THE BEST SHOW IN ANDERSON

ALLIES FEEL SECURE

Germany Are Now Fighting at a Decided Disadvantage

London, Sept. 18.—The Paris correspondent of the Reuter Telegraph Co. sends the following dispatch:

"No uneasiness is felt here regarding the result of the battle of the Aisne. News necessarily will be very scarce for some days.

"The struggle of the last three days has not been less severe than that of the Marne, but the conditions favor the allies. The enemy's high occupies a strong position but even that quarter has been obliged to give way slightly at certain points. Along the rest of the line the Germans are

orably placed, but the evacuation of the Varennes indicates the German left is beginning to yield.

"The German army is fighting at an enormous disadvantage from its base, with inadequate lines of communication. On its left the way is barred by the strongly fortified French frontier. In the rear, it is threatened by the Belgian army. Finally, the persistent rain aggravates difficulties attending the commissariat and the construction of entrenchments."

Midway Church Yard.

W. A. Webb, superintendent of the Midway Presbyterian church Sunday school, requests the announcement that the members of the congregation

are requested to assemble Friday morning at 8 o'clock for the purpose of clearing off the graveyard. All persons interested are requested to meet with the members of the congregation.

CHIEF OF POLICE KILLED

In An Effort to Arrest Negro Chief of Police is Killed

(By Associated Press.)
Johnson City, Tenn., Sept. 16.—Geo. F. Campbell, chief of police, was killed here today by George Segins, a negro, he was trying to arrest on a liquor selling charge. The negro was captured and rushed to the Jonesboro jail.

Electric City Sparklets

View Taken By Anderson Horses.

One of the veterinary surgeons in Anderson was standing at the gates of a corral yesterday morning looking at the horses which have been purchased here for use in the French army. When approached by a reporter for The Intelligencer and asked concerning the deep meditation the veterinary said that he was listening to the conversation which the horses were having among themselves and when asked to translate a portion of the horse dialect he said that the animals had agreed, after hearing of the terrible scenes they were going into, that the affair would look like an old maid's sewing circle compared to the experiences they had undergone during the recent primary election in South Carolina.

Mr. Brown Will Leave Anderson.

Carroll H. Brown, who has been connected with the Anderson office of the Piedmont & Northern lines has received notice that he has been promoted and on October will leave for Greenville, where he will assume the position of ticket agent with the same company at that city. Mr. Brown has had considerable railroad experience, having been connected with the Blue Ridge railroad and the P. & N. and he will certainly make good on the new job. He was being congratulated yesterday by his friends for his well deserved promotion.

Coming Edition To Boost Piedmont.

Albert D. Oilphant of the State company spent yesterday in Anderson collecting material for the coming edition of the Columbia State which is to be known as the "Piedmont Edition." This issue will deal with conditions in Anderson, Greenville and Spartanburg and in some measure will reflect the prosperity of these three cities and counties. Mr. Oilphant said that he was very much pleased with the information he secured in this city and he thinks that Anderson will make a splendid showing. He left yesterday afternoon for Greenville.

Says Texas Is In Bad Shape.

T. M. McNeese, a well known real estate and insurance man of Anderson has returned from Texas where he has been spending the last month. Mr. McNeese says that conditions in Texas just now are decidedly bad and that the cotton crop there will not be gathered at all this year if the farmers do not take some steps. He says that the crops have been stripped of foliage by the army worm and that many of the farmers are picking no cotton at all. It is understood that the cotton buyers are offering only 6 cents for cotton and that practically none is being sold.

Mr. Pennell Will Leave Anderson

Because of several changes in schedules on the Charleston & Western Carolina railway, Browne Pennell, an Anderson boy, and one of the mail clerks of the C. & W. C. has been transferred to Greenville and will have a run out of that city instead of out of Anderson. The change is to become effective at once and Mr. Pennell will go on his new run within the next few days.

Clemson College Is Giving Credit.

An important announcement made at Clemson college was to the effect that the college will extend credit in cases where it is necessary for those boys desiring to enter the institution. Because of the low price of cotton, many boys from the rural sections have given up hope of being able to go to college and this announcement will doubtless cause a number of additional applications for admission to come in within the next few days.

Mr. Gresson Died Very Suddenly.

Information was received in Anderson yesterday to the effect that Robert W. Gresson died very suddenly Wednesday night. Mr. Gresson was a railroad engineer and at one time made his home in this city. He has hundreds of friends in Anderson and the announcement of his death will come as a shock to them. It is understood that Mr. and Mrs. Gresson had returned from a visit to friends in Atlanta and reached home at 9 o'clock. While sitting in a chair at 9 o'clock, he fell over dead.

Queer Weather Here Yesterday.

Yesterday brought Anderson some of the queerest weather yet experienced. For a time the wind would blow a gale and the rain would fall in sheets and then the sun would come out, the rain would cease, the gale would subside and summer weather would prevail. Last night the weather was warmer than has been the case for several days.

Mr. Felton Is After Money

J. B. Felton, county superintendent of education for Anderson county, left yesterday morning for Columbia, where he goes to hold a conference with J. E. Swearingen, state superintendent of education. Mr. Felton made a trip to Columbia during the summer in an attempt to secure additional funds for the rural schools of Anderson county and at that time Mr. Swearingen agreed to provide the money when fall arrived. Before his departure Mr. Felton said that he was confident that he would be able to get some financial assistance, whether he can secure the entire amount or not. He expects to return to the city on Saturday afternoon.

Joint Meeting To Be Postponed.

