

Purpose.

The purpose of the College is to offer to the women of South Carolina an opportunity to secure a real college education, equal to that offered to the young men of the State. Women are interested today more than ever before in all civic and social progress. State and City have taken out of her hands many of the things it was formerly her peculiar duty to look after. This leaves her the time, and she has the ability, to help in the larger handling of these things. That is the reason she is interested in the milk and water problems, in better sanitation, in hospitals, in better houses for the poor. If she is allowed to take a hand in the management of these things she will do it well. All these things, it will be observed, touch the home, and woman's interest in them is but an earnest, honest, patriotic effort on her part to become more efficient for the service she can render the home. She needs the right kind of Christian education to fit her for this service. The purpose of Anderson College is to offer her this kind of education.

Faculty.

A large faculty of well-trained Christian men and women of experience has been secured for the following session. They are prepared to devote their lives to the proper training of the young women committed to their care. The President of the College, Dr. Kinard, has had eighteen years experience in educating the women of South Carolina. This large experience, combined with foreign travel and an intimate knowledge of the condition of the public schools of South Carolina will go far towards helping him to make the College what its friends and all the friends of education want it to be.

Miss Helen P. Smith, a graduate of Converse College, Smith College, and Columbia University, is unusually well fitted for the office of Lady Principal. Cultured and refined in manner, her influence on the lives of the students will be one of the most valuable assets of the College.
