Make Total Expenditure,
R. A. Gentry, clerk in the office of
the county treasurer, discovered what he first thought was almost an unbe-lievable total for the county's claims when he figured them up yesterday. Once every month the county treasurer has to figue up the entire claims paid for the month, from the 15th to the 15th and when Mr. Gentry ran his total up yesterday he found that all claims paid in Anderson county dur-ing the month made a total og \$9,999. There were 250 claims of various kinds paid during the month. It is hardly probable that there was ever such a total before in the history of the the county and it is very doubtful if such a thing will ever occur again.