Announcements have appeared to the effect that there would be a joint meeting of the R. A. and the Y. W. A. of Anderson, to be held this afternoon, but it has become necessary to make a change in this plan and the meeting has therefore been postponed. It will be held Monday afternoon from 4 to 6 o'clock at the home of Mrs. W. L. Anderson, at which time it is hoped that every member may be in attendance as considerable important business will be transacted.

College Boys Still Leaving.

Every train going out of Anderson carries one or two college boys, leaving for the various educational institutions to resume their studies. Robert McCulley, Louis Farmer, Guy Crocker, James Cooley and Paul Pearson left yesterday for the Citadel at Charleston, while Frank Conant and Geo. Prince left for Wofford college at Spartanburg. Every incoming train also brings delegates of girls to Anderson from different parts of the state to enter Anderson college, whose session was begun yesterday morning.

Sidewalk May Yet Be Opened.

Time and time again the contractors engaged in the construction of the Blue Ridge passenger station on Main street have promised that they were about to open the sidewalk along the front of the building so that the pedestrians may escape from under the feet of horses and wildly careening automobiles, but each time these promises have failed. However, the contractor said yesterday that he had finished all the cement work on the front of the building and he promises that the obstructions will certainly be removed by next week at least.

Belton Man To Buy 500 Bales

The Buy-a-Bale movement is gaining ground every day in Belton. A. S. Fant has announced that he is willing to buy 500 bales of cotton at 10 cents per pound, provided the cotton is brought by customers of his to purchase fertilizers and to pay on accounts. The Kay-Mattison Co. of Belton, has also agreed to accept cotton at 10 cents per pound in the payment of accounts and it is said that various other firms will likewise agree to do the same thing. This will be of much assistance to the farmers living in and around Belton.

If You Eat Pay Must Come

Some people living in Greenville, Spartanburg and other out-lying districts seem to have solved the problem of living on the fat of the land without making any effort at work, and therefore, Lewis Hewitt, a negro, originally from Spartanburg, decided that he would try this plan in Anderson. He did try it and for a time was very successful but when Lewis was through his experiment in Magistrate Broadwell's court yesterday he was a sadder but wiser man. He was arraigned on the charge of beating his board bill and the Magistrate passed sentence of \$30 or 20 days.

Show Will Be Bigger and Better

Harry Scott, manager of the Ringling Brothers circus, came to Anderson yesterday to make preparations for the coming of his show. Mr. Scott says that the circus is decidedly "bigger and better" this year than ever before and that the people of Anderson will see a number of new features with the mammoth production of this year. Bill posters went to work in the city yesterday and from now on the only date in the minds of the "youngsters" will be October 8.

Changes Benefit Commercial Men.

In discussing the changes which have been made in the schedules on the Charleston & Western Carolina railroad, T. B. Curtis, commercial agent of the road, said yesterday that these changes will benefit every traveling man living in Anderson. Mr. Curtis said that he had received sev-

HOME OF YOUR OWN IS A HOME INDEED

Take time by the forelock, and you can own your own home.

FOR HOMES, SEE JOHN LINLEY AT FARMER & LINLEY'S

This is the very thing our North Anderson "Looking Ahead" plan does.

The young men who are adopting this plan will have something—WATCH THEM!

eral petitions from the U. C. T. and the T. P. A. of Anderson relative to the train which formerly left this city at 6 o'clock a. m., each of the petitions praying that the train be held until a later hour. According to the new schedule this train will not leave Anderson now until 7:30 o'clock and it will be much more convenient for everyone in the city. The change in the afternoon also meets with popular approval.

Philatheas to Have a Big Sale.

The Senior Philatheas class of the First Presbyterian church is to have a cake and fancy work sale in the vacant store room on the west side of the public square Saturday afternoon. The Philatheas have made great preparations for this sale and it is expected that the patronage during the afternoon will be large.

Little Boy Buried Yesterday.

The funeral service over the 2-year old son of Mr. and Mrs. Lawrence Brown was held in this city yesterday afternoon at 2:30 o'clock, followed by the interment in Silver Brook cemetery. The little fellow became ill in Columbia and before he could be brought to Anderson he was dead.

SAGE TEA PUTS LIFE AND COLOR IN HAIR

Don't Stay Gray. It Darkens So Naturally That Nobody Can Tell.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll use a 50 cent bottle of "Weyth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old, famous Sage Tea Recipe are sold annually, says a well known druggist, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise then, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all dandruff goes, scalp itching and falling hair stops.

This is the age of youth. Gray haired, unattractive folks aren't wanted around, so get busy with Weyth's Sage and Sulphur tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

STEAMER CHASED

German Warship Unsuccessfully Tries to Capture Liner.

Boston, Sept. 17.—Reporting a narrow escape from capture by the German auxiliary cruiser Luxemburg when 300 miles south of St. Lucia, British West Indies, the British steamship Anselma de Larrinaga arrived here today from Buenos Aires. Captain Sampson said the Luxemburg, formerly a Hamburg-American liner of the same name, chased his vessel for 150 miles until the appearance of a French cruiser and a British warship forced her to abandon the pursuit.

"When we got into St. Lucia," said Capt. Sampson, "we were told that the Luxemburg had captured the British freight steamer Hyades, Holmwood and Bowes Castle, but being unable to put into any port with them, she had taken on the crews and sunk the vessels. The Bowes Castle was sunk two days before we got to St. Lucia, we were told. She was on her way to New York from Chile.

Two more British ships are reported missing and were thought to have been captured, according to Captain Sampson.

For Cleaning Tinware.

First wash the tin in hot soap and wipe thoroughly dry. Then scrub with dry flour, applied with an old newspaper.
