

THE CHORUS GIRLS' DANCING CONTEST

SEE IT AT THE PALMETTO TODAY

PRIZES OF \$5.00, \$10.00 AND \$15.00 WILL BE GIVEN

The "Air Dome goers" have made many complimentary remarks about the appearance North Anderson presents at night.

AND IT IS A FACT,

That the street lights, and the lights on the three parks, make quite a pretty show.

ELECTRIC CITY SPARKLETS

Items of Interest and Personal Mention Caught Over the Wireless on the Streets of Anderson

Major Forney In the City.
Major R. Forney, commandant of The New Mexico Military Institute, located at Roswell, N. M., is in the city for a visit to his parents. Mr. Forney tells some interesting tales about New Mexico and says that the country there is now in more prosperous shape than it has been for years. He says that he was in Santa Fe on July 6 when a blinding snow storm was raging. Speaking of Anderson's wonderful growth, Major Forney says that he did not know the town when he got here and that it has grown more during the last year than it had done for the five years preceding. He will be in the city for the remainder of the summer.

In the Grip of Politics.
When all other sources of information on any subject fail and the newspaper men of Anderson almost give up hope of finding any news, they turn their steps toward the court house and are usually rewarded by finding a few stray items, but even that place has failed. Heretofore the court house has been a regular clearing house for political news and views for the thrashing out of arguments, but since the beginning of the politics the politicians have taken to the country with their arguments and are waging the battle for votes.

Outlook Seems Some Brighter.
That things are never as black as they are painted has long ago been learned by Anderson people but it is now becoming evident that Anderson people have been too pessimistic over the outlook for the business of this country during the foreign wars. The following telegram was received yesterday by Capt. P. K. McCully from Johnston, Storms & Company, one of the biggest cotton firms in the United States: "A telegram from Paris says 'general opinion is that the game is up with Germany. Do not sell anything.'" This is taken to indicate that the business conditions will soon be normal again.

Opening Gun Fired Tomorrow.
Doubtless if the people living in other sections of the state knew what flights of oratory will be heard tomorrow, they would all secure transportation on the first sea-going tug for Honea Path. The opening gun in the Anderson county campaign will be fired in that city tomorrow and for several hours the voters of that city will have to hear the numerous candidates explain why there is only one man in the race fit to hold the office. There will probably be a large attendance and it is said that a number of Anderson people are to make the trip.

Now Materializing.
Believing that the interests controlling the Southern Public Utilities company and the Piedmont & Northern lines, can be induced to take some stock in the venture, the Anderson chamber of commerce is rapidly preparing plans for holding a county fair in this county. Of course such an undertaking cannot be pushed to successful conclusion without the aid of Anderson's public, as well as outside assistance, but Secretary Whaley says that he knows Anderson people well enough to know that they will do their share if the outside money can be secured. Nothing definite can be announced yet but it is beginning to appear that Anderson will at last have one county fair at least.

Most Popular Place in Town.
Just at the present time The Intelligencer office is about the most popular place in the city. This fact is due to the war situation and since the public has learned that The Intelligencer is posting the important bulletins there are but few people in the city who have not paid a visit to this office for a minute or two each day. As soon as the bulletin is received, through the extraordinary service of the Associated Press, they are posted in the windows of the office. The general public seems to appreciate this service.

Play Good Game Next Saturday.
If the baseball fans of Anderson really want to see some classy ball, they should go to the park Saturday afternoon and witness the game between Brogan and Gluck. The Brogan team has the largest player in the league who weighs just 236 pounds, and this same fat player knocked a home run on the Gluck mill diamond last Saturday, and says he can do it again. It is well worth the price to see the fat boy run. Then another feature of Brogan's team is Blalock, who weighs about 120 pounds, and who walked three men and struck out three men in succession in the last game he pitched. If these teams get the support that they deserve there will be a goodly crowd at the park to see next Saturday's game.

More Managers Are Announced.
B. B. Gossett, president of the North Anderson democratic club, yesterday announced that he had appointed the following to act as managers in the coming election: J. H. Hutchins, S. G. Hardin and Monroe Smith. Practically all plans for the election have been completed and Anderson county is now holding its breath awaiting the outcome.

Number of Changes.
Much speculation is heard around town over the probable changes to be made in the officers employed by the city of Anderson after the new city council goes into office. This same speculation was heard immediately after the new council and the new mayor or were elected but it has died down until now, when the new "city fathers" are about to take their seats, the conjectures have been doubled. That several changes are to be made is already definitely known, but as to how many more will follow is purely a matter for speculation as the members of the new city council do not seem willing to discuss the matter.

Rev. J. W. Speake Has Returned to City.
Rev. J. W. Speake, pastor of St. John's Methodist church, returned to the city yesterday from Antreville, where he has been spending several days assisting in a meeting there. He will be in Anderson the balance of the week, and will preach Sunday at his church, leaving again next week to enjoy the balance of his vacation.

