PLANS TO MOVE ABUNDANT CROP

Large Ships Are Needed To Carry the Cotton and Grain to

Europe

(By Associated Press.) Washington, August 7.—Confronted change during the period of suspensith the problem of disposing of the sion made this statement: country's enormous grain and cotton BATTLE

exchange bankers.

The bankers have been asked to come to Washington formulate plans for the resumption of the international exchange market and restore the use of international bills of exchange. The shippers will be asked to move American cotton and grain to Euro-

In announcing the conference call Secretary McAdoo said:

"It is of vital importance to the country that two things be done as quickly as possible. First, provide ships to move our grain and cotton crops to European markets; second, restore, through the bankers, the market for foreign bills of exchange.

"Grain Crop Harvested.

"Grain is a pressing problem, because crops have been largely harvested and the movement is already well under way. The cotton move-ment is not so advanced and will not market. be for a few weeks. It is my purpose to invite a conference on the subject of cotton to be held at an early date, which announcement will be made later. These are important questions for the American people and every possible effort will be made by the ad-

ministration to comperate in the movement of these great crops."

The cenate again failed to pass the amendment to the Panama canal act admitting to American register for-eign built ships less than five years Senators Simmons and Williams attacked the plan as dangerous and nadequate to meet the situation.

Freight on Naval Vessels. Secretary Daniels expressed the hope today that freight might he carried to Europe on naval vessels. Congress already has granted the necessary authority for handling mail and

PLENTY OF MONEY

Comptrol er of Currency Cives State ment that Money is Picniffel.

Washington, Aug. 7.—Comparoller

Washington, Aug. 7.—Compvoiler of the Currency Williams in a vate-meat tonight declared the financial alteration of the country is good and anounced that the national banks anow are in position to meet all reality and requirements.

"I see no reason" said Mr. Williams will be of currency payments anywhere in this country, and if the department items of any national banks retusing to Sonor legitimate domands of its quisteners or correspondents for currency guels delinguant, bank will be promptly investigated.

"At. Williams said shipments of additional currency up to the close of today's business amounted to 1127, 200,000.

Financial and Commercial

Stocks and Bonds

New York, Aug. 7.—Reports from Wall street today that the New York Stock Exchange soon would be reopened brought prompt denial. The committee appointed to maintain act-

country's enormous grain and cotton crops, the administration today planned a conference in Washington next week of representatives of leading shippers in this country and foreign exchange bankers.

"The special committee of five will not recommend to the governing committee the reopening of the exchange until in their judgment the financial situation warrants it, and as exchange bankers. before stated, ample notice will be given on the proposed reopening." The statement was made primarily

because it was felt reports of an ear-ly reopening, if allowed to spread unchallenged, would give alarm all over the country. It was known that pressure was being brought to bear upon the governors by some members to consider an early reopening. The position of the brokers is rendered difficult by the heavy losses du.lng the time of idleness, and it was felt by some members that there would be small danger of heavy liquidation by European holders of American seby European holders of American se-curities, such as upset the market last week. This selling, it was said, was for the purpose of securing gold with a virtual embargo on additional gold exports now in effect it was thought Europe would have no further reason for dumping securities on this

market.

The committee of five felt however, it would be highly dangerous to reopen the stock market until the financial skies had cleared definitely. It may be stated authoritatively that the governing committee intends to be guided by he judgment of the most prominent financial interests of the impatient evchange members.

There were indications that the out look was improving so far as the po-sition of the out of town banks was concerned. Now York banks received tension was not so acute as a few assurances which showed that the days ago.

An easier tone prevailed in the

market for time money and it was expected that the banks would lend more freely next week.

Dun's Review

"Just now," said Mr. Daniels, "there is need for large ships to carry cotton and wheat to Europe, If congress will authorize it, the navy can give help. We could within a few days use four large colliers, each with an average capacity of 29,000 bales of cotton or 400,000 bushels of wheat. By October 1 we could commission two more,"
