thursday. The officers were of the opinion that the assailant made his getaway in an auto which was standing in Pendleton street near the campus of the University of South Carolina. Guard Jesse Robbings of the state penitentiary force, said that his hounds took the trail readily in front of the Presbyterian church, at the spot where it was said that the man vaulted through the cemetery and for two blocks more to the spot, where the blood hounds lost it in the middle of the street. Dr. McIntosh was resting well at Knowlton's hospital Thursday night and he is said to be out of danger. Early today the governor issued a statement in which he declared that he regretted the occurrence very much. Physicians at the hospital said that the wound of Dr. McIntosh was superficial and that the incisions were not cut. Today a reward fund was begun in Columbia for the arrest of the man that fired the shot. The officers are pressing the search. The governor deplored the shooting of Dr. James H. McIntosh. He said that he was sorry that Dr. McIntosh could not be on the stage, as he would have presented the signed report in the Richey case and have asked if the signature was authentic. If so, he would then have asked the physician to explain the language employed in the text. If the signature was forged the chief executive said he would join in the search for the forger that justice might be had. An excerpt from the Abbeville speech in reference to Dr. McIntosh was read. "As a physician and as a man," he ran, "Dr. McIntosh stands high in the state and no man would say that he would lie." The governor also read the statement signed by the late Dr. A. B. Knowlton and Dr. James H. McIntosh which said: "We would report that Mr. Richey is suffering from marked neurosis, that the same closely simulates paralysis. We do not believe that this condition will be improved so long as Richey remains in the penitentiary."
