Co operate in Filling Silo.

Silo-filling is one of the things in which Clemson College strongly urges consisting of apples, pears, peaches, are expensive and in some cases it is figs and grapes in abundance. Well well for two or three farmers to own of fine water at kitchen door. Fine a cutter together. The most important well for two or three farmers to own a cutter together. The most important point in filling the silo economically is to have enough men and teams at hand to keep the machinery going all the time. Thus it can be seen that by helping each other in silo-filling, the total expenses to each farmer will be smaller than if he "goes it glone."

Planting Crimson Clover.

When planting crimson clover, be sure that soil and moisture conditions are right, according to Clemson Col-lege. Crimson clover should be planted on land that has a good "season" in it or when there is an excellent prospect of rain. The seeds are small and germinate and there is not enough moist-ure to make them grow off the hot sun will easily kill them.

THE COTTON SITUATION

The Western Hemisphere outside of the United States manufactured. according to spinners' returns for the year ending August 31, 1912, 110,703 bales of American cotton. Canada took At Philadelphia 1; St. Louis 0. 1st 107,361 bales, while Mexico and all of Central and South America took 3,342

bales.

The whole of Europe not now engaged in war manufactured 559,712 hales as follows:

Miss Carrie Broom is visiting the Emma Vandiver.

Miss Mattle Finley is visiting the sister, Mrs. Lawrence Hall.

Mis Annie Erskine spent Sunday Sweden Norway 9.416 Of European countries now at war the mill consumption of cotton, according to spinners' returns and according to country of origin, are as this week.

Mrs. W. A. Webb is on the sick list this week.

by countries now at war with each American cotton. This leaves us only with as cotton consuming countries.
The mills of India consume 73.528 hales of American cotton 1 693,9900 bales of Indian cotton, 893 bales of Egyptian cotton, and 198 bales from all other countries The United States consumes 5.553,000 balcs of American otton, no East Indian cotton, 201,000 hales of Egyptian, and 32,000 bales originating in all other countries.

This war cannot last forever, and the countries at war must in some way set cotton for their clothins. Tt is believed that there will be left in the United States something like two to four million hales. Surely the gov. ernment can help to finance the hold. ng of this amount of cotton until the industries in Europe get on a neace footing. It will require from \$150,-000.000 to \$300.000,000 to do it, but there is a billion dollars of gold in the United States treasury. The grea city of St Louis alone has, planned to store a quarter of a million bales. If Galveston. New Orleans, Charleston, Savannah and other cities would get in line with their strong banking houses, it would help materially in the rolution of this question.

Emperor's Instructions Mean Death To German Garrison.

(By A-sociated Press.)

Peking, August 25.—A letter received from an American at Tsing Tau scaport of the German territory of Kiao-Chow, says it is considered there that Emperor William's coolers are that Emperor William's cablegram to the garrison to resist to the utter-most is virtually the death warrant of every member of the force The-Germans are detaining a large num-ber of coolies, evidently for military labor in and about Tsing-Tau.

The writer of this letter says that Horace Remillard, American vice consul at Tsing-Tau, who left before rail-road communication was broken, took with him the archives of the American. British and Russian consulates.

Peking has no information of the landing of Japanese forces at Kiao-Chow. The British and French regi-ments which supposedly are to take part in the land operations against Kiao-Chow are at Tien-Tsin. The Japanese minister to China

visited the foreign office yesterday and renucsted removal of the limitation to thirty miles on the fighting area around Tsing- Tau, fixed by China. The foreign office declined the re-
