PREST. WILSON ON A VACATION

At Sumer Home In Vermont— Many Reminders of His Wife Are There

Windsor, Vt., August 28.—President Wilson, who came here today to begin his first vacation of the summer, spent tonight quietly at "Harlakenden House" with his family, celebrating the birthday of his daughter, Mrs. Francis G. Sayre.

Despite efforts of all members of the family to make the occasion a happy one, the recent death of Mrs. Wilson saddened the gathering. The party consisted of the president, Mrs. Sayre, Miss Margaret Wilson, Mrs. Howe, the president's sister, Mrs. Cothran, his niece; Eleanor Cothran, his grand niece, Mr. Sayre and Professor Stockton Axson, Mrs. Wilson's brother.

The people of Windsor and of the little village of Cornish, across the Connecticut river, respected the president's recent grief by remaining in back ground, but American flags decorated many homes. On the way to "Harlakenden House" the president drove past the small cottage which was formerly used by Mrs. Wilson as a studio for her painting.

During his stay here the president plans to devote his mornings to golf and his afternoon to long automobile rides. He was reluctant to play golf but Dr. Cary Grayson, his physician, has informed him that his health requires exercise.

White house officials in Washington are to send only the most important dispatches to Windsor and as far as possible the president will be given an opportunity to rest.

INVESTIGATION IS BEING HELD

Commission Will Thoroughly Probe Killing in Hop Field Riots of Year Ago

San Francisco, Aug. 28.—Investigation of the Wheatland, Cal., hop field riots which resulted a year ago in the killing of four persons and the sentencing of two industrial workers of the world to prison was begun today by the Federal Industrial Relations Commission.

Widely circulated reports that testimony gathered by private detectives was used against the convicted men, Fred Suhr and Richard Ford, were denied by W. H. Carlin, who prosecuted them.

George L. Bell, counsel for the California Immigration and housing commission, declared the vagrant law was used in California to oppress workers. It was charged that under this law about twenty persons who participated in the Wheatland riots were held without hearing for periods extending in some cases to ninety days.

In this connection witnesses testified that Alfred Nelson, under arrest as a suspect, was attacked by F. B. Cradlebaugh, a detective, who was "sweating" the prisoner. Later, due to the activities of District Attorney A. B. McKenzie, of Contra Costa county, Cradlebaugh, was fined \$1,000 and sentenced to a year in jail.

Eventually Nelson was released. Suhr, who with Ford is under sentence for second degree murder, was under arrest several weeks before he was permitted to see counsel. It was alleged.

Allen Johnson, suspect, went in-sane after his release from jail and Neil Nelson, another suspect, committed suicide.

The approaching wedding of Miss Leon Smith to Clifford Dean Coleman is of considerable interest around Anderson because of the fact that Mr. Coleman has taught at the Lebanon High School in this county for the past session and Miss Smith is one of the popular young ladies of that section. The people of Anderson will learn with considerable regret that R. J. Scott has met with a very painful accident. Mr. Scott, who is janitor for the Central Presbyterian church and chamber of commerce, and a Confederate veteran, was riding on the elevator at the Anderson Cotton Mill yesterday when a heavy beam fell from above, striking him just below the knees. It was seen that he was badly injured and Mr. Scott was rushed to the Anderson county hospital where it was discovered that his legs were broken. It was said yesterday that Mr. Scott was doing nicely and it is hoped that he may entirely recover.

Meet Today To Complete Plans.

It has been announced by the officials of the Anderson County Livestock Association that a meeting of that body will take place this morning at 11 o'clock at the Anderson chamber of commerce to consider plans for the coming show to be held in this city. The association will have with it this morning representatives of the livestock dealers from every section of the county and all the plans for the coming livestock exhibit will be completed. All others interested in the program for trades days have been invited to attend this meeting and to lend their influence toward making the horse, mule and hog exhibit in this city a great success.

College Men To Play Game Today.

The Anderson fans will have an opportunity of seeing some real college baseball playing this afternoon at Peuna Vista park when a picked team from the city of Anderson, being composed of the college boys of the city will probably play against a team made up from among the electricians now in the city at work on the new building of the Bell Telephone Company. This game will bring out a number of old stars and some of the foremost institutions of the country will be represented by the players on either side. The game is to begin at 4:30 o'clock and there should be a large attendance for the game, which will probably be the last of the season at the local park, or for some seasons to come.

Says the Markets Are All Optimistic.

Mr. and Mrs. T. L. Cely have returned to Anderson, following a visit to the eastern markets. While they were away they visited a number of the principle cities of the country and Mr. Cely bought a large stock of fall goods for his store in Anderson. He said yesterday that none of the cities he visited gave any indication of business depression and that so far as he could see they were all very optimistic over conditions. They believe that the war scare will pass over in a few days and that business will be as good or better than it might otherwise have been.

New Stores To Be Attractive.

When the Kress Company's handsome new building is completed on South Main street and C. S. Minor has his new place finished and ready for occupancy, Anderson will be able to boast of five and ten cents stores equal to those of any town in the country. The two new establishments in addition to Bailey's fine place here, will provide this city with many bargain counters and some splendid stores. The Kress building is coming along at a very satisfactory rate and Minor's place is almost ready for him to begin moving in stock.

This will be Sunday.

Dr. Ross Will Move His Office.

Dr. Clyde Ross has rented offices in the new Watson Vandiver building on Main street and is preparing to move into them at an early date. The Cotton Pest Is In Anderson.

A worm said to resemble the army worm or some other cotton worm has appeared in the cotton fields of the county, according to the statement of farmers spending yesterday in Anderson, and in investigations are now being made in an effort to discover just what worm it is and that is damaging cotton here. It is generally believed that it is the army worm or something of the same nature. J. W. WEEKLY COTTON LETTER.

New York, Aug. 28.—Rather a more optimistic sentiment has developed in local cotton trade circles during the past few days with reference to the possibility of an early reopening of the exchanges. This means to be based chiefly upon a feeling that the meetings of representatives of the Liverpool, New Orleans and New York Exchange here next week will result in a satisfactory settlement of the old "international interest" on the basis of old rather than new crop values, and that such a settlement will positively improve the situation so far as the exchange are concerned. It is believed that the managers of the local exchange are considering plans for reopening business in government contracts only which some think might possibly be attempted before the old interest had been completely eliminated. Meanwhile business seems practically at a standstill. The only spot sales reported are of small scattering lots at sharply declining prices in the south. Little interest is shown in weather or crop news, and so far only one private report has been issued in the effort to forecast shadow the government bureau due on Monday. This indicated an improvement of about three per cent from last month's figure.
