### USE MORE COTTON

We have called attention to the plans of western grain dealers to use nothing but cotton bags hereafter. have a sincere interest in the South and wish to help the cotton farmers

The Southern Textile Bulletin, published at Charlotte, goes even further and declares that if the government would put an additional tariff forced to substitute cotton for tute or burlaps. This publication states that over 16,000,000 yards of cotton goods were purchased for bags when it obtained, and as a consequence cotton went up in price 3-8 of a cent. The Textile Bulletin says:

The importing of burlap for the year ending Jone 30th, 1914, was 496,000,000 points or the equivalent of 1,000,000 bales of cotton.

Expressed in yards the imports were approximately 1,200,000,000 yards, and if an additional tax the importers can be forced to substitute cotion goods for even half that ambinit, the consumption of cotton will be increased and the cotton mills of the South will be busy.

Many of the users of bags and bag-ging will not, lowever, require any legislation as they have shown a willing was to turn to cotton bagging. J. Allen Smith & Co., millers, of Knoxville, Tens., have written to Hudgens & Rausdale of Pelser, that they are appealing to the manufac-turers of flour, feed, meal and shippers of potatoe, beans, etc., to use Throb through us, one heart and catton bagging They urge the merchants of the South to call for the use of cotton packages for every article that can be put ip and shipped in cot-

> This Knoxville firm presents the matter in a striking manner in sta-tistics. "A little figuring," they write, "shows that every car of the commodities mentioned, if put up in cotton pack.gr. will represent the consumption of nearly one-half bale of cotton, and we do not think it any exaggeration to say that 1,000 cars of the commodities named above are received and handled in the South every day."

> ery day."
>
> "If this is so, it will mean an average of 200 pounds of cotton represented by the gackages in each car, which will amount to 4,020 hales per day, or 1,200,000 hales per year This will help wonde fully and in addition to taking care of that amount of cotton will materially increase the work of the textile miles in turning out this additional yards to."
>
> The Knoxvilla firm is proceeding along the right lines. We have seen

along the right lines. We have seen with aproval the effort to increase our trade in South America, but we beleive that North an inviting field

Perseverance has won many a hard The man who has once been a sol-fought victory that was not worth the dier takes but little pleasure in reading of the horrers of the battlefield.

o of the watchful serum. The results in the United serum. The results in the United States army have been so remarkable that it is no wender that other nations will follow the example. Disease that the bullets of the enemy.

The conceptration causes during the Spanish-American way and results of the conceptration causes.

course, nothing like the well regulated camps with the discipline of the regular army, but men from Anderson who were camped at Chicamauga remember well the division hospital and the rows upon rows of fevered patients. While, as we admitted, there is no comparison between the hapharard methods of supplying food and water to those regiments and the orderly system to be found in the camping places of the regular army, yet it is a commentary, though a sad one, that many a bright young life might have been spared in 1898 If medical science had at that time discovered the typhoid vaccine which today saves the lives of our soldiers.

From the Journal of the American Medical association we learn that, the then got up a law for them laterrecord of the maneuver division in camp at San Antonio, Texas, during the one summer, an average strength of 12,800 men, all inoculated, occupied Berlin; there is no reason why the of 12,800 men, all inoculated, occupied the alactic be in any hurry to get the same camp for four menths, from March to July and in this command but one case of typhoid developed. This was a mild case in a hospital on the quality of what you corps, a man who had not completed the inoculations necessary for protection. There were 49 cases of typhoid with 19 deaths in the city of San Antonio for the same months, among the civilians who had not been incculated. Whereupon it is easy to de-

### THE WOMEN OF BELGIUM

We, with our cotton troubles here are after all so much more fortunate than poor Belgium. Think of the women of Belgium! There has been organized in New York, with J. P. Morthe relief of the people of Belgium. The appeal comes from the ministers of Belgium, backed up by some of the best people in the United States.

We fear that the people of the South have no means to spare, but just to show how much better off the South is at this time, we will quote a few xtracts from the letter of appeal. Belgium in trying to observe neg rality laws, was forced into a fight and that country, being battered, plundered, burned and robbed of its growing and its garnered crops, is in a state of immeasurable destitu-

tion and misery.

"Prosperous Belgian cities have been practically destroyed, Belgian industries have been paralyzed, hundreds f not thousands of her wage earners nave been killed, many thousand homes have been obliterated, and unnumbered wives and children have been made utterly destitute," is one of the sad passages in the letter of appeal.

"Seven of the nine provinces that go to make the Kingdom of Belgium have been devastated by the most dreadful war known to history, Thousands and thousands of people have nothing in the world left, not a roof over their heads, no money, no clothes, and no chance of earning a living of any sort.

"The sight of the poor refugees streaming into Antwerp from Lonvain and Malines, women with babies in their arms, their older children clinging to their skirts, men wheeling their decrepit fathers in wheelbarrows or helping along a crippled brother or son, is more pitiable than any words gan express.

"It scarcely would be possible to exaggerate the calinity which with overwhelming sudd-ruess has fatten upon this peaceful delifty and self-roliant people.." Byen Sherman in his devastation of

the South was not as cruel to our people as the victorious Teutona have been in Belgium, and when we think of their suffering, it should make the people of America the more con with their lot.

The laziest of persons is generally aggressive in masticating chawing

### LPT CONGRESS ACT

Governor Slaton of Georgia has doclined to call an extra session of the legislature of his state. Governs or Craig of North Carolina, has done linewise. Therefore it appears that the South Carolina legislature will have a hard proposition in its extra session. One state alone cannot solve the problem, although if South Caro-

relieve the distressing conditions." e said "But it appears that nothing

Congress inaugurated the great irrigation plan for the Western states and only recently remitted interest on a fifty million dollar loan. It has relorised silver in the interest of the money for the relief of San Francisco after her disaster. But when the South asks for relief we are given a respectful hearing with a view, it seems, of finding some grounds for refusing to help us."

We think that in a great measure Governor Slaton is right. Congress has already established a precedent. We have heard people fear that congress would be establishing a dangerous precedent to create a fund for retiring the surplus of the present cotton ero in the South. What right had congress to rebuild the city of Dayton, Ohio, destroyed by a flood? A precedent was created there. Gro-ver Cleveland needed no precedents. He went shead and did thirgs and Congress can do the same thing.

The cotton farmer of the South should not be petted and pampered, but he should be helped in cases of necossity.

If congress hould put up the price of cotton by retiring the sarplus crop it would make the South rich. s South bocomes rich the rest to Ande of the country will benefit proportion-

ately for the South buys everything to wear and nearly everything to eat. "Don't be afraid of making prece dents, gentlemen of congress. Do something to help your countrymen duce that the prince protected the and, let future emergencies be faced health and the lives of our soldiers, as the times demand.

gan & Co., as treasurers, a fund for COL. JULIUS E. BOGGS HAS PASSED AWAY

### LONG ILLNESS

For Years Solicitor of Eighth Circuit and One of Best Known Attorneys in South Carolina

Col. Julius E. Boggs, one of the best known attorneys in South Carolina, died last night at 7:30 at the Anderson county hospital. Col. Boggs was a man who always saw the cheerful side of everything and there was always something humorpus every situation. He once asked the president of a big railroad system to exchange passes with him, and won hir voint with an unexpected argument. A somewhat sneering manner the resident of the railway system inquired "how long was the Pickens Failroad any how?" Mr. Boggs in his drawling way replied: "Well mister it may not be as long as yours, but it is every fit as wide."
