

Rushed the Order

A TRAVELING Salesman, while in Nashville, Tenn., took a large order, promising delivery in ten days. It would take two days for the order to reach the Home Office by mail. It took him only a few minutes to telephone the order from a pay station of the Bell Telephone system.

Time saved by telephoning orders often means fulfillment of contract.

PRESIDENT IS AGAINST LOAN

SERIOUS MISUNDERSTANDING MIGHT ENSUE IN EUROPE

J. P. MORGAN & CO.

Would Float Loan of Several Hundred Millions for French Government if Possible

Washington, August 13.—President Wilson was confronted today with the problem of whether American bankers shall be permitted to float loans in the United States for any of the countries engaged in the European war.

Though the president has not reached a final decision he is strongly opposed to the idea. The question arose through the desire of J. P. Morgan & Company to float a loan of several hundred million dollars for the French government. Inquiry was made of the state department by the Morgan firm as to whether the flotation of such a loan would be regarded as a violation of neutrality. Secretary Bryan discussed the subject with the president, who is studying it carefully before returning a final answer.

President J. P. Morgan & Company, it is understood a New York house of prominence is desirous of floating a loan for Austria, but the state department has not yet been approached, so far as could be learned tonight, with any formal inquiry as to questions of neutrality involved.

Within the Law.
While there is no provision in the American neutrality statutes against loaning money to foreign nations and no international neutrality agreement forbids it, the president's judgment is that, if it were permitted, serious misunderstanding might ensue in Europe as to the real attitude of the American government and people toward the warring factions.

Need Money at Home.
A loan was floated for Japan during the Russo-Japanese war, but notwithstanding the precedent, it is President Wilson's belief that the influence of the American government ought to be exerted as far as possible toward reducing the length of the strife rather than adding elements for its prolongation. He likewise is opposed to sending large quantities of gold from the United States at a time when domestic financial needs are paramount.

For Future Discussion.
The entire question will be discussed at tomorrow's cabinet meeting, but those in close touch with President Wilson and Secretary McAdoo of bankers and business men to devise means for the movement of crops to Europe. It couldn't be learned whether he will discuss with officials the subject of foreign loans while in the capital.

PLANS PERFECTED FOR OCCUPATION

City of Mexico Will Be Turned Over to Constitutionalists Peaceably

Teoluoyacan, Mex., Aug. 31.—Plans have been perfected for the unconditional surrender of Mexico City to the Constitutionalists and the peaceable occupation of the capital by troops under General Obregon. Eduardo Iturbide, governor of the Federal district, to whom President Carranza has turned over executive authority, will formally surrender the city to Obregon.

Such an agreement, it was announced here today, reached yesterday at a conference between General Carranza and his advisers, and the Brazilian minister to Mexico, has been concurred in by Governor Iturbide, who also conferred with Carranza yesterday. John F. Sillman, personal representative of President Wilson, presented the Brazilian minister to Carranza and attended the conference. Several members of the diplomatic corps in Mexico City, including Sir Lionel Garden, the British minister, the French charge d'affaires, and the Guatemalan minister, accompanied the Brazilian minister and were unofficially received by Carranza.

Unconditional Surrender.
According to the arrangement the Federal army will surrender to Obregon without conditions. Details of the disarmament and the formal transfer of the city to the Constitutionalists will be arranged by Iturbide and Obregon.

The immediate transfer of executive authority by President Carranza to Governor Iturbide was one of the terms of the agreement.

No announcement has been made as to the exact date when power will pass to the Constitutionalists or when General Carranza will enter the city.

Washington, Aug. 13.—Secretary Bryan tonight announced that satisfactory arrangements had been made between General Carranza and Governor Iturbide, of the Federal district at Mexico City, for the peaceful occupation of the capital by the Constitutionalists forces.

TRANSPORTS ARE READY TO LEAVE

Will Bring Back About Eight Thousand Americans Now Abroad

(By Associated Press.)
Washington, Aug. 13.—Five army transports and the Panama Railroad steamer Christobal will be sent aboard as soon as they can be made ready to bring home Americans stranded in European waters' zones. These vessels will accommodate 8,000 persons; several thousands more will be taken care of by ships to be chartered by diplomats at foreign ports and regular lines under neutral flags are expected within the next thirty days to transport 9,000.

Secretary Garrison laid this outlook before the national relief board today and received approval of his plan to dispatch government vessels. Ambassador Page, at London, reported today that he had authorized the chartering of a steamer there. Ambassador Page, at Rome, is expected to get a ship with accommodations for 1,000 passengers.

The five army transports to be employed—the Sumner, Kilpatrick, Denver, City of Macon and City of Memphis—now are at Galveston. They were ordered tonight to Newport News, Va., to be outfitted.

"It is hoped it will take only a few days at Newport News to complete their equipment," said Secretary Garrison. "The ports for which they will sail has not been settled; it will be determined by the conditions found to exist at the time."

Secretary Bryan issued a warning to Americans against making "unnecessary" visits to Europe. Naturalized American citizens were especially urged to refrain from visiting their countries of origin or countries which are at war there with.

The state department tonight announced that passports would be issued to Americans abroad who cannot easily reach an American diplomat agent, on receipt of a properly sworn application in their behalf by kinsmen or legal representatives in the United States.

HISTORY REPEATS ITSELF.

Scenes Enacted in Germany Same as in the Great French Revolution.

(By Associated Press.)
London, Aug. 14.—3:20 a. m.—The Daily Citizen, organ of the labor party, says it has learned from reliable authority that Dr. Karl Liebknecht, the German Socialist leader, has been shot for refusing military services.

The Daily Citizen says the story was brought to London by a German refugee, who reported that owing to the shortage of food Berlin was in a virtual state of revolution.

Dr. Liebknecht was an officer of the reserves and was called upon for service. He refused to respond on conscientious grounds, whereupon, according to the story, a detachment of soldiers was sent to his residence. He was taken to the military barracks and court-martialed. After a short trial he was convicted and shot.

It also is reported that Rosa Luxemburg, the noted Socialist writer, who declared soldiers were mistreated in the army, has been shot.