Last Chance for Attending Event.
Today is the last chance that Anderson people will have to attend the farmers' chautauqua, which has been in session at Williamston for the last two days. The people in charge of the affair have issued a statement in which they say that the chautauqua has been a far greater success than was anticipated and they urge every Anderson county farmer to attend the exercises to be held today—the closing day of the meetings. Those who have been to Williamston during the first two days of the chautauqua say that no one can regret the trip after making it.

South Carolinians Abroad Are Homeward Bound.
The Greenville News very considerably phoned The Intelligencer Thursday night that it had received a cablegram from its society editor, Miss Felicia Ferry stating that Miss Ferry's party of tourists had sailed from Antwerp, Belgium and would come direct to Boston. Among the members of Miss Ferry's party are Misses Jean and Florida Harris of this city.

Belton Visitor Remembered Here.
Mrs. Haynes of Walkertown, Va., is among the interesting visitors now spending a few days in Belton. Mrs. Haynes is the guest of her sister, Mrs. Joel Rice of Belton and is receiving a number of charming attentions. She was once a pupil and a teacher in Gen. Ayer's school, here and is pleasantly remembered in Anderson as Miss Mary Bagby.

MORATORIUM ISSUED Will Be in Effect For One Month On British Yales.
(By Associated Press.)
London, August 6.—Chancellor of the Exchequer Lloyd-George announced today in the house of commons that the government had decided to proclaim a general moratorium for a month. Wages, salaries, rates and taxes, government payments and national insurance transactions are not to come within the scope of the moratorium.

Tom Thorne and Billy Boncoe Halley of Hartwell, Ga., are in the city for a visit to Harry Snow on North First street.

MARKET REPORT

Stocks and Bonds

New York, Aug. 6.—There were a few indications today reviving activity in finance and industry, but in most directions a condition of suspended animation prevailed.

From the steel trade came reports of higher prices and a more active inquiry. The war created a wall more effective than any tariff in keeping out foreign steel.

The distribution of emergency currency to New York banks continued, but the banks made no urgent demands and the money went out slowly.

Egrets were made today at a meeting of the bankers and bond dealers to stop outside dealings in bonds during the period of stock exchange suspension. It was decided to curtail such transactions.

New York bankers received many inquiries from interior banks regarding the value of stock exchange securities as collaterals for loans. These banks were advised to hold the loans secured by stock exchange collaterals until the exchange reopened.

The stock exchange has removed restrictions regarding private trading, to the extent of permitting members to close up such transactions as were carried over from last Thursday, where this was mutually advantageous, or could be done without the aid of fresh certification or new loans from banks.

In a word, the exchange is encouraging the adjustment of outside transactions, especially where the one involved by impaired margins which customers may find themselves unable or unwilling to strengthen. It is opposed to any dealing of a speculative character, including the purchase of stocks on margin, however adequate, and prohibits the public quoting of stocks by its members some of whom, it is known, have submitted tentative prices on inquiry.

New York Cotton

New York, August 6.—Burlaps rose rapidly today and some grades of heavy goods were bought to replace them. Laces and embroideries were advanced sharply. Some lines of foreign dress goods were advanced ten per cent. Linens were scarce for future delivery. Cotton convertibles were easy, colored lines firm.

Chicago Grain

Chicago, August 6.—On a sudden flurry the wheat market today in the December and May options ran up to the highest prices of the year, but quickly dropped back, and closed weak 3-4c to 1-3/4c above last night. The only basis for the stamped appeared to be a report that some wheat had been sold here today to go to Montreal. Corn wound up 1-3/8 to 1-7/8 higher, oats with a gain of 1-4 to 1-2 and provisions at 27 1/2 to 28 1/2 advance.

GOD MARKSMANSHIP

Torpedo Boat Destroyer Lance Fired Only Four Shots to Sink German Liner.

London, Aug. 6.—The British torpedo destroyer, Lance, figured in the first naval engagement in the present war, sinking the Hamburg-American liner Koenigsluise, which had been fitted out as a mine layer. The lance fired only four shots. The first destroyed the bridge of the steamer, a third and fourth tore away the stern and the Koenigsluise sank in six minutes.

The lance rescued 28 of the German crew. Several were wounded. Two of them each lost an eye, and four others each had a leg shot away. None of the lance's crew were injured.

The Koenigsluise was caught laying mines some sixty miles from Harwich.

BIJOU B... THEATRE

TODAY'S PROGRAM

SILENCE REQUESTED

President Asks All Active and Retired Officers to Refrain from Comment (By Associated Press.)
Washington, August 6.—President Wilson today sent the following letter to Secretaries Garrison and Daniels: "I write to suggest that you request and advise all officers of the service, whether active or retired to refrain from public comment of any kind upon the military or political situation on the other side of the water. I would be obliged if you would let them know that the request and advice comes from me. It seems to me highly unwise and improper that officers of the navy and army of the United States should make any public utterances to which any color of political or military criticism can be given where other nations are involved."

PLANS UNCHANGED
Official Word Has Not Reached Carranza Concerning Surrender. (By Associated Press.)
Saltillo, Mex., August 6.—If President Carranza has agreed to unconditionally surrender Mexico, official word of this has not reached Carranza and there has been no change in plans to march constitutional troops to Mexico City.
