You may think it strange that so many people are cured of stomach trouble by Chamberlain's Tablets. You would not, however, if you should give them a trial. They strengthen and invigorate the stomach and enable it to perform its functions naturally.

GOVERNMENT COMPLAINS

Austria Complains That Mail Sent by English Liners Is Delayed.

(By Associated Press.)

Washington, August 10.—The Austrian government has called attention of the United States to inconvenience, loss and trouble caused by interruption of mail between the United States and Germany and Austria, giving warning that mail for Austria and Hungary given to English liners will be held in England.

"I have taken every measure to see that mail originating in the United States for all countries be dispatched by the steamship line which will most expeditiously deliver the mail at its destination. There was no foreign mail originating in this country left on hand in New York this afternoon. It had all been dispatched."

The postmaster general explained that all mail for Austria-Hungary addressed via Rotterdam had been ordered sent by Dutch liners, unless it could be more expeditiously handled by other routes. No German or Austria-Hungarian mail has been sent by British ships.

Stocks and Bonds

New York, August 10.—Development in the financial world today were more cheerful. The fortnightly reports of idle freight cars revealed a decrease of nearly 30,000, bringing the total to the smallest since April 1. The United States Steel corporation's monthly report of unfilled tonnage showed an increase of 125,732 tons, the amount of business on hand at the first of the month being the largest for five months.

Steady progress was made toward clearing up the tangle among stock exchange houses and customers caused by the closing of the market and the violent slump which preceded it. Unofficial prices of stocks quoted today were similar to those heard last week, in most instances approximating the figures which prevailed at the time business was suspended.

In the money market there was no important change. Banks as a rule confined their operations to the satisfaction of mercantile demands. No money was offered on call in the open market and the demand for accommodation of this description was reported as light. Sentiment improved over the week-end in the open market for mercantile discounts and paper was purchased more freely.

Chicago Grain

Chicago, August 10.—Although war fever today sent the wheat market higher than has been known since the crisis began, the trade was short of what would be a normal aggregate and it did not take much selling to bring a reaction from top prices. The close was unsettled at 2 to 2-1/8 above Saturday night's level. Corn finished at a net decline of 7-8 to 7-5-8, oats off 1-4 to 1-2 and provisions irregular, ranging from 90 cents loss to a rise of 17 1-2.

Cotton Goods

New York, August 10.—Cotton goods markets were steadier today. Raw cotton quiet. Raw silk for spot delivery was higher, and for contract delivery lower. Dress goods steady, bought freely. Many selling agents for mills have withdrawn, and will sell late delivery goods only upon the understanding that all orders are subject to confirmation by mills.

A Bulwark Against Financial Disaster

Washington, August 10.—The federal reserve board entrusted with control of the great banking system created by the new currency law, actually came into existence today when the five members appointed by President Wilson took the oath of office at the treasury department. Plans for making over the system set up by the organization committee and opening the reserve banks for business within the next few weeks, already are under way, though the first formal meeting of the board will not be held until Thursday.

Charles S. Hamlin, governor; F. A. Delano, vice governor; Paul M. Warburg, W. P. G. Harding and Adolph C. Miller, with Secretary McAdoo and John Skelton Williams, comptroller of the currency as ex-officio members, compose the board. The members were sworn in and handed their commissions without great formality. Secretary McAdoo made a brief address, to which Governor Hamlin replied. The importance of the federal reserve board is not yet fully realized," Mr. McAdoo said.
